economics seeks to understand the functioning and dynamics of the markets for wage labour. Labour is a commodity that is supplied by labourers in exchange for a wage paid by demanding firms. Because these labourers exist as parts of a social, institutional, or political system, labour economics is often regarded as a sociology or political science. Labour economics - Wikipedia Holland is a region and former province on the western coast of the Netherlands. The name Holland is also frequently used informally to refer to the whole of the country of the Netherlands. This usage is commonly accepted in other countries and is also commonly employed by the Dutch themselves. However, some in the Netherlands, particularly those from regions outside Holland, may find it ...
