legendary Met Galas,
Stephanie Winston
Wolkoff met Melania
Knauss in 2003 and
had a front row seat to
the transformation of
Donald Trump's then
girlfriend from a rough-
cut gem to a precious
diamond. As their
friendship deepened
over lunches at
Manhattan hot spots,
black-tie parties, and
giggle sessions in the
penthouse at Trump

watched the newest
Mrs. Trump raise her
son, Barron, and
manage her highly
scrutinized marriage.

After Trump won the
2016 election, Wolkoff
was recruited to help
produce the 58th
Presidential Inaugu-
ration and to become
the First Lady's trusted
advisor. Melania put
Wolkoff in charge of
hiring her staff,
organizing her events,
helping her write
speeches, and creating
her debut initiatives.
Then it all fell apart
when she was made
the scapegoat for
inauguration finance
irregularities. Melania
could have defended
her innocent friend and
confidant, but she
stood by her man,
knowing full well who
was really to blame.
The betrayal nearly
destroyed Wolkoff. In
this candid and
emotional memoir,
Stephanie Winston
Wolkoff takes you into
Trump Tower and the

White House to tell the funny, thrilling, and heartbreaking story of her intimate friendship with one of the most famous women in the world, a woman few people truly understand. How did Melania react to the Access Hollywood tape and her husband's affair with Stormy Daniels? Does she get along well with Ivanka? Why did she wear that jacket with "I really don't care, do u?" printed on the back? Is Melania happy being First Lady? And what really happened with the inauguration's funding of \$107 million? Wolkoff has some ideas...

To most thirty-something women, walking across the street to get a skinny latte and the latest copy of heat in excruciating high heels is an all-terrain task in itself. But Lois Pryce isn't just any woman - nine to five and post-work white wine spritzers have never been her thing.

Unafraid of a challenge - having already ridden her motorbike from Alaska to the southernmost tip of South America - she decided she could never be one to settle for a last minute package holiday in Viva Espana. So, she

began the kind of adventure most of us could only ever dream of.

Plenty of retirees take a holiday. When Brian Rix retired after 36 years as a policeman in Victoria rather than hitching up the caravan, he put his wife, journalist Shirley Hardy-Rix, on the back of his motorcycle and headed off for a ride.

For the next 16 months Brian and Shirley rode more than 83,000 kilometres through 32 countries on five continents with side trips to Antarctica and Galapagos Islands. They rode from the bottom of South America to the very top of North America. They rode over the Andes, sometimes more than 5,000

metres high. They rode through deserts, the tropics and up to Alaska. They had a catastrophic breakdown in the heart of bear country and suffered altitude sickness. The motorcycle didn't make it to Antarctica but they did - taking them from Antarctica Circle to the Arctic Circle... and then a bit more. Beautifully illustrated in full colour throughout, Circle to Circle is an engaging account of the travels of an adventurous couple. It will entertain you in your armchair, or it may even inspire you to get up and go! Praise for Brian & Shirley's previous book, Two for the Road Makes you want to get up and go. - Australian Women's Weekly Few books are as

inspirational as that just written by Melbourne journalist Shirley Hardy-Rix and her policeman husband Brian Rix. - Herald Sun For bikers and those with itchy feet. - Sunday Age The inspiring story of two middle-aged adventurers. - Manly Daily A great read for anyone with a yearning for the open road and exotic climes. - West Australian A must-read for adventurous hearts. - Canberra Times For anyone who's ever dreamed of escaping and experiencing the romance of the open road. - Inverell Times This book might tip undecided travellers over the edge - no bad thing. - Two Wheels

There I Was marks a shift in medium and a conceptual departure for Collier Schorr. She is best known for her photographic studies of a real and imagined town in southern Germany, works which tease the accepted artifice of photography to forge an appropriated remembrance of

German histories. Schorr found drawing a more acute medium to describe events that took place in the neighbourhoods of her childhood, specifically the muscle car counter culture of the 1960s in Long Island and Queens, NY. This history is related through the short but spectacular life of charismatic 19 year-old drag car racer Charlie Astoria Chas Synder and his 67 Ko-Motion Corvette. At the age of four Schorr accompanied her father, an automotive photographer and journalist, to a local race track where she watched Astoria Chas work on his car. A subsequent article followed, with the now eerie headline While Astoria Chas is doing his thing in Vietnam his

friends are racing his L-88. By the time the article was published, Charlie Snyder had died in action in Vietnam. *There I Was* is Snyder's story and Schorr's dilemma. He was there, she was not. The project examines the role of the photograph as proof of the photographer's presence, territory and view, and the difficulty of representing any past without the theatricality of re-staging it. Based entirely on photography, the book engages with the medium and simultaneously challenges the role of the photograph as document of the past. Using a collision of source materials for the drawings, beginning with her

fathers images and Snyders own snapshots taken in Vietnam, Schorr then draws from professional reportage pictures, so as to describe, literally sketch out, one monumental trip from Queens to Vietnam and back. These drawings are contrasted by reproductions of vintage car magazine articles and Schorr's own photograph portraits. *There I Was* is a complex and multi-faceted look at escape, culture, dreams and mortality, conjuring up an expressionistic portrait of the dichotomies of the late 1960s in a fractured wartime America. With more than 100 recipes for ice cream flavors and revolutionary mix-ins

from a James Beard-nominated pastry chef, Hello, My Name is Ice Cream explains not only how to make amazing ice cream, but also the science behind the recipes so you can understand ice cream like a pro. Hello, My Name is Ice Cream is a combination of three books every ice cream lover needs to make delicious blends: 1) an approachable, quick-start manual to making your own ice cream, 2) a guide to help you think about how flavors work together, and 3) a dive into the science of ice cream with explanations of how it forms, how air and sugars affect texture and flavor, and how you can manipulate all of these factors to create the ice cream of your dreams. The recipes begin with the

basics—super chocolately chocolate and Tahitian vanilla—then evolve into more adventurous infusions, custards, sherbets, and frozen yogurt styles. And then there are the mix-ins, simple treats elevated by Cree's pastry chef mind, including chocolate chips designed to melt on contact once you bite them and brownie bits that crunch.

The Hidden Harmony
Macmillan

Few people have been as deeply involved in motorcycle sport as Chris Carter, a larger than life character and raconteur who was for a great number of years a journalist, commentator and broadcaster at the very top level of motorcycle sport. This memoir is a funny, fascinating and unique insider view of professional motorcycling over more than six decades. From scrambling in the 1960s, to four decades of international road racing - including Daytona and Macau - as well as trials and speedway. Packed with remarkable stories and amusing anecdotes, as well as interesting reflections and astute observations, it is a light-hearted, highly

readable autobiography which lifts the lid on an extraordinary world. In past times, racing paddocks were open and friendly, and Chris felt part of a big, happy family. He lived cheek by jowl with the very top riders and shared their triumphs and tragedies; to many, he was a friend and confidante. Honest, frank and direct, Chris tells things exactly as they were, and provides insights into a fast disappearing world.
