This book is the first detailed account of the 1980s joint venture between Alfa Romeo and Nissan. Mired in political controversy from the get-go, the joint venture produced two identical cars based on the Nissan Cherry but built in Italy and equipped with Alfa Romeo running gear. The Alfa Romeo Arna and the Nissan Cherry Europe sold poorly and the venture, which ended in 1987, has been ridiculed ever since. Alfa Romeo historian sets the record straight on the Arna with this extensive research based on period documents, to separate the facts from the misconceptions once and for all.

After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and

later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

Built in almost four hundred thousand units between 1977 and 1985, the "wedge" Giulietta, also known as "116" by Alfa Romeo enthusiasts, is a car that's fondly remembered but hadn't yet had a title entirely dedicated to it. Matteo Licata, Italian car designer and automotive historian, finally tells the story of this unfairly underrated Alfa Romeo model.

*Alfa Romeo TZ-TZ2* Nada

This indispensable new book covers all Alfa Romeo production cars, from 1910 to 1986. Technical and descriptive detail is given for each car, as well as information about the way each model evolved through its lifetime. Within an easy-to-use format, the book offers answers to the most frequently asked questions

about Alfa Romeos, and is therefore of great value to potential buyers, collectors and enthusiasts. The photos, which are of the period and therefore completely reliable, provide a further means of comparison to help identification.

The planning, production and cultural development of a company that has been one of the keystones of Italian design for almost sixty years. Writing the history of Tecno, a company founded in 1953 by the Borsani brothers, does not mean just investigating the evolution of a significant player in the industrial production of furniture, but also tracing out a fundamental chapter in interior design at a global level. Many Tecno projects have been designed by some of the most prominent international architects and designers, including Vico Magistretti, Roberto Mango, Robin Day, Gio Ponti, Mario Bellini, Norman Foster, Ricardo Bofill, Jean-Michelle Wilmotte, Emilio Ambasz, Giorgetto Giugiaro, Gae Aulenti, and Piero Lissoni. Not to mention Tecno has always had a strong bond with the world of art, which has found material form in a specific collection of furnishings designed by noted artists like Man Ray, Bruno Munari, François and Frédéric Morellet, and Luigi Veronesi. Today many Tecno products are exhibited in leading museums of the world: at MoMA, New York and San Francisco, the Victoria and Albert Museum, London, the Georges Pompidou Centre, Paris, the Neue Sammlung, Munich, the Museum of Decorative Arts, Montreal and the Triennale in Milan.

"The Path of Humility: Caravaggio and Carlo Borromeo" establishes a fundamental relationship between the Franciscan humility of Archbishop of Milan Carlo Borromeo and the Roman sacred works of Caravaggio. This is the first book to consider and focus entirely upon these two seemingly anomalous personalities of the Counter-Reformation. The import of Caravaggio's Lombard artistic heritage has long been seen as pivotal to the development of his sacred style, but it was not his only source of inspiration. This book seeks to enlarge the discourse surrounding Caravaggio's style by placing him firmly in the environment of Borromeo Milan, a city whose urban fabric was transformed into a metaphorical Via Crucis. This book departs from the prevailing

preoccupation - the artist's experience in Rome as fundamental to his formulation of sacred style - and toward his formative years in Borromeo's Milan, where humility reigned supreme. This book is intended for a broad, yet specialized readership interested in Counter-Reformation art and devotion. It serves as a critical text for undergraduate and graduate art history courses on Baroque art, Caravaggio, and Counter-Reformation art.

Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

"A film that will let you see the music and listen to drawings; in a word, a film full of Fantasia!" Bruno Bozzetto's *Allegro non Troppo* tips its hand right away: it is an unabashed, yet full of admiration, retake on Walt Disney's 1940 'concert feature'. The obvious nod to that model fuels many tongue-in-cheek jokes in the film; however, *Allegro non Troppo* soon departs from mere parody, and becomes a showcase for the multifaceted aesthetics of Italian animation in 1976, as well as a witty social satire and a powerful rethinking of the music-image relationship in cinema. Marco Bellano reconstructs the history of the production of *Allegro non Troppo*, on the basis of an original research developed with the contribution of Bozzetto himself; it also presents an audiovisual analysis of the work, as to reassess the international relevance of Bozzetto's achievements by giving insight into the director's"--

The powerful and beautiful Alfa Romeo Montreal coupé is the ultimate "dream car that came true." Created as a futuristic concept car for Canada's Expo 67 World Fair, the exciting prototype was a dream car par excellence. The production model to which it gave birth was equipped with a race-bred 200bhp V8

engine, and manufactured in series from 1970 to 1977. Almost 4,000 Montreals were built, and sound cars are readily available today at very affordable prices. This book is a comprehensive pictorial tribute to the Montreal, a visual testimonial to the combined talents of Alfa Romeo engineers and Bertone stylists. It highlights the fusion of technical ingenuity and aesthetics that created one of the most stunning series production automobiles of the twentieth century. The book explores the marriage of technology and art that appeals to both reason and the heart, combining man's rational desire for fast, efficient personal transportation with his emotive passion for exotic vehicles. In a portfolio of over 500 illustrations, it paints a unique and detailed graphic portrait of all the facets of this elegant and potent classic GT, revealing why it is immensely enjoyable to drive and turns heads wherever it appears.

This collection of essays provides a comprehensive account of the culture of modern Italy. Contributions focus on a wide range of political, historical and cultural questions. The volume provides information and analysis on such topics as regionalism, the growth of a national language, social and political cultures, the role of intellectuals, the Church, the left, feminism, the separatist movements, organised crime, literature, art, design, fashion, the mass media, and music. While offering a thorough history of Italian cultural movements, political trends and literary texts over the last century and a half, the volume also examines the cultural and political situation in Italy today and suggests possible future directions in which the country might move. Each essay contains suggestions for further reading on the topics covered. The Cambridge Companion to Modern Italian Culture is an invaluable source of materials for courses on all aspects of modern Italy.

Immortalized as Dustin Hoffman's transport in *The Graduate*, the Alfa Romeo Spider enjoyed an extraordinarily long production span of 27 years. Launched as the 1600cc Duetto with Pininfarina's simply-styled round-tailed body, it got a 1750cc engine and a boxed off tail in 1969, grew into a 2000cc in 1970 and was saddled with rubber bumpers in the 1980s, but mercifully lost them in 1990. Chris Rees has assembled a comprehensive production history of the car that was offered in literally dozens of different versions with a bewildering multiplicity of minor changes and variants. This task has never been properly attempted before, and the result is sure to be eagerly seized upon by the thousands of Spider enthusiasts hungry for a definitive volume.
