Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity - How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts - How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

The Equanimous Mind (2nd Edition) chronicles the author's first ten-day Vipassana meditation camp experience at the end of 2010 and the life-changing impact it has had on his personal and professional life since that time. This new second edition comes at an important milestone in Manish's journey as ten years have passed since that first ten-day retreat. A new epilogue in this 10th anniversary edition has been expanded and enriched with updates on his progress since the journey began a decade ago. The book describes a ten-day Vipassana meditation course in the tradition of S. N. Goenka from the standpoint of someone encountering meditation for the first time.

It contains a detailed, journal-like narrative of the rich and complex sequence of events that unrolls during the retreat. The author's capacity to recall and sequence vivid details by the hundreds gives the book the feeling of an experience rather than merely of a recounting. The Equanimous Mind has a particular heartwarming quality because of the earnestness with which the author seeks to grow into being the best possible person he can be. Many people will benefit from this volume of clear sentences, deep feelings, and important messages. ===== Out of gratitude for the benefits the author has received from the practice of Vipassana meditation, he will be donating the proceeds from this book to spreading awareness about the technique, so that others can draw value from it as well. =====

We have lived in an era during which the spirituality intrinsic to science has become obvious. The universe is not random. It contains patterns and paths. This is called the information-state of the universe, and it organizes the materials and energies that form our bodies and minds. We are each microcosms; downloaded into our small selves are a vast array of directives and limits, the laws of science, that govern stars as well as our hearts and minds. We can gain access to some of the wisdom of this universal, lawful reality through meditation. As we observe our body sensations with equanimity, we come in contact with basic laws of physics, like entropy, or the decay of aggregates over time, and we also encounter basic laws of psychology, like the fact that social love, Mettā, leaves us happier than anger or fear. We may become self-balanced to face contingencies. It is science, not mysticism or religion, that reveals the value of Vipassana as a vestibule to ultimate realities, and highlights it as a practical guide to the psychology of well-lived lives. We are each unique snowflakes, patterns and lace, melting in the cosmic storm. We arise and pass inside a universe, a web, a Dhamma. We become aware of the scriptures that are inscribed inside us and that guide our wellbeing.

Insight Dialogue is a way of bringing the tranquility and insight attained in meditation directly into your interactions with other people. It's a practice that involves interacting with a partner in a retreat setting or on your own, as a way of accessing a profound kind of insight. Then, you take that insight on into the grind of everyday human interactions. Gregory Kramer has been teaching the practice (which he originated) for more than a decade in retreats around the world. It's something strikingly new in the world of Buddhist practice—yet it's completely grounded in traditional Buddhist teaching. Kramer begins with a detailed presentation of the central Buddhist teaching of the Four Noble Truths seen through an interpersonal lens. Because dukkha (suffering or unsatisfactoriness) is often most forcefully felt in our relations with others, interpersonal relationships are a wonderfully useful place to practice. He breaks the Noble Truths down into component parts to observe how they manifest particularly in relationship to others, using examples from his own life and practice, as well as from his students'. He then goes on to present the practice as it's taught in his workshops and retreats. There are a few basic steps to the practice, deceptively simple to describe: (1) pause, (2) relax, (3) open, (4) trust emergence, (5) listen deeply, and (6) speak the truth. The sequence begins following a period of meditation, and includes periods of speaking, listening, and mutual silence. Kramer includes numerous examples of people's experience with the practice from his retreats, and shows how the insight gained from the techniques can be brought into real life. More than just testimonials for how well the practice "works," the personal stories demonstrate the problems that arise, the different routes the practice can follow, and the sometimes surprising insights that are gained.

Lama Zopa Rinpoche specifically compiled *A Daily Meditation on Shakyamuni Buddha* for beginner Buddhist practitioners to use as the basis of a formal meditation practice. In this revised version, Rinpoche has reorganized some of the prayers and, in particular, has added an extensive explanation of the visualizations to be done while taking refuge. Drawn from Phabongkha Rinpoche's *Liberation in the Palm of Your Hand*, for each of the objects of refuge-Guru, Buddha, Dharma, and Sangha-there are visualizations for purifying negative karma, increasing qualities, and coming under the guidance of that object of refuge. Subtitled "How to Meditate on the Graduated Path to Enlightenment," the practices contained in this booklet prepare the mind for lamrim meditation by purifying negative karma and collecting extensive merits-the two main causes for attaining the realizations of the path to enlightenment (renunciation, bodhichitta, and the right view of emptiness). This booklet contains: - A motivation for doing the practice - Commonly recited verses for taking refuge and generating bodhichitta, for purifying the place, for invoking Guru Shakyamuni Buddha, and for blessing, multiplying, and presenting offerings - Prostrations with mantras - A visualization for taking refuge - A motivation for taking refuge - The extensive practice for taking refuge mentioned above - The four immeasurables - A bodhichitta motivation - Seven-limb prayer - A short mandala offering - Several requesting verses - A short lamrim prayer, *The Foundation of All Good Qualities*, by Lama Tsongkhapa - Recitation of Guru Shakyamuni Buddha's mantra - Absorption of Guru Shakyamuni Buddha - Dedications This practice can also be used as a basis for engaging in

the preliminary practices of accumulating 100,000 prostrations, mandala offerings, and so forth. Staple binding, 36 pages, 2018 edition.

