El culto a la juventud es una de las obsesiones más recurrentes de nuestra sociedad. La lucha contra el envejecimiento se traduce en una industria que mueve cada año millones de euros. Se da la paradoja de que hoy en día, cuando alcanzamos cotas de longevidad antes impensables y con una alta calidad de vida, hacerse mayor, antaño sinónimo de respetabilidad y experiencia, ha adquirido valores peyorativos. Carl Honoré, analista social y cazador de tendencias excepcional que se dio a conocer por todo el mundo como abanderado de la revolución slow, sale ahora en defensa del envejecimiento sin estereotipos ni complejos. Por medio de testimonios muy significativos, este libro ensalza el

valor de la experiencia, dignifica el cumplir años y nos enseña a disfrutar de las nuevas etapas de la vida de una forma más saludable.

Cincuenta años después de la muerte de José Ortega y Gasset (1883-1955), un grupo de estudiosos de su obra han compartido y reunido sus investigaciones en este libro interdisciplinar para valorar con criterios objetivos y sin prejuicios la modernidad del legado intelectual orteguiano. Las diferentes perspectivas desde las que habitualmente se viene estudiando el pensamiento de Ortega aparecen aquí integradas en cuatro grandes bloques temáticos: filosófico, filológico, jurídico y socio-político. Sin renunciar al rigor y a la sistematicidad exigibles a su formación científica y a su vocación académica, los autores congregados en esta obra de homenaje, y a la vez de meditación, ofrecen al lector interesado una aproximación al sugerente universo de las ideas de Ortega y una ubicación ante las principales claves de su fértil y fructífero pensamiento. El motivo de estas Meditaciones sobre Ortega y Gasset es hacer un poco más transparente la presencia intelectual y cultural de Ortega en el tema de nuestro tiempo.

La producción intelectual de la CEPAL en sus 70 años de existencia ha sido vasta en distintos ámbitos del desarrollo. En este libro se analizan y contextualizan los principales hitos e ideas del pensamiento económico de la CEPAL sobre recursos naturales, medio ambiente y sostenibilidad, organizados en las dos grandes etapas que han caracterizado la vida institucional: la estructuralista (1948-1990) y la neoestructuralista (de 1990 en

adelante). A partir de una revisión sistemática de la literatura, se destacan ideas como el vínculo entre la especialización productiva en recursos naturales y los términos de intercambio desfavorables, formulada en los años cincuenta; la soberanía sobre los recursos naturales, en los sesenta; la enunciación temprana del principio de responsabilidades comunes pero diferenciadas, en los setenta; los estilos de desarrollo y medio ambiente, en los ochenta; la competitividad espuria, en los noventa, y la gobernanza de los recursos naturales, el estilo de desarrollo sostenible con igualdad y el gran impulso ambiental, en las dos primeras décadas del siglo XXI. El pensamiento neoestructuralista de la CEPAL es dinámico, abierto y se renueva permanentemente sin perder su tradición estructuralista. El libro aporta también elementos conceptuales para formular un neoestructuralismo ecológico.

Click here to see a video interview with Emelio Betances. Click here to access the tables referenced in the book. Since the 1960s, the Catholic Church has acted as a mediator during social and political change in many Latin American countries, especially

the Dominican Republic, Bolivia, Guatemala, Nicaragua, and El Salvador. Although the Catholic clergy was called in during political crises in all five countries, the situation in the Dominican Republic was especially notable because the Church's role as mediator was eventually institutionalized. Because the Dominican state was persistently weak, the Church was able to secure the support of the Balaguer regime (1966-1978) and ensure social and political cohesion and stability. Emelio Betances analyzes the particular circumstances that allowed the Church in the Dominican Republic to accommodate the political and social establishment; the Church offered non-partisan political mediation, rebuilt its ties with the lower echelons of society, and responded to the challenges of the evangelical movement. The author's historical examination of church-state relations in the Dominican Republic leads to important regional comparisons that broaden our understanding of the Catholic Church in the whole of Latin America.

Meditaciones sobre Ortega y Gasset Editex

A compendium of straightforward techniques on how to accentuate the positive and redirect the negative, increasing productivity at work and at home. What do your people at work and your spouse and kids at home have in common with a five-ton killer whale? Probably a whole lot more than you think, according to top business consultant and mega-bestselling author Ken Blanchard and his coauthors from SeaWorld. In this moving and inspirational new book, Blanchard explains that both whales and people perform better when you accentuate the positive. He shows how using the techniques of animal trainers -- specifically those responsible for the killer whales of SeaWorld -- can supercharge your effectiveness at work and at home. When gruff business manager and family man Wes Kingsley visited SeaWorld, he marveled at the ability of the trainers to get these huge killer whales, among the most feared predators in the ocean, to perform amazing acrobatic leaps and dives. Later, talking to the chief trainer, he learned their techniques of building trust, accentuating the positive, and redirecting negative behavior -- all of which make these extraordinary performances possible. Kingsley took a hard look at his own often accusatory management style and recognized how some of his shortcomings as a manager, spouse, and father actually diminish trust and damage relationships. He began to see the difference between "GOTcha" (catching people doing things wrong) and "Whale Done!" (catching people doing things right). In *Whale Done!*, Ken Blanchard shows how to make accentuating the positive and redirecting the negative the best tools to increase productivity, instead of creating situations that demoralize people. These

techniques are remarkably easy to master and can be applied equally well at home, allowing readers to become better parents and more committed spouses in their happier and more successful personal lives.

To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, *Christus Vivit*, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment *Christus Vivit* is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

(abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Espanola, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the *Nuevas normas de prosodia y ortografia*, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

The classic and provocative account of how art changed irrevocably with pop art and why traditional aesthetics can't make sense of contemporary art. A classic of art criticism and philosophy, *After the End of Art* continues to generate heated debate for its radical and famous assertion that art ended in the 1960s. Arthur Danto, a philosopher who was also one of the leading art critics of his time, argues that traditional notions of aesthetics no longer apply to contemporary art and that we need a philosophy of art criticism that can deal with perhaps the most perplexing feature of current art: that everything is possible. An insightful and entertaining exploration of art's most important aesthetic and philosophical issues conducted by an acute observer of contemporary art, *After the End of Art* argues that, with the eclipse of abstract expressionism, art deviated irrevocably from the narrative course that Vasari helped define for it in the Renaissance. Moreover, Danto makes the case for a new type of criticism that can help us understand art in a posthistorical age where, for example, an artist can produce a work in the style of Rembrandt to create a visual pun, and where traditional theories cannot explain the difference between Andy Warhol's Brillo Box and the product found in the grocery store. *After the End of Art* addresses art history, pop art, "people's art," the future role of museums, and the critical contributions of Clement Greenberg, whose aesthetics-based criticism helped a previous generation make sense of modernism. Tracing art history from a mimetic tradition (the idea that art was a progressively more adequate representation of reality) through the modern era of manifestos (when art was defined by the

artist's philosophy), Danto shows that it wasn't until the invention of pop art that the historical understanding of the means and ends of art was nullified. Even modernist art, which tried to break with the past by questioning the ways in which art was produced, hinged on a narrative.

It begins with the composition of the Commission & Court, including the biographies of the members, 1988 activities of each body, reproductions of resolutions & reports by the Commission & historic correspondences & decisions by the Court. Also included is an update on the status of the American Convention on Human Rights, which reports the relation of each country to that instrument, followed by resolutions adopted in 1988 by the OAS General Assembly.
