The elves make their own instruments with water glasses, rubber bands, and empty cans to perform a concert for their queen. Let's find out how they make their concert special with their instruments.

Hal Leonard Voices in Concert, Level 2 Mixed Sight-Singing Book Plural Publishing

Existing research in English as a Second Language (ESL) writing indicates that ESL students want and need explicit instruction in how to write in the genres expected by their particular discourse communities, but investigations into how to provide this instruction are scant. This qualitative study used case studies of three ESL student participants to investigate two basic research questions: a) what skills related to writing academic research essays do college-level ESL students have difficulty demonstrating? and b) what instructional techniques can writing teachers use to help ESL writers overcome these difficulties? Data was collected in the form of written teacher comments on student writing, transcripts of writing conferences, first and second drafts for three writing assignments, and teacher journal entries. The study provides insightful data that offers a view into the learning processes of ESL composition students as they attempt to apply their knowledge of English composition in real writing situations. The researcher identified themes emerging from the data that describe the areas of difficulty encountered by students. Findings

indicate that ESL writers need support from instructors in performing a wide range of tasks associated with writing research essays; that ESL students appreciate explicit instruction in performing these tasks; and that individual conferencing is a key element in student-teacher communication throughout the learning process. The study describes some of the pragmatic issues confronted by students in the process of genre acquisition. The data indicates a range of success among participants in acquiring and applying academic writing skills.

### **for orchestra and concert group** FriesenPress

Voices in Concert brings together an impressive choral music library, a sequenced approach to sight-singing, and more to help choral directors deliver inspiring instruction. The multi-level approach provides opportunities for students to understand music concepts and skills, read music notation, and perform a variety of choral works. --

Expert, practical help for women who preach or lead worship  
Many women preachers and worship leaders have trouble speaking; they struggle to fully use their physical voices. Maintaining that there is often a disconnect between

the woman's self-understanding as a preacher and her own body, Nancy Lammers Gross presents not only techniques but also a theologically empowering paradigm shift to help women fully embody their God-given preaching vocations. Grounding her work in the biblical story of Miriam, Gross begins with a discussion of how women are instrumental in the work of God. She then tells stories, including her own, of women's experiences in losing connection to their bodies and their physical voices. Finally, Gross presents a constructive resolution with exercises for discovering and developing a full-body voice.

*For Male Voices. Number 2* McGraw-Hill Education

Voices in Concert brings together an impressive choral music library, a sequenced approach to sight-singing, and more to help choral directors deliver inspiring instruction. The multi-level approach provides opportunities for students to understand music concepts and skills, read music notation, and perform a variety of choral works. --

"A Pakistani-American Muslim girl struggles to stay true to her family's vibrant culture while simultaneously blending in at school after tragedy strikes her community"--

*A Concert of Music for Voices and Instruments* McGraw-Hill Education

Invite students of varying reading levels in grades 3-5 to enjoy 40 high-interest biographies using African American Achievers. Each text is presented at two reading levels, and each version of the text includes a set of comprehension questions and a bonus activity. Comprehension skills include finding the main idea, reading for details,

sequencing, using context clues, and drawing conclusions. This 128-page book includes mixed-format questions, writing extensions, an assessment grid, and reproducible pages. It supports NCSS standards and aligns with state, national, and Canadian provincial standards.

*The Research of Concert Music for Women's Voices Big and SMALL*

This historical romance embodies family memoirs and chronicles the journeys of the Konrad family through the life of Angele. Her love for singing classical numbers makes the novel a delightful find for any reader who recognizes the arias named or is curious about what a professional singing career entails. In addition, the detailed portrayals of various cultural markers or religious denominations—such as the Mennonites with their languages, customary habits and tastes, and common personality traits—are intriguing. Lastly, the novel also endeavours to capture the reality of grief over the death of a loved one, causing the reader to meditate on how one mourns over time and how one rises from life altering challenges.

*The Lost Encore* Broadview Press

The first full length study of Sir George Thomas Smart (1776-1867), musical amateur and early champion of the music of Beethoven  
McGraw-Hill Education

"Prepare your high school students for AP, IB, and other standardized tests that demand an understanding of the subtle elements that comprise an author's unique voice. Each of the 100 sharply focused, historically and culturally diverse passages from world literature targets a specific component of voice, presenting the elements in short, manageable exercises that function well as class openers. Includes teacher notes and discussion suggestions."

*The Voice of This Calling* Simon and Schuster

Singers attempting to lay the foundation for a repertoire will find this guide especially useful. It contains four main sections: selections from songs and airs before the 19th century; 19th- and 20th-century songs; folk songs; and operatic excerpts (mainly 19th century). Entries indicate pitch and the type of voice for which the air is most suitable, and include a short description of the characteristics of the song or air, limited for the most part to its tempo, the character of its vocal line, and its general mood. Paper edition (unseen), \$39.95. Annotation copyrighted by Book News, Inc., Portland, OR

Growing up African American in segregated Arkansas in the 1950s, Barbara Hendricks witnessed firsthand the painful struggle for civil rights. After graduation from the Juilliard School of Music, Hendricks immediately won a number of important international prizes, and began performing in recitals and operas throughout the world. A Goodwill Ambassador for the United Nations High Commission for Refugees, she is as devoted to humanitarian work as she is to her music. Always the anti-diva, Hendricks is a down-to-earth and straightforward woman, whether singing Mozart or black spirituals. She challenges stereotypes and puts the music first and presents a warm, engaging, and honest self-portrait of one of the great women of music.

*Parks' Concert Quartets* Boydell & Brewer

Develop confident, strong musicians from day one with an inspiring program designed to help students truly enjoy choral singing. Part of the Music Studio portfolio, Voices in Concert is an inspiring new choral teaching tool that blends a sight-singing curriculum and literature library into a flexible, leveled choral music education program. *A Memoir* McGraw-Hill Education

To be in the way, or to be out of the way, that is the question. Voice users and scientists alike agree that the tongue is a crucial part in singing. Yet, there has been no literature published that solely addresses the tongue and its acoustical influence in the context of technique. *The Tongue as a Gateway to Voice, Resonance, Style, and Intelligibility* finally answers the question which has plagued voice users: how does the tongue affect my singing and how can I manipulate it for my purpose? This book is unique in its approach to, and concentration on, the singing and speaking of consonants. In the world of voice, consonants are often overlooked in favor of a vowel-centric approach to vocal pedagogy. By combining voice pedagogy with vocal science, Dr. Angelika Nair breaks down the mysteries of the tongue and its effect on consonant production for a fascinating new take on

the human voice. In addition to up-to-date scientific information, this work provides practical resources for singers, actors, and voice pedagogues of all genres, including exercises, step-by-step instructions, and easy-to-follow illustrations. Readers of *The Tongue as a Gateway to Voice, Resonance, Style, and Intelligibility* have the opportunity to explore the voice as a whole and fully visualize the hidden nature of voice production for immediate application in their own singing. The author presents the complexities of voice science in simple and accessible terms, so it is applicable to anyone interested in enhancing their performance or teaching. Key Features: \* More than 180 illustrations, including anatomical and spectrogram images \* Clear and detailed information about the anatomy and physiology of the tongue relative to the entire vocal tract \* The text features introductions, analysis, explanations, and practical applications \* Well-defined and practical exercises for each consonant group \* Evidence-based information that combines extensive both research and teaching experience with ultrasound in the voice studio \* Bolded key terms and a comprehensive glossary
