The war on drugs has been lost but for  
want of the courage to face the fact that  
the whole world is rapidly becoming one  
vast criminal network. From pop stars and  
princes to crack whores and street kids.  
From the Groucho Club toilets to the

poppy fields of Afghanistan, we are all  
partners in crime. HIGH SOCIETY is a story  
or rather a collection of interconnected  
stories that takes the reader on a  
hilarious, heart breaking and terrifying  
journey through the kaleidoscope world  
that the law has created and from which  
the law offers no protection.

The Gilded Age (1865-1918) saw the  
sudden rise of America's first High Society,  
including such prominent families as the  
Astors, Whitneys, and Vanderbilts. As an  
aristocracy based on fortunes recently  
acquired, these families endeavored to  
live like Europe's blue-blooded nobility,  
shedding Puritan restraint as they joyously  
flaunted their new wealth--especially  
where their homes were concerned. They  
erected French chateaus and Italian  
palazzos on New York's Fifth Avenue, at  
Newport, and elsewhere, often taking

inspiration from Parisian styles of the Second Empire. They rejected more modest American styles just as they rejected middle-class society, and for interior decoration they turned to such artisans as Tiffany, Herter Brothers, and Allard's of Paris. Immensely readable and illuminated with 250 stunning color and black-and-white illustrations, this is the fascinating story of America's first millionaire society, the way they lived and partied, and the lush artistic and cultural legacy they established.

Glamorous fashions, personalities, and places captured by iconic photographer Slim Aarons Slim Aarons, at least according to the man himself, did not photograph fashion: "I didn't do fashion. I did the people in their clothes that became the fashion." But despite what he claimed, Aarons's work is indelibly tied to fashion. Aarons's incredibly influential photographs of high society and socialites being unambiguously themselves are still a source of inspiration for modern day style icons. Slim Aarons: Style showcases the photographs that both recorded and influenced the luminaries of the fashion

world. This volume features early black-and-white fashion photography, as well as portraits of the fashionable elite—like Jacqueline de Ribes, C.Z. Guest, Nan Kempner, and Marisa Berenson—and those that designed the clothes, such as Oscar de la Renta, Emilio Pucci, Mary McFadden, and Lilly Pulitzer. Featuring some never-before-seen images and detailed captions written by fashion historians, Slim Aarons: Style is a collection of the photographer's most stylish work.

From the author of the acclaimed Queen of Fashion—a brilliant look at the glittering world of turn-of-the-century Paris through the first in-depth study of the three women Proust used to create his supreme fictional character, the Duchesse de Guermantes. Geneviève Halévy Bizet Straus; Laure de Sade, Comtesse de Adhéaume de Chevigné; and Élisabeth de Riquet de Caraman-Chimay, the Comtesse Greffulhe—these were the three superstars of fin-de-siècle Parisian high society who, as Caroline Weber says, "transformed themselves, and were transformed by

those around them, into living legends: paragons of elegance, nobility, and style." All well but unhappily married, these women sought freedom and fulfillment by reinventing themselves, between the 1870s and 1890s, as icons. At their fabled salons, they inspired the creativity of several generations of writers, visual artists, composers, designers, and journalists. Against a rich historical backdrop, Weber takes the reader into these women's daily lives of masked balls, hunts, dinners, court visits, nights at the opera or theater. But we see as well the loneliness, rigid social rules, and loveless, arranged marriages that constricted these women's lives. Proust, as a twenty-year-old law student in 1892, would worship them from afar, and later meet them and create his celebrated composite character for *The Remembrance of Things Past*.

During the quarter century between 1780 and 1806, Berlin's courtly and intellectual elites gathered in the homes of a few wealthy, cultivated Jewish women to discuss the events of the day. Princes, nobles, upwardly mobile writers, actors, and beautiful Jewish women flocked to the

salons of Rahel Varnhagen, Henriette Herz, and Dorothea von Courland, creating both a new cultural institution and an example of social mixing unprecedented in the German past.

