A dance was devised in
eighteenth-century
Skye. An exhilarating

dance. A dance, a
visitor reports, 'the
emigration from Skye
has occasioned'. The
visitor asks for the
dance's name. 'They
call it America,' he's
told. In his introduction
to this new edition of
his classic and
pioneering account of
what happened to the

thousands of people who left Skye and the wider north of Scotland to make new lives across the sea, historian James Hunter reflects on what led him to embark on travels and researches that took him across a continent. To Georgia, North Carolina and Montana; to Nova Scotia, Quebec, Ontario and the Mohawk Valley; to prairie farms and great cities; to the Rocky Mountains, British Columbia and Washington State. This is the story of the Highland impact on the New World. The story of how soldiers, explorers, guerrilla fighters, fur traders, lumberjacks, railway builders and settlers from Scotland's glens and islands contributed so much to the USA

and Canada. It is the story of how a hard-pressed people found in North America a land of opportunity.

Here is the fifteenth magical installment of the New York Times and USA Today bestselling series of fractured fairy tales for fearless kids! Put on your dancing shoes! Believe it or not, there's a fairy named Maryrose LIVING in my house. And she's sending me and my brother, Jonah, through the magic mirror and into the story of The Twelve Dancing Princesses. There, we meet the twelve sisters who sneak out every night to go dancing. But Jonah and I have our own mission. It's up to us to find the enchanted object that

will give Maryrose her fairy powers back. So now we need to: -Get our hands on an invisibility cloak -Follow the twelve princesses to their secret hideout. -Learn some VERY complicated dance steps. -And avoid being thrown in the dungeon. We better wiggle our way out of this magical mess or we'll never help our fairy friend in time!

Dancing With Giants

Basic Books

"In writing this book it was decided not to stay within the demarcations of the movie [MGM-UA's 1984 compilation of the same name] but to go beyond it and give a broader account of the history of dancing in the American sound film, told through the stories of those individuals who had

most conspicuously contributed to its success"--Page 21.

 Who doesn't love music? We all do. Who doesn't love the DJ? We all do. What a better way to work on the alphabets than wrapping them up in the world that happens between two turntables and a mixer? D is for DJ takes rudimentary learning and spins it on its head. Changing up the played out and giving early education a well needed remix.
Supercorp Univ of California Press
 Throughout her extraordinary career, Professor Rosabeth Moss Kanter has always pushed the boundaries through her high-level field research, and her

breakthrough ideas with practical applications for a broad audience. One of the world's bestselling business thinkers, her work on leadership and change management has influenced the most enlightened and successful executives and entrepreneurs. Supercorp, based on a three-year worldwide research program, provides the answer to a question crucial to both business and society more broadly: as a company grows, how can it avoid becoming a lumbering, corrupt giant? Companies such as IBM, Procter & Gamble, Mexican-based Cemex and Japanese-based Omron provide the models that businesses small and large can use to stay on track, outstrip the

competition, and attract and motivate the new generation of talent. And, Professor Kanter provides the evidence of the powerful synergy between the financial success shareholders want and social conscience - it is only these 'vanguard companies' that are big but human, efficient but innovative, global but local, that will succeed in the future.

This book is about seeing systems. It is about overcoming

system blindness and seeing our part in the context of the whole, and the present in the context of the past. It is about seeing ourselves in relationship with others and creating satisfying and productive partnerships in these relationships. It will enable us to create systems with extraordinary capacities for surviving and developing. "Oshry weaves a remarkable explanation for the subtle, and largely unseen ways in which our structures influence our behaviour." Marvin Weisbord, author *Productive Workplaces*. The constellation of lives which inspired and illumined these page are real. Their

pain is not theoretical, their struggles are not sophisticated, their heartache is all too tangible. Their courage, faith, and laughter, and tears give new meaning to dignity and.

New Dance Harry N. Abrams

Ken Follett's magnificent historical epic begins as five interrelated families move through the momentous dramas of the First World War, the Russian Revolution, and the struggle for women's suffrage. A thirteen-year-old Welsh boy enters a man's world in the mining pits. . . . An American law student rejected in love finds a surprising new career in Woodrow Wilson's White House. . . . A housekeeper for the aristocratic Fitzherberts takes a

fateful step above her station, while Lady Maud Fitzherbert herself crosses deep into forbidden territory when she falls in love with a German spy. . . . And two orphaned Russian brothers embark on radically different paths when their plan to emigrate to America falls afoul of war, conscription, and revolution. From the dirt and danger of a coal mine to the glittering chandeliers of a palace, from the corridors of power to the bedrooms of the mighty, *Fall of Giants* takes us into the inextricably entangled fates of five families—and into a century that we thought we knew, but that now will never seem the same again. . . .
That's Dancing! John

