Monica Murphy, the New York Times bestselling author of *One Week Girlfriend*, continues her sexy contemporary romance series - perfect for fans of Christina Lauren and Emma Chase - about three powerhouse sisters and the men who would have their hearts. It's time for this nice girl to be naughty. Rose Fowler stays out of the limelight, although working always behind the scenes for Fleur Cosmetics leaves her feeling unappreciated. Until one night at a

glittering party in Cannes, it's her turn to step forward - to say no to her father, to outshine her sisters, to walk away from it all - straight into the arms of a gorgeous stranger. But what if mysterious Caden is more than she bargained for? He makes her feel sexy and free, yet there's something dangerous about him too. Maybe their 'chance' meeting wasn't so random. Maybe he was looking for her for a reason. Whatever his motive, there's no going back now. And maybe she doesn't want to. For more of the fabulous Fowler Sisters look for *Owning Violet* and *Taming Lily*. Don't miss Monica's emotionally powerful *One Week Girlfriend* series: *One Week Girlfriend*, *Second Chance Boyfriend*, *Three Broken Promises*, *Drew + Fable Forever* and *Four Years Later* and her breathtaking *Reverie Series*.

The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period.

Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment.

Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been

conducted in Finland, Sweden and Denmark with a web based survey ordered by the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.

This paper reviews economic developments in Suriname during 1994-96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.

"Drawing on examples from nine countries across five continents, this book offers anyone interested in the future of higher education the opportunity to understand how communities become marginalised and how this impacts on their access to learning and their ability to thrive as students. Focusing on groups that suffer directly through discriminatory practices or indirectly through distinct forms of sociocultural disadvantage, this book brings to light communities about which little has been written and where research efforts are in their relative infancy. Each chapter documents the experiences of a group and provides insights that have a wider reach and gives voice to those that are often unheard. The book concludes with a new conceptualisation of the social forces that lead to marginalisation in higher education. This cutting-edge book is a must read for higher education

researchers, policy makers, and students interested in access to education, sociology of education, development studies, and cultural studies"--