This “delicious take on the one percent in our nation’s capital” (Town & Country) and clever combination of *The Bonfire of the Vanities* and *The Nest* explores what Washington, DC’s high society members do behind the closed doors of their stately homes. They are the families considered worthy of a listing in the exclusive *Green Book*—a discriminative diary created by the niece of Edith Roosevelt’s social secretary. Their aristocratic bloodlines are woven into the very fabric of Washington—generation after generation. Their old money and manner lurk through the cobblestone streets of Georgetown, Kalorama, and Capitol Hill. They only socialize within their inner circle, turning a blind eye to those who come and go on the political merry-go-round. These parents and their children live in gilded existences of power and privilege. But what they have failed to understand is

that the world is changing. And when the family of one of their own is held hostage and brutally murdered, everything about their legacy is called into question in this unputdownable novel that “combines social satire with moral outrage to offer a masterfully crafted, absorbing read that can simply entertain on one level and provoke reasoned discourse on another” (Booklist, starred review).

One of the twentieth century’s most colorful characters brought back to life in this biography by the author of *All About All About Eve With Inventing Elsa Maxwell*, Sam Staggs has crafted a landmark biography. Elsa Maxwell (1881-1963) invented herself—not once, but repeatedly. Built like a bulldog, she ascended from the San Francisco middle class to the heights of society in New York, London, Paris, Venice, and Monte Carlo. Shunning boredom and predictability, Elsa established herself as party-giver extraordinaire in Europe with come-as-you-are parties, treasure hunts (e.g., retrieve a slipper from the foot of a singer at the Casino de Paris), and murder parties that drew the ire of the British parliament.

She set New York a-twitter with her soirees at the Waldorf, her costume parties, and her headline-grabbing guest lists of the rich and royal, movie stars, society high and low, and those on the make all mixed together in let-’er-rip gaiety. All the while, Elsa dashed off newspaper columns, made films in Hollywood, wrote bestselling books, and turned up on TV talk shows. She hobnobbed with friends like Noel Coward and Cole Porter. Late in life, she fell in love with Maria Callas, who spurned her and broke Elsa’s heart. Her feud with the Duchess of Windsor made headlines for three years in the 1950s. *Inventing Elsa Maxwell*, the first biography of this extraordinary woman, tells the witty story of a life lived out loud.

Benedict, this riveting novel takes you inside the scandalous courtship and catastrophic honeymoon aboard the Titanic of the most famous couple of their time—John Jacob Astor and Madeleine Force. Told in rich detail, this novel of sweeping historical fiction will stay with readers long after turning the last page. Madeleine Talmage Force is just seventeen when she attracts the attention of John Jacob “Jack” Astor. Madeleine is beautiful, intelligent, and solidly upper-class, but the Astors are in a league apart. Jack’s mother was the Mrs. Astor, American royalty and New York’s most formidable socialite. Jack is dashing and industrious—a hero of the Spanish-American war, an inventor, and a canny businessman. Despite their twenty-nine-year age difference, and the scandal of Jack’s recent divorce, Madeleine falls headlong into love—and becomes the press’s favorite target. On their extended honeymoon in Egypt, the newlyweds finally find a measure of peace from photographers and journalists. Madeleine feels truly alive for the first time—and is happily pregnant. The couple plans to return home in the spring of 1912, aboard

an opulent new ocean liner. When the ship hits an iceberg close to midnight on April 14th, there is no immediate panic. The swift, state-of-the-art RMS Titanic seems unsinkable. As Jack helps Madeleine into a lifeboat, he assures her that he’ll see her soon in New York... Four months later, at the Astors’ Fifth Avenue mansion, a widowed Madeleine gives birth to their son. In the wake of the disaster, the press has elevated her to the status of virtuous, tragic heroine. But Madeleine’s most important decision still lies ahead: whether to accept the role assigned to her, or carve out her own remarkable path... “A touching, compelling, and haunting love story that will delight fans of historical fiction and enthrall those of us for whom the Titanic will always fascinate.” —Hazel Gaynor, New York Times bestselling author of *When We Were Young and Brave* “An engaging novel told with both heartbreaking care and vivid detail. **High Society** Simon and Schuster SOCIETY is having a revival. In cities, small towns, and suburbs all over the country Americans are returning to a class system that seemed doomed a generation ago. They are following all the traditions

developed by the Old Guard of an earlier era. But there is a difference. The top rung of the social ladder is now the goal of the many rather than the few. Social position can be earned, whereas, formerly, it could be achieved only by birth. That is why the old-line families are claiming that "Society is dead." And they may be right when they think of society as their grandmothers knew it. But a new society is springing up that bears the closest resemblance to the old. It is bigger; many newcomers have reached the heights. But they have not killed society, even in its original sense. The prestige of the old inner circle has never been higher. Acceptance by this Old Guard is the criterion by which newcomers gauge their success. Almost all the recent arrivals in the world of high society are rich. But they are not satisfied with wealth in itself. In the prosperity that followed World War II many Americans began to earn large incomes. The result is that the possession of money no longer guarantees prestige. And so a position in society has become a status goal.