"A must-read for anyone interested in incorporating meditation into their lifestyle." --Sanjay Gupta, MD, chief medical correspondent for CNN Heartfulness is an ideal, a spiritual way of living by and from the heart that is inclusive of all ideologies, beliefs, and religions. In this heart-centered book, a student in conversation with his teacher, Kamlesh D. Patel—affectionately known as Daaji, the fourth and current spiritual guide of the century-old Heartfulness tradition—present a unique method of meditation with the power to facilitate an immediate, tangible spiritual experience, irrespective of a person's faith. Our modern, fast-paced world can be an overwhelming place. Every day, we're bombarded with messages telling us that in order to be happy, fulfilled, and worthy, we must be better, do more, and accumulate as much material wealth as possible. Most of us move through our busy lives with our minds full of these ideas, multitasking as we strive to navigate the responsibilities and expectations we must meet just to make it through the day. But what if there is another way? What if, rather than letting the busyness of life overtake our minds, we learn to be heartfelt instead? Based on Daaji's own combination of approaches and practices for the modern seeker—which draws from the teachings of Sahaj Marg, meaning "Natural Path"—Heartfulness is a contemporized version of the ancient Indian practice of Raja Yoga, a tradition that enables the practitioner to realize the higher Self within. While many books describe refined states of being, The Heartfulness Way goes further, providing a pragmatic course to experience those states for oneself, which, per the book's guiding principle, is "greater than knowledge." Heartfulness meditation consists of four elements—relaxation, meditation, cleaning, and prayer—and illuminates the ancient, defining feature of yogic transmission (or pranahuti), the utilization of divine energy for spiritual growth and transformation. Using the method, detailed practices, tips, and practical philosophy offered in this book, you'll reach new levels of attainment and learn to live a life more deeply connected to the values of the Heartfulness way—with acceptance, humility, compassion, empathy, and love.

Meditation Now David De Angelis

Featuring accounts by practitioners living everyday lives, this introduction to Vipassana meditation provides a way for readers to learn more about its benefits. Explained is what takes place before, during, and after a ten-day silent meditation retreat. Each participant follows the same discipline: silence, a basic moral code known as the five precepts, a prescribed timetable, a vegetarian diet, and a commitment to practicing only what is taught at the retreat. This first-person account of the retreat reveals the challenges and benefits of facing reality head-on through direct observation and of learning to observe instead of reacting to thoughts, emotions, and sensations. In addition, the ways in which Vipassana meditation techniques are applied to individuals, institutions, children, prisoners, work places, and fields of science and social action are examined. Although based on the

teachings of the Buddha, the practice of Vipassana as illustrated in this book has broad appeal to other religious and nonsectarian audiences.

NEW YORK TIMES BESTSELLER • Thought leader, visionary, philanthropist, mystic, and yogi Sadhguru presents Western readers with a time-tested path to achieving absolute well-being: the classical science of yoga. "A loving invitation to live our best lives and a profound reassurance of why and how we can."—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life." The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Inner Engineering presents a revolutionary way of thinking about our agency and our humanity and the opportunity to achieve nothing less than a life of joy.

A Beautiful Way of Living Routledge

A fifth-century Indian Buddhist monk, Bodhidharma is credited with bringing Zen to China. Although the tradition that traces its ancestry back to him did not flourish until nearly two hundred years after his death, today millions of Zen Buddhists and students of kung fu claim him as their spiritual father. While others viewed Zen practice as a purification of the mind or a stage on the way to perfect enlightenment, Bodhidharma equated Zen with buddhahood and believed that it had a place in everyday life. Instead of telling his disciples to purify their minds, he pointed them to rock walls, to the movements of tigers and cranes, to a hollow reed floating across the Yangtze. This bilingual edition, the only volume of the great teacher's work currently available in English, presents four teachings in their entirety. "Outline of Practice" describes the four all-inclusive habits that lead to enlightenment, the "Bloodstream Sermon" exhorts students to seek the Buddha by seeing their own nature, the "Wake-up Sermon" defends his premise that the most essential method for reaching enlightenment is beholding the mind. The original Chinese text, presented on facing pages, is taken from a Ch'ing dynasty woodblock edition.
