Philosophy through Film McGraw-Hill Education

"Clearly exposed with some sample

explanations of difficult issues. An excellent and necessary idea for teaching Spanish. A very useful reference book" (Lisa Clughen, Nottingham Trent University) "The students that have bought the book on my recommendation have found it very useful. They find it difficult to understand grammatical terms as they haven't got a grounding in English grammar. The book helps them to understand how their own language works and how this can be applied to another language. It speeds up their progress in Spanish" Thousands of students have found this book the ideal way to master Spanish. This new fifth edition offers: * explanation of a concept as it applies to English * the same concept as it applies to Spanish * similarities and differences between

English and Spanish * common pitfalls for English speakers * review exercises with answer key * Study Tips: learning vocabulary, word forms, developing memorization skills

Many of the classic questions of philosophy have been raised, illuminated, and addressed in celluloid. In this Third Edition of *Philosophy through Film*, Mary M. Litch teams up with a new co-author, Amy Karofsky, to show readers how to watch films with a sharp eye for their philosophical content. Together, the authors help students

become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation. The perfect size and scope for a first course in philosophy, the book assumes no prior knowledge of philosophy. It is an excellent teaching resource and learning tool, introducing students to key topics and figures in philosophy through thematic chapters, each of which is linked to one or more "focus films" that illustrate a philosophical problem or topic. Revised and expanded, the Third Edition features: A completely revised chapter on "Relativism," now re-titled "Truth" with coverage of the correspondence theory, the pragmatist theory, and the coherence theory. The addition of four new focus films:

Inception, Moon, Gone Baby Gone, God on Trial. Revisions to the General Introduction that include a discussion of critical reasoning. Revisions to the primary readings to better meet the needs of instructors and students, including the addition of three new primary readings: excerpts from Bertrand Russell's *The Problems of Philosophy*, from William James' *Pragmatism: A New Way for Some Old Ways of Thinking*, and from J. L. Mackie's "Evil and Omnipotence". Updates and expansion to the companion website, including a much expanded list of films relevant to the various subfields of philosophy. Films examined in depth include: Hilary and Jackie *The Matrix* *Inception* *Memento* *Moon* *I, Robot* *Minority Report* *Crimes and*
