Does public speaking paralyze you and tie your stomach into knots? Want to get a standing ovation every time? What goes into a dazzling opening and closing? Does the prospect of facing embarrassing judgment make your palms sweat? Or do you want to learn how to absolutely own the stage and become a magnetic speaker? Public speaking and presenting is one of the most common phobias -- and it's completely understandable. When else in our lives are we so open and vulnerable? But it's a necessary evil in all aspects of our lives, whether professionally and personally. From making a presentation in the boardroom to being more confident with the opposite sex, your speaking skills will take you to the next level and get exactly what you want in your life. Fearless Public Speaking is the rare book that will (1) help you destroy your anxiety so you can confidently take any stage, and (2) once you're up there, be unforgettable and captivating as a speaker. The tenets in this book come from studying the experiences of the best presenters in the world, from CEOs, standup comics, to actors, and more. Jason Bax, noted actor, speaker, and entrepreneur, lends his thoughts in a guest chapter. And me? I'm a social skills and charisma coach, speaker, and semi-professional musician who thrives in front of the crowd... but I wasn't always like this - I know your struggles and I can help you from point A to point B! How will you learn to captivate audiences? •Why knowing where your audience gets their news is key to your memorability. •How to construct a bulletproof opening and closing. •How to make sure you reach any audience emotionally. •Overcoming stage fright and jitters with mental rehearsal techniques. As well as... •What rehearsed spontaneity is and how it makes your audience connect. •Stage presence

techniques of the masters of performance like Freddie Mercury. •How standup comics own the stage and win over hostile crowds. •What a memory palace is and how it will help you memorize your speech. Put the audience in the palm of your hand, starting now! •Feel confident and empowered in taking the stage anywhere, anytime. •Speak your way to better jobs and relationships with each mini-presentation. •Build a reputation as an effective and engaging speaker. •Learn to overcome judgment and build self-confidence. •Own the room, audience, and applause.

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Yoga therapy holds the key to effectively addressing stress and lifestyle diseases. Conventional medicine is useful for alleviating symptoms, but yoga therapy that is grounded in traditional theory identifies and addresses causes deeper than the physical body. Yoga therapy practices build resistance to stress and increase resilience. Kazuo Keishin Kimura is a Raja Yoga Acharya who has devoted himself to making traditional yogic wisdom accessible in Japan. With this English translation of his book, he hopes to contribute internationally to yoga therapy's development as a respected modality. In this book, Kimura points out how traditional yoga theory is missing from modern-day

yoga instruction. He then explains traditional yoga's view of the mind-body complex as five koshas (sheaths), each with specific functions and attributes. Just as medical doctors examine patients before deciding on treatment, yoga therapists must obtain informed consent and assess the conditions of all koshas. Understanding yoga's horse-drawn chariot metaphor for human structure and function is also helpful to see beyond symptoms and to identify root causes of disease. Kimura skillfully guides readers to understand these two theories of human structure and function, and illustrates how they can be incorporated into both yoga therapy assessment and practice.

Welcome to this interactive ebook on the chakra mantras. Interactive? Because of the links to the companion videos on YouTube where you can learn how to chant. Here you will find easy-to-understand answers to these three questions and more: 1. What is the chakra system, and why is it so important? 2. What makes Sanskrit mantras unique? 3. What Sanskrit mantras are used to tune (activate and balance) the chakras? As a bonus, in Chapter 4, I will introduce you to the Yoga of Sound, the much larger system of sound healing of which the chakra mantras are an important part.

Finally, I'll end the book with my prescription for you, a recommended home practice, or mantra sadhana. As a medical doctor, I used to prescribe pills. As a mantra yoga practitioner, I now prescribe mantras. I go straight to the healing mantra appropriate for the condition. I believe that Mantra Yoga will become the new psychiatry, a path back to wellness without prescription drugs and their side effects."

Come Laugh With Me Harrison Graves

On Good Friday, 1626, Franciscus Quaresmius delivered a sermon in the Church of the Holy Sepulcher in Jerusalem calling on King Philip IV of Spain to undertake a crusade to 'liberate' the Holy Land. Jerusalem Afflicted: Quaresmius, Spain, and the Idea of a 17th-century Crusade introduces readers to this unique call to arms with the first-ever edition of the work since its publication in 1631. Aside from an annotated English translation of the sermon, this book also includes a series of introductory chapters providing historical context and textual commentary, followed by an anthology of Spanish crusading texts that testify to the persistence of the idea of crusade throughout the 17th century. Quaresmius' impassioned and thoroughly reasoned plea is expressed through the voice of Jerusalem herself, personified as a woman in bondage. The friar draws on many of the same rhetorical traditions and theological assumptions that first launched the crusading movement at Clermont in 1095, while also bending those traditions to meet the unique concerns of 17th-century geopolitics in Europe and the Mediterranean. Quaresmius depicts the rescue of the Holy City from Turkish abuse as a just and necessary cause. Perhaps more unexpectedly, he also presents Jerusalem as sovereign Spanish territory, boldly calling on Philip as King of Jerusalem and Patron of the Holy Places to embrace his royal duty and reclaim what is rightly his on behalf of the universal faithful. Quaresmius' early modern call to crusade ultimately helps us rethink the popular assumption that, like the chivalry imagined by Don Quixote, the crusades somehow died along with the middle ages.

