"This dramatic memoir recaptures William Seabrook's experiences during an eight-month stay at a Westchester mental hospital in the early 1930s. Seabrook, who was a renowned journalist, voluntarily committed himself for acute alcoholism. His account offers an honest, self-critical look at addiction and treatment in the days before Alcoholics Anonymous and other modern programs. In compiling this landmark sourcebook, Finnish guitarists Hannu Annala and Heiki Matlik consulted more than 70 music texts as well as dozens of composer resumes acquired from the musical information centers of several countries. During the writing process, which lasted for more than three years, they received additional information from many modern composers, including Leo Brouwer and Reginald Smith Brindle among others. In addition, several internationally renowned performing guitarists provided valuable information; these include Magnus Andersson

(Sweden), Remi Boucher (Canada), Margarita Escarpa (Spain), Aleksander Frauchi (Russia) and David Tanenbaum (USA) among others. The authors' aim was to write a well-structured book with separate chapters for each instrument, such as the Renaissance and Baroque guitar, the Renaissance and Baroque lute, the vihuela, etc. This unique structure enables the reader to easily discover which composers wrote for a certain instrument during any given period. In addition to the composers one would expect to find in such a comprehensive listing, the book documents several historical and modern composers for whom little previous information has been available. The book's list of more than 400 guitar and lute concertos dating from the Baroque era to the present day is a totally unprecedented. Short introductions regarding guitar and lute-like instruments as well as their basic histories are provided at the beginning of the book. The authors hope that the Handbook of Guitar and Lute Composers will serve as a practical guide for both amateurs and professionals, encouraging further study of the history of these instruments and expanding the repertoire heard on today's concert stage.

The Most Dangerous man since Jesus Christ, the Sex Guru, the Ambassador from Hell, the Black Devil of Ashkhabad, The King of Depravity, and the Wickedest Man in the World. These were some of the labels given to three of the most notorious figures of 20th century spirituality: Osho (formerly known as Bhagwan Shree Rajneesh), G.I. Gurdjieff, and Aleister Crowley. Beneath the controversies and scandals that swirled around all three the author argues that these men, egocentric tendencies notwithstanding, were brilliant thinkers and extraordinary

masters of their craft, that of the science of inner transformation, and in particular the art of balancing the so called Left and Right Hand spiritual paths. These men were not humble sages. They were bona fide crazy wisdom masters and consistently went where angels fear to tread. They did not teach with the faint praise of new age fluff or the stuffy platitudes of religious sermons, but rather with a flaming sword, and were a genuine menace to all seekers who fear to face the abyss of their own egos.

There is a world that mirrors our own. Everything in this world is made of substance finer than air, finer than light, finer than thought itself - the aether. In the aether there are inner sensations such as ideas and feelings that are as tangible as anything in the material world. In *The Mentalist's Handbook*, Clint Marsh gives us a glimpse of the world. He offers step-by-step exercises, detailed and beautifully written explanations and definitions, and gorgeous black and white illustrations by award-winning artist Jeff Hoke. Inspired by esoteric, occult, and magic books published over the last 150 years, Marsh has aspired to create something of singular importance in the tradition of classic occult manuals. Both practical and whimsical, and complete with visual aids, this field guide to the paranormal will appeal to students of the New Age, esoteric scholars, readers of post-modern and magical-realism, angel, ghost and fairy enthusiasts, comic and graphica fans, and artists alike.

The only way Falcio can stop the country turning into a vicious theocracy is to find and stop the Saint-killer - but his only clue is the iron mask encasing the head of the Saint of Mercy, which prevents her from speaking. Handbook of Guitar and Lute Composers Bonnier Zaffre Ltd.

Explains the science behind the practice of nei kung, the elemental nature of yin and yang energy--the two components of ch'i, and how learning to control the yang energy in our ch'i can result in the release of dynamic energy. • Establishes the existence and understanding of nei kung in the practices of many of the world's ancient cultures. • Includes a step-by-step guide to the meditation that forms the basis of the practice of nei kung. • By Kosta Danaos, author of *The Magus of Java* and apprentice to an immortal of the Mo-Pai tradition. In 1994 Kosta Danaos was accepted as a student by John Chang, a Chinese-Javanese Taoist in the Mo-Pai tradition and a master of nei kung, the practice of harnessing and controlling our body's bioenergy, or ch'i. *Nei Kung: The Secret Teachings of the Warrior Sages* describes the practice of nei kung and how learning to control our ch'i can result in the release of dynamic energy that can be used for healing, pyrogenesis, telekinesis, levitation, telepathy, and more. Danaos suggests that both components of ch'i--yin and yang energy--are fundamental to the earth and to life and were recognized and used in many of the world's ancient cultures. Though we have forgotten how to access them, these components are in fact elemental parts of us. The author explains that we first must open our minds to the fact that the power of ch'i is real. Next, in learning to control our ch'i as a whole, we must learn to channel our yang energy in productive ways--a potential we all possess. To help readers understand their capacity to connect with this inner elemental power, the author

offers a fascinating blend of teachings that include sound scientific theories explaining much of the "magic" of nei kung. He also offers historical, linguistic, artistic, and literary proof of the presence and understanding of nei kung throughout the ages and a step-by-step introduction to several types of simple meditation--fundamental to directing one's ch'i. With his engaging storytelling and disarming humor, his physics-based explanations for seemingly mystical phenomena, and his reassurances that he's really no different from the rest of us, Kosta Danaos shows us that once we remember our capacity to harness our yang energy, we can change ourselves and our world.
