The Legend of the Indian Paintbrush The Chronicles of Narnia Vol III: The Voyage of the Dawn Treader

My Life in the Bush of Ghosts, Amos Tutuola's second novel, was first published in 1954. It tells the tale of a small boy who wanders into the heart of a fantastical African forest, the dwelling place of innumerable wild, grotesque and terrifying beings. He is captured by ghosts, buried alive and wrapped up in spider webs, but after several years he marries and accepts his new existence. With the appearance of the television-handed ghostess, however, comes a possible route of escape.

'Tutuola ... has the immediate intuition of a creative artist working by spell and incantation.' V. S. Pritchett, *New Statesman*

God, Life, and Imagination in the Work of C. S. Lewis Simon and Schuster

C. S. Lewis was a British author, lay theologian, and contemporary of J.R.R. Tolkien. *The Horse and His Boy* is the fifth book in *The Chronicles of Narnia* series of seven books.

It is the Dark Ages and something evil is stirring. A ship sailing from Noviomagus across the channel to Gaul is caught in a ferocious storm and dashed against the rocks. There are only two survivors of the wreck, both children, and they are tossed up on the shore with a mysterious trunk. An old man rescues them from the beach. He seemed to know they would be coming, and he also appears very interested in the trunk. They cannot escape what lies inside, it is both good and evil, but binds itself to their destiny and sets them on a path which they are forced to follow, and face what lies at the end.

Heirs of Ash Simon and Schuster

A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The

answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Classical Traditions in Modern Fantasy is the first collection of essays in English focusing on how fantasy draws deeply on ancient Greek and Roman mythology, philosophy, literature, history, art, and cult practice. Presenting fifteen all-new essays intended for both scholars and other readers of fantasy, this volume explores many of the most significant examples of the modern genre—including the works of H. P. Lovecraft, J. R. R. Tolkien's *The Hobbit*, C. S. Lewis's *Chronicles of Narnia*, J. K. Rowling's *Harry Potter* series, George R. R. Martin's *Game of Thrones* series, and more—in relation to important ancient texts such as Aeschylus' *Oresteia*, Aristotle's *Poetics*, Virgil's *Aeneid*, and Apuleius' *The Golden Ass*. These varied studies raise fascinating questions about genre, literary and artistic histories, and the suspension of disbelief required not only of readers of fantasy but also of students of antiquity. Ranging from harpies to hobbits, from Cyclopes to Cthulhu, and all manner of monster and myth in-between, this comparative study of Classics and fantasy reveals deep similarities between ancient and modern ways of imagining the world. Although antiquity and the present day differ in many ways, at its base, ancient literature resonates deeply with modern fantasy's image of worlds in flux and bodies in motion.

The Chosen One Zondervan

In this genre-defying work of cultural history, the chief film critic of *Slate* places comedy legend and acclaimed filmmaker Buster Keaton's unique creative genius in the context of his time. Born the same year as the film industry in 1895, Buster Keaton began his career as the child star of a family slapstick act reputed to be the most violent in vaudeville. Beginning in his early twenties, he enjoyed a decade-long stretch as the director, star, stuntman, editor, and all-around mastermind of some of the greatest silent comedies ever made, including *Sherlock Jr.*, *The General*, and *The Cameraman*. Even through his dark middle years as a severely depressed alcoholic finding work on the margins of show business, Keaton's life had a way of reflecting the changes going on in the world around him. He found success in three different mediums at their creative peak: first vaudeville, then silent film,

and finally the experimental early years of television. Over the course of his action-packed seventy years on earth, his life trajectory intersected with those of such influential figures as the escape artist Harry Houdini, the pioneering Black stage comedian Bert Williams, the television legend Lucille Ball, and literary innovators like F. Scott Fitzgerald and Samuel Beckett. In *Camera Man*, film critic Dana Stevens pulls the lens out from Keaton's life and work to look at concurrent developments in entertainment, journalism, law, technology, the political and social status of women, and the popular understanding of addiction. With erudition and sparkling humor, Stevens hopscotches among disciplines to bring us up to the present day, when Keaton's breathtaking (and sometimes life-threatening) stunts remain more popular than ever as they circulate on the internet in the form of viral gifs. Far more than a biography or a work of film history, *Camera Man* is a wide-ranging meditation on modernity that paints a complex portrait of a one-of-a-kind artist.