Qigong Teacher and Daoist Priest Michael Rinaldini has written a book on the modern day practices of a Daoist. His book, A Daoist Practice Journal: Come Laugh With Me offers the cultivation methods for walking the Daoist path. The entries cover topics like zuowang meditation, scriptures, qigong, the value of silence and solitude, and Daoist, Buddhist and Catholic mysticism, tea drinking and more. Here are some samples of his entries, which provide a glimpse into the heart of his writings. 2012 January 14 Sky Farm Hermitage Solitary Retreat In silence and solitude I begin another retreat on Saturday afternoon, January 14, 2012. The rest of Saturday afternoon was spent un-packing and settling into a 6-day retreat. 6:15pm What does a Daoist eat while on retreat? Tonight, I made a soup with soba noodles and assorted vegetables. I forgot to bring ginger root. 9:40pm I vow to practice ... in silence and solitude, until I realize Complete Perfection. January 15 8:30pm One of my goals for this retreat is to write about the common practices between the Daoist and the Christian paths. I am specifically interested in the Daoist zuowang meditation method of sitting in forgetfulness or oblivion, and the Christian fourteenth-century mystical text, The Cloud of Unknowing. Both of these ways of meditation or contemplation feature an emphasis on placing the mind's activities into a state of forgetting or the cloud of forgetting. The Cloud, was written by an anonymous author, and it is speculated that the author was a Carthusian monk, and if not, possibly a Catholic priest living a hermetic lifestyle. And so what are the similarities, the common practices between zuowang meditation, and the contemplative practices as presented in The Cloud of Unknowing? January 16 2pm Sitting in silence outside on the porch, The only sounds-birds singing, An occasional movement of the wind, And very faint voices from neighbors down the valley. Odd at how sound travels. And right now, there was the sound of a car, actually, What I heard was the sound of the road, A gritty gravel sound. My mind filled in the blanks, And I instantly labeled it, "a car driving nearby," Though it could have been a truck. And now my sneezes and coughing, And blowing my nose, all disrupt the silence A large crow just landed in my valley, Returning me to silence. January 17 Sitting on the porch, all bundled up. Drinking Scottish Christmas tea and a banana, and one cookie. A large part of being in silence and solitude is simply listening. Even the wind down the valley. You can hear it as it makes it way up the hills, And now, I feel it against my

body, It flaps the page of this journal book. And before you know it- It's gone, and the silence returns. Except for the birds, sound of distant dogs, chickens, And that same sound that cars/trucks make on the gravel road. 12:30pm The Cloud's author says: Forget what you know. Forget everything God made and everybody who exists and everything that's going on in the world, until your thoughts and emotions aren't focused on or reaching toward anything, not in a general way and not in any particular way. Let them be. For the moment, don't care about anything (11). And finally, why even bother to think? From the zuowang tradition: I forget the vastness even of Heaven and Earth, Never mind the minuteness of the hair in autumn. Resting in serenity and silence, I listen to Pure Harmony. Still, I am free, away from it all! Movement stilled, language silenced- Why ever think? (212). January 18 4:30 pm Inspired from yesterday's research, and last full day of retreat. Forget everything, Put nothing, between myself, And the Great Emptiness of Ultimate Stillness. That's the nameless Dao! End of Retreat

This book provides the database professional and power user with working solutions for daily business tasks. The goal has been to reduce needless writing and concentrate on the daily needs of database usage and development. An efficient database professional does not need a book to tell him or her how to execute a query or how many types of queries Access 2007 supports; the answers are a click away in the help file or online. What power users and developers need is thought-out solutions to show them the way to achieve their difficult tasks without having to look around for hours, days, or sometimes weeks. In addition, they need a book to show them when something is possible, when it is not, how many ways exist to achieve a task, and which one is the most efficient.

Furthermore, the table of contents is not arranged by topic (tables, queries, reports, etc) but by solution. The content of the book should be practical and the layout should help the professional find what he or she needs in seconds. Learn how to use your databases for real business tasksPindar has worked on hundreds of business databases and operational systems for the last 18 years. In this book, he provides actual scenarios and code you can use in your daily business situations. Actually, you will get many ideas of how to employ Access 2007 to get data in ways you were not aware it was possible. Some examples, especially in the beginning of each chapter are quite simple so that readers with less Access experience can follow and learn but they are definitely not simplistic. Leave superfluous theory on the side and focus on the essence of your operations You might be taught a thousand pieces of theory and politically correct techniques on databases. In the end, what you will need is a way to accomplish your task. This book will show you exactly the concepts you should learn and expand on them in detail. Theory is present but only to support a practical technique; not for the sake of it. Concentrate on holistic solutions and not clustered technical skills This book leaves behind the classical format of texts. Instead of providing multiple and isolated concepts, it combines the necessary techniques to arrive to a real world solution. For example, instead of just showing what a date function is, it demonstrates how it can be used in combination with clauses and other functions to obtain order processing cycle times or order fulfillment goals for your corporation. At the end of the day, when you read a book, you need to be able to use your knowledge to achieve a task. The business table of contentsYou will find a novelty in this book which is its business table of contents. There are two tables of contents in this book. There is the classical one to find what you need on database concepts. However, there is also a business table of contents you can consult to find the business solution you need. For example, how to conditionally update product prices from multiple suppliers and by various percentages. Use this book as a handy referenceFinally, this book has been written with the idea of using it as a reference. You might need to flip its pages to check something simple like the correct use of quotes in criteria expressions or concatenated fields. Or you might need to check something more elaborate like how to use a subquery to manipulate data in one table based on the values of another table.
