A New Guide, with Select Translations

Univ of California Press

This work is geared towards a Muslim audience. The author's intention is to make Muslim contacts with those of other faiths more productive. Includes

spirituality, theological differences between Christianity and Islam, practices compared, secularism, and da'wa (call to faith).

The Essential Muhammad
Shahrur Verlag Hans Schiler

This volume makes available and accessible the writings of the crucial early period of Islamic mysticism during which Sufism developed as one of the world's major

mystical traditions. The texts are accompanied by commentary on their historical, literary and philosophical context.

The Fate of the Human Spirit in an Age of Disbelief
Grove/Atlantic, Inc.

THE collection of papers in this volume documents the study of Islam in American Universities. Over the last few decades the United States has seen significant growth in

the study of Islam and Islamic societies in institutions of higher learning fueled primarily by events including economic relations of the U.S. with Muslim countries, migration of Muslims into the country, conversion of Americans to Islam, U.S. interests in Arab oil resources, involvement of Muslims in the American public square, and the tragic events of 9/11. Although there is increasing recognition that the study of Islam and the role of Muslims is strategically

essential in a climate of global integration, multiculturalism, and political turmoil, nevertheless, the state of Islamic Studies in America is far from satisfactory. The issue needs to be addressed, particularly as the need for intelligent debate and understanding is continuously stifled by what some have termed an “Islam industry” run primarily by fly-by journalists, think tank pundits, and cut-and-paste “experts.”

The Bridge Betrayed
Paulist Press

In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur’an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful

coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur'anic text. It explores the Qur'anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur'an itself regards normative religious pluralism as a value system or simply a method through which the Qur'anic world view can

be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur'an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur'an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it

when it is violated.

Sufi, Qur'an, Miraj, Poetic and Theological Writings Penguin

"Approaching the Qur'an captures the complexity, power, and poetry of the early suras, or chapters, of the Qur'an, the sacred scripture of Islam. Michael Sells presents brilliant translations of the short, hymnic suras associated with the first revelations to the Prophet Muhammad. In the second edition, Sells offers a new translation and commentary on the Sura of the Compassionate (al-

Rahmān), which holds a special place within Islamic devotion and literature. Additionally, a new preface addresses the ongoing controversy over teaching about Islam and the Qur'an in American universities."--

The Early Revelations

USCCB Publishing

A fresh look at Muhammad Asad's classic English translation and explanation of the Qur'an is offered in this redesigned and updated edition of his work. A new typeset and index is

complimented with a prologue by the distinguished British Muslim Gai Eaton and original artwork by internationally renowned artist and scholar Dr. Ahmed Moustafa. Asad's translation is widely considered to be the foremost in conveying the meaning and sensibility of the original Arabic text, making this edition a must-have for English readers with a budding interest in Islamic studies and veteran scholars alike.

Approaching the Qur'an

John Wiley & Sons

This book is concerned with the rationality and plausibility of the Muslim faith and the Qur'an, and in particular how they can be interrogated and understood through Western analytical philosophy. It also explores how Islam can successfully engage with the challenges posed by secular thinking. The Quran and the Secular Mind will be of interest to students and scholars of Islamic philosophy, philosophy of religion, Middle East studies, and

political Islam.

The Qur'an International Institute of Islamic Thought (IIIT) Avoiding the traps of sensational political exposes and specialized scholarly Orientalism, Carl Ernst introduces readers to the profound spiritual resources of Islam while clarifying diversity and debate within the tradition. Framing his argument in terms of religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of

Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important contemporary issues such as gender and veiling, state politics, and science and religion. This book is unique in its approach to the Qur'an. It argues the point that only God could author such a book, and that Muhammad could have never produced anything like it. While this objective has been attempted by several Muslim scholars who highlighted one aspect or another of the topics highlighted in the Qur'an, Dr. Draz's work is perhaps the first that relies totally on the merits of the Qur'anic text for an irrefutable proof. Dr. Draz discusses the arguments

made at the time of the Prophet and later on which suggested that the Qur'an was taught to Muhammad by various teachers, and shows how they all collapse at the first test. When he has irrefutably established the fact that the Qur'an could only be a divine revelation, Dr. Draz goes on to analyze the Qur'anic style, showing how it combines merits that could never be found together in any human writing. Equipped with a profound literary sense and a powerful Arabic

style, Dr. Draz discusses the main characteristics of the Qur'anic style, as well as the unity of theme that runs through each chapter, or surah. The work is now presented to English readers as it gives students of the Qur'an valuable insight, enabling them to understand the Qur'an better. The True Religion of God Harper Collins Presents brilliant translations of the short, hymnic chapters, or suras, associated with the first revelations to the Prophet Muhammad. Most of these

early revelations appear at the end of the written text and are commonly reached only by the most resolute reader of existing English translations. These suras contain some of the most powerful prophetic and revelatory passages in religious history. They offer the vision of a meaningful and just life that anchors the religion of one-fifth of the world's inhabitants. The book is enriched by the inclusion of a CD recording of Quranic reciters chanting several of the early suras,

allowing readers an opportunity to hear the Qur'an in its original form. Rethinking Islam in the Contemporary World SUNY Press

