MARIELA DRAKE

Building A Character Hal Leonard Corporation
Former private investigator and New York Times notable author David Corbett offers a unique and indispensable toolkit for creating characters that come vividly

to life on the page and linger in memory. Corbett provides an inventive, inspiring, and vastly entertaining blueprint to all the elements of characterization-from initial inspiration to realization-with special insights into the power of secrets and contradictions, the embodiment of roles, managing the "tyranny of motive," and mastering crucial techniques required for memorable dialogue and unforgettable scenes. This is a how-to

guide for both aspiring and accomplished writers that renders all other books of its kind obsolete.

All fiction is character-driven, according to William Bernhardt, despite what you might have heard elsewhere. If your characters don't interest readers, even the most exciting plots will fail. "Action is character," Aristotle wrote, but what does that mean, and how can you use that fundamental principle to create dynamic fiction that will captivate readers? This book explains the relationship between character and plot, and how the perfect melding of the two produces a mesmerizing story. Using examples spanning from *The Odyssey* to *The Da Vinci Code*, Bernhardt discusses the art of character creation in a direct

and easily comprehended manner. The book also includes exercises designed to help writers apply these ideas to their own work. William Bernhardt is the author of more than fifty novels, including the blockbuster Ben Kincaid series of legal thrillers. Bernhardt is also one of the most sought-after writing instructors in the nation. His programs have educated many authors now published by major houses. He is the only person to have received the Southern Writers Gold Medal Award, the Royden B. Davis Distinguished Author Award (U Penn) and the H. Louise Cobb Distinguished Author Award (OSU), which is given "in recognition of an outstanding body of work that has profoundly influenced the way in which we understand ourselves and American

society at large." The Red Sneaker Writing Center is dedicated to helping writers achieve their literary goals. What is a red sneaker writer? A committed writer seeking useful instruction and guidance rather than obfuscation and attitude. Red sneakers get the job done, and so do red sneaker writers, by paying close attention to their art and craft, committing to hard work, and never quitting. Are you a red sneaker writer? If so, this book is for you.

Just as a compass provides direction for an explorer, so does motivation provide

direction for characters in fiction. The "compass" of character motivation is composed of four points: Lack, Yearning, Resistance, and Desire. In *The Compass of Character* you'll learn to deeply consider the key question "What does my character want?" and learn techniques to answer that question by writing realistic and empathetic characters without falling into formulaic, unsatisfying results that only diminish the character. Bestselling author and acclaimed writing instructor David Corbett provides writers with the essentials for building characters with motivations that range from clear to complex by exploring topics such as:

- human yearning
- pathological maneuvers
- the pain of life vs. the promise of life
- backstory and behavior

- mechanics of growth and transformation
- dramatizing mistaken desire and misbegotten yearnings
- moral arguments

The key to fascinating characters is rendering subtle inner states in straightforward external circumstances, which requires a fundamental understanding of the simple building blocks of complex motivation as they manifest themselves in behavior, where complexity of purpose collides with the messy, indifferent world. *The Compass of Character* is the one book that can guide writers to that end with both instruction and inspiration.

The Art of Drawing Fantasy Characters Dark Horse Comics

"The most complete and comprehensive guide to character I've ever read." Adam Croft Character is at the heart of every story. We love stories because we fall in love with characters, we want to see what happens to them and we want to see them experience hope and despair. International Emmy nominated writer, Mark Boutros, offers a guide to creating

characters who are engaging, emotionally driven and memorable. With experience as a screenwriter, novelist, creative writing teacher and mentor, Mark shares a mixture of theory and creative writing exercises to get you thinking about the questions to have in your mind during character creation. A lot of stories are perfectly functional, hitting all the right beats, but often fall short due to a thin or obvious character. Problems people think are related to plot are often symptoms of a deeper issue with the characters. Mark highlights what is at the core of character, the importance of motivation, trauma, obstacles and how every little detail can enrich an experience for an audience and ultimately make people care. How do you get to know people? By asking

questions and getting to know them so you move past the shallow. Do the same during character development and your story will be so much more engaging for it. Each chapter focuses on an aspect important to character development and ends with exercises so you can apply the concepts to your work and write better characters. The book includes: - Goals, desires, lessons - Stakes to your character's goal - Character flaws - Developing your character's voice and world view - Generating truthful obstacles - How to write anti-heroes and compelling villains - Character and personality traits - Common mistakes in character writing - Character research - A character questionnaire The majority of the ideas originate from the author's screenwriting experience, but they apply

to all forms of story, whether it be fiction writing or playwriting, because the focus is on what really makes a character stand out and memorable. The job of the writer is to deliver an emotional experience. Character is the heart of that. If you're looking for a book to help you to improve your screenplay writing, fiction writing, or play writing then this is for you. An invaluable tool for beginner and experienced writers. This is perfect for anyone interested in screenwriting books, fiction writing books, or character development books. Praise for *The Craft of Character*: "Would 100% recommend not only for beginners, but also for experienced writers looking to get to know their characters better. A bit like writer-character therapy." reader review "Both the chapters and the exercises are

easy to understand and get through. Mark Boutros clearly knows his stuff and seems happy to be able to help the reader, rather than becoming lecturing and elitist. The structure of the book also means that it is easy to dip back into, when you come across a specific problem, and as such it is a great little reference book, which any aspiring storyteller would benefit from." reader review "Normally, I find myself arguing with the author of craft books, but here I would say 90% of what I read were things I either found helpful, or flat out agreed with whole heartedly and just needed a reminder on why these things are important. The exercises were a excellent touch, especially as someone who is teaching writing, it gave me ideas on what to do for my students." reader

Building Character Story Press

In his most famous book, *An Actor Prepares*, Stanislavski dealt with the imaginative processes. In the second book, *Building a Character*, he deals with the physical realisation of character on the stage, expressions, movement and speech etc. It is a book in which every theory is inextricably bound up with practice - a perfect handbook to the physical art of acting. The work of Stanislavski has inspired generations of actors and trainers. This edition, now reprinted with a new cover at a more accessible price, has stood the test of time for actors all over the world and was the original English language translation. A classic text for every actors library. An Actor must work all his

life, cultivate his mind, train his talents systematically, develop his character; he may never despair and never relinquish this main purpose - to love his art with all his strength and love it unselfishly.

Building a Character is one of the three volumes that make up Stanislavski's The Acting Trilogy. An Actor Prepares explores the inner preparation an actor

must undergo in order to explore a role to the full. In this volume, Sir John Gielgud said, this great director “found time to explain a thousand things that have always troubled actors and fascinated students.” Building a Character discusses the external techniques of acting: the use of the body, movement, diction, singing, expression, and control. Creating a Role describes the preparation that precedes actual performance, with extensive discussions of Gogol’s *The Inspector General* and Shakespeare’s *Othello*. Sir Paul Scofield called *Creating a Role* “immeasurably important” for the actor. These three volumes belong on any actor’s short shelf of essential books.
