Some Untold Stories Knopf

A major new collection of stories by one of the most exciting and creative voices in contemporary Chinese literature Can Xue's stories observe no obvious conventions of plot or characterization. That is the only rule they follow. Instead, they tend to limn a disordered and poetic state given structure by philosophical wonder and emotional rigor. Combining elements of both Chinese materiality—the love of physical things—and Western abstract thinking, Can Xue invites her readers into an immersive landscape that blends empirical fact and illusion, mixes the physical and spiritual, and probes the space between

consciousness and oblivion. She brings us to a place that is both readily familiar yet unmappable and can make us hyperaware of the inherent unreliability in our relationship to the world around us. Delightful, enchanting, and filled with secrets, Can Xue's newest collection shines a light on the forces that give contours to the visible terrain we acknowledge as reality.

_____ For seven-year-old Salim, the pillars upholding his small universe – his indifferent father, his adored uncle, his treasured books, the daily routines of government school and Koran lessons – seem unshakeable. But it is the 1970s, and the winds of change are blowing through Zanzibar: suddenly Salim's father is gone, and the island convulses with violence and corruption the wake of a revolution. It will only be years later, making his way through an alien and hostile London, that Salim will begin to understand the shame and exploitation festering at the heart of his family's history.

_____ 'Riveting ... The measured elegance of Gurnah's prose renders his protagonist in a manner almost uncannily real' New York Times 'Glittering ... Each work is different from the last, yet they build into a powerfully evocative oeuvre that keeps coming back to the same questions, in spare, graceful prose, about the ties that bind and the ties that fray' Telegraph 'A colourful tale of life in a Zanzibar village, where passions and politics reshape a family... Powerful' Mail on Sunday

The Nobel Lecture in Literature, delivered by Kazuo Ishiguro (*The Remains of the Day* and *When We Were Orphans*) at the Swedish Academy in Stockholm, Sweden, on December 7, 2017, in an elegant, clothbound edition. In their announcement of the 2017 Nobel Prize in Literature, the Swedish Academy recognized the emotional force of Kazuo Ishiguro's fiction and his mastery at uncovering our illusory sense of connection with the world. In the eloquent and candid lecture he delivered upon accepting the award, Ishiguro reflects on the way he was shaped by his upbringing, and on the turning points in his career—"small scruffy moments . . . quiet, private sparks of revelation"—that made him the writer he is today. With the same generous humanity that has graced his novels, Ishiguro here looks beyond himself, to the world that new generations of writers are taking on, and what it will mean—what it will demand of us—to make certain that literature remains not just alive, but essential. An enduring work on writing and becoming a writer, by one of the most accomplished novelists of our generation.

The mystics all over the world use this analogy and it is constantly used to express the true relationship between the human soul and God. The central theme of Gitanjali is devotional. It is in the great tradition of devotional poetry centring on the love of Radha and Krishna. Tagore became the first non-European to win the Nobel Prize for Literature, largely for the English Gitanjali. The English Gitanjali became popular in the West and was widely translated.

In the 1980s China's politicians, writers, and academics began to raise an increasingly urgent question: why had a Chinese writer never won a Nobel Prize for literature? Promoted to the level of official policy issue and national complex, Nobel anxiety generated articles, conferences, and official delegations to Sweden. Exiled writer Gao Xingjian's win in 2000 failed to satisfactorily end the matter, and the controversy surrounding the Nobel committee's choice has continued to simmer. Julia Lovell's comprehensive study of China's obsession spans the twentieth century and taps directly into the key themes of modern Chinese culture: national identity, international status, and the relationship between intellectuals and politics. The intellectual preoccupation with the Nobel literature prize expresses tensions inherent in China's move toward a global culture after the collapse of the Confucian world-view at the start of the twentieth century, and particularly since China's re-entry into the world economy in the post-Mao era. Attitudes toward the

prize reveal the same contradictory mix of admiration, resentment, and anxiety that intellectuals and writers have long felt toward Western values as they struggled to shape a modern Chinese identity. In short, the Nobel complex reveals the pressure points in an intellectual community not entirely sure of itself. Making use of extensive original research, including interviews with leading contemporary Chinese authors and critics, *The Politics of Cultural Capital* is a comprehensive, up-to-date treatment of an issue that cuts to the heart of modern and contemporary Chinese thought and culture. It will be essential reading for scholars of modern Chinese literature and culture, globalization, post-colonialism, and comparative and world literature.

An immensely persuasive work of literary criticism that opens a new chapter in the American dialogue on race—and promises to change the way we read American literature. Morrison shows how much the themes of freedom and individualism, manhood and innocence, depended on the existence of a black population that was manifestly unfree—and that came to serve white authors as embodiments of their own fears and desires. According to the *Chicago Tribune*, Morrison "reimagines and remaps the possibility of America." Her brilliant discussions of the "Africanist" presence in the fiction of Poe, Melville, Cather, and Hemingway leads to a dramatic reappraisal of the essential characteristics of our literary tradition. Written with the artistic vision that has earned the Nobel Prize-winning author a pre-eminent place in modern letters, *Playing in the Dark* is an invaluable read for avid Morrison admirers as well as students, critics, and scholars of American

literature.

"Erudite, ambitious Ilyas was stolen from his parents by the schutztruppe askari, the Germans' colonial troops; after years at war, he returns to his village to find his parents gone, and his sister Afiya given away. Hamza was not stolen, but was sold; he has come of age in the schutztruppe, at the right hand of an officer whose zeal and control have ensured his protection but marked him for life. He does not have words for how the war

ended for him, in a haze of blood. Returning to the village of his childhood, all Hamza wants is work, however humble, and security - and the beautiful Afiya. The century is young, and the blaze of empire burns hot on the east coast of Africa. The Germans and the British and the French and the Belgians and whoever else have may have drawn their maps and signed their treaties, but the embers of revolt are not yet extinguished, and the colonialists' hunger for complete dominion is far from sated. As these interlinked friends and lovers come and go, live and work and fall in love, the shadow of war lengthens and darkens, ready to snatch them up and carry them away. Raw yet rich, sweeping yet intimate, sprawling yet acutely realised, Afterlives is an epic novel about family, love, friendship, displacement empire and war; about the ways that violence defines and undoes us, and the lives that history chooses to forget."--Provided by publisher.