Wiley & Sons
 "THE MOST UNLIKELY OF PEOPLE, IN THE MOST IMPROBABLE OF CIRCUMSTANCES, CAN BECOME EXTRAORDINARY." WE NEED MORE LEADERS. From socio-political chaos and workplace disruption to the climate change crisis, we have never needed people with the skill and will to collaborate to create a better world more than now. We need people who are willing to fill the leadership void. People who will embrace the influence they have. People who believe in improving society and workplace culture - not only because it makes life better, but because it is proven to yield positive results. The Promises of *Giants* is a challenge to anyone who aspires to make a

difference in their environment. Over fourteen promises, it seamlessly intertwines personal anecdotes and workplace and social observation with the latest research, to provide practical, proven tips and strategies to empower you to maximize your own potential and inspire others. It is not a self-help book. It is a how-to guide for winning, rooted in the belief that the most unlikely of people, in the most improbable of circumstances, can become extraordinary. John Amaechi well understands the responsibilities and potential that come with being a giant. The Promises of Giants is the product of a lifetime spent observing and studying effective leadership -

from accompanying his mother's visits to her dying patients to competing at the highest levels of professional sport, through two decades of management consulting with multinational corporations. These experiences have shown that everyone has the ability to act decisively to influence the world in a positive way. Everyone is a giant to someone. D Is for DJ Profile Books "This collection of essays, lectures and notes reveals the inspiration behind the creation of the choreography of modern dance founder Doris Humphrey. The fundamentals of her composition: form, content and execution are expressed in her own spirited words,

providing an intimate look at the creative process"--Dust jacket.

Abstract: This book presents practical information on the conduct of American business and management. The author concentrates on innovation, entrepreneurship, and the development of participative management skills that encourage the use of new ideas arising from within the corporation itself. The organizational structures, corporate cultures, and specific strategies of several major American companies are examined.

Men and Women of the Corporation Simon and Schuster

The Grand Union was a

leaderless

improvisation group in SoHo in the 1970s that included people who became some of the biggest names in postmodern dance: Yvonne Rainer, Trisha Brown, Steve Paxton, Barbara Dilley, David Gordon, and Douglas Dunn. Together they unleashed a range of improvised forms from peaceful movement explorations to wildly imaginative collective fantasies. This book delves into the "collective genius" of Grand Union and explores their process of deep play. Drawing on hours of archival videotapes, Wendy Perron seeks to understand the ebb and flow of the performances. Includes 65 photographs.

Anna spends her days in the company of gentle giants. Just Dance (Whatever After #15) Harvard Business Review Press Americans are stuck. Americans are stuck. We live with travel delays on congested roads, shipping delays on clogged railways, and delays on repairs and project approvals due to gridlocked leadership. And when we can't move, when goods are delayed, and when information networks can't connect, then economic opportunity deteriorates and social inequity grows. We don't have to take it anymore! In *Move*, Harvard Business School professor and bestselling author Rosabeth Moss Kanter visits the business leaders, mayors,

transportation advocates, and entrepreneurs across the country tackling these challenges through underwater tunnels, instant bridges, road sensors, parking apps, bike-sharing programs, seamless wifi, and much more. It all adds up to a new vision for American mobility, where local leaders and public-private partnerships lead the way. With unique insight and unrivaled expertise, Kanter gives us a sweeping look at the innovative projects, vital leaders, and bold solutions that are moving our transportation infrastructure toward a cleaner, faster, and more prosperous future.

The Art of Listening
Birlinn Ltd

Indiana Jones has landed his first teaching post, in the archaeology department at London University. His brightest--and prettiest--student is a twenty-year-old Scottish girl, Deirdre Campbell, who claims she's uncovered a golden scroll, proof of the true existence of Merlin, sorcerer of myth and legend. Indy's intrigued by the thesis . . . and by Deirdre. So, too, is member of Parliament Adrian Powell. He's seeking to resurrect the ancient order of the Druids, whose secrets of power could pave his way to world conquest. But first he needs the scroll . . . and he's willing to kill to get it. Where there's magic, mystery, and murder, Indy goes to

the head of the class. Dropping his books and picking up his bullwhip, he joins Deirdre on an action-packed chase across Britain, from the peril-filled caves of Scotland to the savage dance of the giants at Stonehenge--where Merlin's secret will finally be revealed. But not before Indy gets a lesson in love from Deirdre . . . and a lesson in hate from a maniac who means to rule the world.

In The Art of Listening, Anthony Arnone interviews 13 of the top cello teachers of our time, sharing valuable insights about performing, teaching, music, and life. While almost every other

aspect of twenty-first-century life has been changed by technological advancements, the art of playing and teaching the cello has largely remained the same. Our instruments are still made exactly the same way and much of what we learn is passed on by demonstration and word of mouth from generation to generation. We are as much historians of music as we are teachers of the instrument. The teaching lineage in the classical music world has formed a family tree of sorts with a select number of iconic names at the top of the tree, such as Pablo Casals, Gregor Piatigorsky, and Leonard Rose. A large percentage of

professional cellists working today studied with these giants of the cello world, or with their students. In addition to discussing the impact of these masters and their personal experience as their students, the renowned cellists interviewed in this book touch on a variety of topics from teaching philosophies to how technology has changed classical music.

In this landmark work on corporate power, especially as it relates to women, Rosabeth Moss Kanter, the distinguished Harvard management thinker and consultant, shows how the careers and self-images of the managers,

professionals, and executives, and also those of the secretaries, wives of managers, and women looking for a way up, are determined by the distribution of power and powerlessness within the corporation.

This new edition of her award-winning book has a major new afterward in which the author reviews and analyzes how attitudes and practices within the corporate power structure have changed in the 1990s.