This volume studies how the literary elements in the Qur'an function in conveying its religious message effectively. It is divided into three parts. Part one includes studies of the whole Qur'an or large segments of it belonging to one historical period of its revelation; these studies concentrate on the analysis of its language, its style, its

structural composition, its aesthetic characteristics, its rhetorical devices, its imagery, and the impact of these elements and their significance. Part two includes studies on individual suras of the Qur'an, each of which focuses on the sura's literary elements and how they produce meaning; each also explores the structure of this meaning and the coherence of its effect. Part three includes studies on Muslim appreciations of the literary aspects of the Qur'an in past generations

and shows how modern linguistic, semantic, semiotic, and literary scholarship can add to their contributions. A Biography Routledge
A comprehensive introduction to Islam. Ibn Taymiyyah on Reason and Revelation Routledge
The recent atrocities in Bosnia-Herzegovina have stunned people throughout the world. With Holocaust memories still painfully vivid, a question haunts us: how is this savagery possible? Michael A. Sells answers by demonstrating that the

Bosnian conflict is not simply a civil war or a feud of age-old adversaries. It is, he says, a systematic campaign of genocide and a Christian holy war spurred by religious mythologies. This passionate yet reasoned book examines how religious stereotyping—in popular and official discourse—has fueled Serbian and Croatian ethnic hatreds. Sells, who is himself Serbian American, traces the cultural logic of genocide to the manipulation by Serb

nationalists of the symbolism of Christ's death, in which Muslims are "Christ-killers" and Judases who must be mercilessly destroyed. He shows how "Christoslavic" religious nationalism became a central part of Croat and Serbian politics, pointing out that intellectuals and clergy were key instruments in assimilating extreme religious and political ideas. Sells also elucidates the ways that Western policy makers have rewarded the perpetrators of the

genocide and punished the victims. He concludes with a discussion of how the multireligious nature of Bosnian society has been a bridge between Christendom and Islam, symbolized by the now-destroyed bridge at Mostar. Drawing on historical documents, unpublished United Nations reports, articles from Serbian and Bosnian media, personal contacts in the region, and Internet postings, Sells reveals the central role played by religious mythology in the Bosnian tragedy. In

addition, he makes clear how much is at stake for the entire world in the struggle to preserve Bosnia's existence as a multireligious society. Following Muhammad BRILL
 This is the first book-length presentation of Muhammad Shahrur's ideas in English, explaining his ideas on the need for a contemporary re-reading of the Qur'an, a reform of Islamic law and the necessity of freedom of belief in Islam, and other vital issues of Islamic

 Originally titled The Religions of Man, this completely revised and updated edition of Smith's masterpiece, now with an engaging new foreword, explores the essential elements and teachings of the world's predominant faiths, including: Hinduism, Buddhism, Confucianism, Taoism, Islam, Judaism, Christianity, and the native traditions of the

Americas, Australia, Africa, and Oceania. Emphasizing the inner -- rather than institutional -- dimensions of these religions, Smith devotes special attention to Zen and Tibetan Buddhism, Sufism, and the teachings of Jesus. He convincingly conveys the unique appeal and gifts of each of the traditions and reveals their hold on the human heart and imagination. Early Islamic Mysticism University of Chicago Press

A NEW YORK TIMES

BESTSELLER "Already the most discussed and most important religious book of the decade." —David Brooks In this controversial bestseller, Rod Dreher calls on American Christians to prepare for the coming Dark Age by embracing an ancient Christian way

of life. From the inside, American churches have been hollowed out by the departure of young people and by an insipid pseudo-Christianity. From the outside, they are beset by challenges to religious liberty in a rapidly secularizing culture. Keeping Hillary Clinton out of the White House may have bought a brief reprieve from the state's assault, but it will not stop the West's slide into decadence and dissolution. Rod Dreher argues that the way forward is actually the

way back—all the way to St. Benedict of Nursia. This sixth-century monk, horrified by the moral chaos following Rome's fall, retreated to the forest and created a new way of life for Christians. He built enduring communities based on principles of order, hospitality, stability, and prayer. His spiritual centers of hope were strongholds of light throughout the Dark Ages, and saved not just Christianity but Western civilization. Today, a new form of barbarism reigns. Many believers are blind

to it, and their churches are too weak to resist. Politics offers little help in this spiritual crisis. What is needed is the Benedict Option, a strategy that draws on the authority of Scripture and the wisdom of the ancient church. The goal: to embrace exile from mainstream culture and construct a resilient counterculture. The Benedict Option is both manifesto and rallying cry for Christians who, if they are not to be conquered, must learn how to fight on culture war battlefields like none the West has

seen for fifteen hundred years. It's for all mere Christians—Protestant, Catholic, Orthodox—who can read the signs of the times. Neither false optimism nor fatalistic despair will do. Only faith, hope, and love, embodied in a renewed church, can sustain believers in the dark age that has overtaken us. These are the days for building strong arks for the long journey across a sea of night.

A Study of Dar' Ta'arud Al-'aql Wa-l-naql Vintage
Each person is born in a

circumstance which is not of his own choosing. The religion of his family or the ideology of the state is thrust upon him from the very beginning of his existence in this world. By the time he reaches his teens, he is usually fully brain-washed into believing that the beliefs of his particular society are the correct beliefs that everyone should have. However, when some people mature and are exposed to other belief-systems, they begin to question the validity of their own beliefs. The

seekers of truth often reach a point of confusion upon realizing that each and every religion, sect, ideology and philosophy claims to be the one and only correct way for man. Indeed, they all encourage people to do good. So, which one is right?

The Qur'an, Morality and Critical Reason

Harper Collins

Who is Allah? What does He ask of those who submit to His teachings? Pulitzer Prize-winner Jacke Miles gives us a deeply probing, revelatory

portrait of the world's second largest, fastest-growing and perhaps most tragically misunderstood religion. In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity,

and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, *God and Christ*, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same understanding and accommodating eye that we turn upon our own.
