### **SHEPPARD ROBERTSON**

An Introduction to Accounting and Managerial Finance McGraw-Hill College  
 Introduction to Managerial Accounting by Folk/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison and Noreen. However, this is not simply a briefer book with chapters removed; it has been rethought and retooled to meet the needs demanded by the market: a more accessible, yet thorough student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course, cost accounting/cost management. Faculty and students alike will find this new text has retained the hallmark features of the Garrison/Noreen text: author-written supplements; excellent readability; terrific examples; thorough, relevant, and balanced end of chapter material. In sum, this is a book instructors can count on!

Wild's Financial and Managerial Accounting responds to the market's request for a single book with balanced financial and managerial content (~50/50) that has a corporate approach throughout. With numerous innovative features, the authors focus on "Three C's": Clear presentation of accounting concepts, Concise coverage to help students focus on important material, and Cutting-edge technology to engage students and improve their chances for success. The authors provide a balance of small and large business examples, integration of new computerized learning tools, superior end-of-chapter materials, and highly engaging pedagogical learning structures. Technology tools, such as Connect and Carol Yacht's General Ledger and Peachtree software, provide students with further advantages as they learn, as well as apply, key accounting concepts and methods.

**Working Papers, Volume 2, to accompany Weygandt Financial and Managerial Accounting** Irwin/McGraw-Hill

As the long-time best-seller, Garrison has helped guide close to 2 million students through the challenging waters of managerial accounting since it was first published. It identifies the three functions managers must perform within their organizations--plan operations, control activities, and make decisions--and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. To achieve this, Managerial Accounting, 12/E, focuses, now as in the past, on three qualities: Relevance. Every effort is made to help students relate the concepts in this book to the decisions made by working managers. With insightful chapter openers, the popular Managerial Accounting in Action segments within the chapters, and stimulating end-of-chapter exercises, a student reading Garrison should never have to ask Why am I learning this?Balance. There's more than one type of business, and so Garrison covers a variety of business models, including not-for-profit, retail, service, and wholesale organizations as well as manufacturing. In the eleventh edition, service company examples are highlighted with icons in the margins of the text.Clarity. Generations of students have praised Garrison for the friendliness and readability of its writing, but that's just the beginning. Technical discussions have been simplified, material has been reordered, and the entire book carefully retuned to make teaching--and learning--from Garrison as easy as it can be. In addition, the supplements package is written by Garrison, Noreen, and Brewer, ensuring that students and professors will work with clear, well-written supplements that employ consistent terminology.

ACCOUNTING: Text and Cases, 10/E is a 28 chapter book. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end-of-chapter material are a combination of classic Harvard style cases, as well as extended problems.New to this edition is the inclusion of 2-3 problems per chapter. These problems, while not as involved as the case material, allow the students to exercise the concepts demonstrated in each chapter. The goal of the problem material is to provide a transition to the case material, which is a response to customer requests.

The emphasis of MANAGERIAL ACCOUNTING: A FOCUS ON ETHICAL DECISION MAKING, 5E, is decision making as opposed to number crunching. In addition, this text uses a unique five-step decision-making model throughout. To encourage discovery learning, this text links discussion and assignments in managerial decision making by (1) using realistic and interesting companies in each chapter; (2) using a five-step decision-making model; (3) requiring students to analyze, predict, and extend the solution to assignment materials to make business decisions; and (4) making extensive use of qualitative information. This book conveys a management perspective by including coverage of topics such as ABM, the value chain, and balanced scorecard evaluation techniques. It is also the first managerial text to incorporate coverage on knowledge management, highlighting the latest developments for improved managerial decision making. The fifth edition continues its emphasis on ethics and corporate governance, which are so important in today's business environment. Jackson/Sawyers/Jenkins empowers students to make sound decisions with solid analysis.
