abc British Railways  
Locomotives

There is a continual  
demand for facsimile

reprints of Ian Allan's abc loco books from the 1950s and 1960s, as a reference source to the railways of that era. These books generally did not include the Locoshed allocations, which were published separately. In 2002 we published the 1952 Locoshed Book and in 2004 we published the 1960 Locoshed Book. This

classic reprint will give enthusiasts a complete listing of the large numbers of steam locomotives that were still in operation in the early 1960s as well as the large numbers of first-generation diesel locomotives and multiple units that had entered service by this date.
