 The Fourth Edition of International Accounting provides an overview of the broadly defined area of international accounting, but also focuses on the accounting issues related to international business activities and foreign operations. This edition also includes substantially updated coverage of the International Accounting Standards Board (IASB) and International Financial Reporting Standards (IFRS). The unique benefits of this textbook include its up-to-date coverage of relevant material, extensive numerical examples provided in most chapters, two chapters devoted to the application of International Financial Reporting Standards (IFRS), and coverage of nontraditional but important topics such as strategic accounting issues of multinational companies, international corporate governance, and corporate social responsibility reporting.

International Journal of Corporate Finance and Accounting (IJCFA) Volume 2: to 25; Pages:26 to 50; Pages:51 to 75; Pages:76 to 100; Pages:101 to 101 McGraw-Hill/Irwin
 Contributions to International Accounting aims to address a vital gap in research by focusing on providing relevant and timely studies on International Financial Reporting Standards implementation for local and international policymakers.

International Journal of Accounting and Finance Oxford University Press

Today's accounting professionals are expected to help organizations identify enterprise risks and provide quality assurance for their companies' information systems. Readers can rely on ACCOUNTING INFORMATION SYSTEMS, 11E's clear presentation to gain a thorough understanding of two issues most critical to accounting information systems in use today: enterprise systems and controls for maintaining those systems. ACCOUNTING INFORMATION SYSTEMS, 11E explores today's most intriguing accounting information systems (AIS) topics and details how these issues relate to business processes, information technology, strategic management, security, and internal controls. The authors focus on today's most important advancements, using a conversational tone rather than complex technical language to ensure readers develop the solid foundation in AIS needed to be successful. International Accounting and Transnational Decisions explores a wide range of significant international accounting issues with special reference to the comparative development of national systems of accounting, international accounting standards, transnational financial reporting issues and financial planning and control in the multinational corporation. The book is organized into five parts. Part I discusses the international dimensions of accounting including both the financial reporting and managerial decision-making perspectives. The second part is concerned with the comparative international aspects of accounting. The Part III presents developments and questions relating to international accounting standards. The fourth part considers a number of selected transnational financial reporting issues of concern both to managers and financial statement users. The last part takes a managerial perspective in its coverage of important problems of transnational financial decision making and control. Accountants and students of accounting will find the book useful.