High Society in the Third Reich Anchor Books

This book is the first systematic study of the relations between German high society and the Nazis. It uses unpublished archival material, private diaries and diplomatic documents to take us into the hidden areas of power where privileges, tax breaks, and stolen property were exchanged. Fabrice D'Almeida begins by examining high society in the Weimar period, dominated by the old imperial

aristocracy and a new republican aristocracy of government officials and wealthy businessmen. It was in this group that Hitler made his social debut in the early 1920s through the mediation of conservative friends and artists, including the family of the composer Richard Wagner. By the end of the 1920s, he enjoyed wide support among socialites, who played a significant role in his access to power in 1933. Their adherence to the Nazi regime, and the favors they received in return, continued and even grew until defeat loomed on the horizon. D'Almeida shows how members of German high society sought to outdo each other in showing zealous support for Hitler, how the old elites starting with the Kaiser's sons partied alongside parvenus, and how actors, aristocrats, SS technocrats, and diplomats came together to form a strange imperial court. Women also played a role in this theatre of power; they were persuaded that they had gained in dignity what they had lost in civil rights. There emerges a fascinating and disturbing picture of a group that allowed nothing - not war, the plundering of Europe, nor the extermination of peoples - to alter their

cynical enjoyment of pleasures: hunting, regattas, the opera, balls, dinners and tennis. More than a study of a class or a chronicle, this book lifts the veil that has concealed a society that used secrecy to protect itself. High Society in the Third Reich makes an important and unique contribution to the current reevaluation of the extent to which German society, including German high society, was responsible for Hitler's accession to power and the crimes that were committed by his regime.

High Society Dinners offers extraordinary insight into the domestic arrangements of the Russian aristocracy, presenting nine months' worth of menus served in St Petersburg to the guests of Petr Durnovo (1835 - 1918), Adjutant-General of the Tsar's Imperial Suite, part of an important late-19th-century dynasty that included

ministers and high officials. The menus themselves would be useful enough for what they reveal about culinary culture in Russia, but Yuri Lotman's commentary is invaluable, dissecting the dining rituals and the social circles of the participants. Durnovo's menus and guest lists, interspersed with extracts from family letters and the leading newspapers and journals of the day, set in context the domestic and gastronomic underpinnings of life in this group at the heart of the Russian empire. The Russian has been finely translated by Marian Schwartz (who has worked with M. Gorbachev and translated works by Tolstoy, Bulgakov and Lermontov), and the book as a whole is annotated and introduced by Darra Goldstein, Founding Editor of *Gastronomica* and Willcox B. and Harriet M. Adsit Professor of Russian at Williams College. The book is illustrated with paintings and photographs that give a sense of the high society milieu in mid-nineteenth-century Russia. This publication has been grant-aided by the Prokhorov Foundation's Transcript programme. Yuri Lotman (1922 - 1993)

was a prominent Russian formalist critic, semiotician, and cultural historian. He was author of more than 800 works. Jelena Pogosjan is a professor of Russian at the University of Alberta in Canada. [Essential Life Lessons from Experiences with Celebrities and High Society](#) Prospect Books (UK)  
Crack cocaine users have significant health problems, and place a significant burden on social services, the criminal justice system and drug treatment agencies. Among policymakers, professionals and the wider section of society, they are the most poorly understood drug-using group and have the worst retention rate in prison drug programmes and community drug agencies. This book is about their addictions and the realities of their lives. Based on ethnographic research (observation and interviewing) conducted in south London, it aims to highlight their day-to-day struggles as they attempt to survive in a violent and intimidating street drug scene while trying to make changes to their lives. The book unpacks the myths

and stigma of their drug use, highlighting their fragile position in society in an effort to better understand them. With the help of several key characters, the book uses their words and experiences to take the reader on a journey through their crack addiction from a life in and out of crack houses, their experiences with law enforcement and welfare agencies to their life aspirations. The findings have important policy implications, and are relevant and accessible to academics and students in the field of criminology, sociology, psychology, and research methods. The research is equally relevant for central and local government policymakers, and frontline healthcare and drug agency staff.
