Relying on both Chenu's previously unpublished materials and his many publications, Christophe Potworowski examines the role of faith and contemplation in the Dominican life and in theology as well as considering the historical and social dimensions of the human situation in terms of individual and ecclesial existence. He discusses the prophetic role of the theologian and some of the problems this involves. Potworowski raises the question of how incarnation as an overall structure is related to the particularities of Christology and provides insights into the development of Catholic theology in the crucial period leading to Vatican II. The accompanying bibliography of Chenu's complete writings, unavailable elsewhere, is a valuable instrument of theological research. [Bulletin ...](#)

*Papers on Paleontology*

The book describes the history of a humble family that migrated from England to Ireland in the mid 17th c and put down roots at Kilconnor in County Carlow. By the end of the century many members of the family had joined the Society of Friends and concurrently the family had elevated its social and economic status as it enjoined with the landed gentry. During the late 17th c and 18th c family members left County Carlow and established themselves in other places in Ireland, including Counties Wexford, Tipperary, Dublin, Kildare, Laois and Offaly and later again in England, Australia and New Zealand. Diversification in occupation followed, members entering the legal, military, banking and medical professions. Others stayed with the land and were caught up with a fascination for horses, fox hunting, polo and racing in Ireland, England and Australia some members acquiring formidable reputations up to the present day. Family members have, for example, contributed to the growth of theatre and prison reform for juveniles in England, the early

banking system in Ireland, the growth of the dairy farming in Victoria, Australia, the fostering of pride and interest in exotic gardens in Ireland, the invention of revolutionary instruments for detecting submarines and the invention of the "backhand stroke" in the sport of polo. To this day the family continues to produce exceptional people whose achievements are memorable. John Watson, now living at Ballybolger in County Carlow, is one such example having represented Ireland recently at Olympic equestrian events.
