From the bestselling author of *The Monk Who Sold His Ferrari* A chance encounter following a near-death experience sends Jack Valentine on a paradigm-shifting quest to understand the true meaning of life and find his most authentic self Jack Valentine seemed to have it all. He made good money as an ad man and looked good doing it. He had a hot apartment, cool friends, even a slick car—at least until the hectic Monday morning a truck smashed into it, sending the critically injured Jack to the hospital. Everything happens for a reason, though, and Jack's reason reveals itself in the silver-haired cancer patient who becomes his roommate one evening. The elderly man, Cal, shares his life story—one not dissimilar to Jack's—of material wealth masking a gaping hole within. Cal ultimately found salvation through philosophy (“the love of wisdom”), and now offers to help Jack by prepping the younger man for the Final Questions we all must face: Have I lived wisely? Have I loved well? Have I served greatly? Presenting Jack with three plane tickets, each accompanied by a map marked with a red X, Cal sends Jack to meet with three great teachers, each of whom will help Jack answer one of the Final Questions—just as they once helped Cal. First, in Rome, Jack will meet “the Saint.” Then a haunted beach in Hawaii introduces him to “the Surfer.” And finally the grandeur of New York City sets the stage for his last encounter: with “the CEO.” Along the way, Jack will learn to do his interior work, discover that our negative traits offer gateways to higher versions of ourselves, and understand that figuring things out in your head can distract you from the powerful whispers of your

heart. Join Jack on his journey and step into the you that you were always meant to be.

Percy Jackson and the Olympians, Book One: The Lightning Thief Simon and Schuster
 In this sequel to *Wallbanger*, fan favorites Caroline Reynolds and Simon Parker negotiate the roller coaster of their new relationship while house-sitting in Sausalito. Playing house was never so much fun—or so confusing. With her boss on an extended honeymoon, Caroline's working crazy-long hours to keep the interior design company running—especially since she's also the lead designer for the renovation of a gorgeous old hotel. And with Simon, her hotshot photographer boyfriend, gallivanting all over the world for his job, the couple is heavy-duty into "absence makes the heart grow fonder" mode. No complaints about the great reunion sex, though! Then a trip back east to his childhood home has Simon questioning his nomadic lifestyle. He decides to be home more. A lot more. And he wants Caroline home more, too. Though their friends' romantic lives provide plenty of welcome distraction, eventually Caroline and Simon have to sort out their relationship. Sure, more togetherness is a good thing—but does less traveling and working have to mean the other extreme? Apple pie and picket fences? With this second book in the *Cocktail* series, USA TODAY bestselling author Alice Clayton delivers another delicious, frothy confection of a book, shaking up her characters, stirring in laugh-out-loud humor, and serving sizzling romance straight up!

"YOU HAVE CHANGED MY LIFE" is a common refrain in the emails Walter Lewin receives daily from fans who have been enthralled by his world-famous video lectures about the wonders of physics. "I walk with a new spring in my step and I look at life through physics-colored eyes," wrote one such fan. When Lewin's lectures were made available online, he became an instant YouTube celebrity, and The New York Times declared, "Walter Lewin delivers his lectures with the panache of Julia Child bringing French cooking to amateurs and the zany theatricality of YouTube's greatest hits." For more than thirty years as a beloved professor at the Massachusetts Institute of Technology, Lewin honed his singular craft of making physics not only accessible but truly fun, whether putting his head in the path of a wrecking ball, supercharging himself with three hundred thousand volts of electricity, or demonstrating why the sky is blue and why clouds are white. Now, as Carl Sagan did for astronomy and Brian Green did for cosmology, Lewin takes readers on a marvelous journey in *For the Love of Physics*, opening our eyes as never before to the amazing beauty and power with which physics can reveal the hidden workings of the world all around us. "I introduce people to their own world," writes Lewin, "the world they live in and are familiar with but don't approach like a physicist—yet." Could it be true that we are shorter standing up than lying down? Why can we snorkel no deeper than about one foot below the surface? Why are the colors of a rainbow always in the same order, and would it be possible to put our hand out and touch one? Whether introducing why the air smells so fresh after a lightning storm, why we briefly lose (and gain) weight when we ride in an elevator, or what the big bang would have sounded like had anyone existed to hear it, Lewin never ceases to surprise and delight with the extraordinary ability of physics to answer even the most elusive questions.

Recounting his own exciting discoveries as a pioneer in the field of X-ray astronomy—arriving at MIT right at the start of an astonishing revolution in astronomy—he also brings to life the power of physics to reach into the vastness of space and unveil exotic uncharted territories, from the marvels of a supernova explosion in the Large Magellanic Cloud to the unseeable depths of black holes. "For me," Lewin writes, "physics is a way of seeing—the spectacular and the mundane, the immense and the minute—as a beautiful, thrillingly interwoven whole." His wonderfully inventive and vivid ways of introducing us to the revelations of physics impart to us a new appreciation of the remarkable beauty and intricate harmonies of the forces that govern our lives.

Coca, Southern California. A small town on a wild river, at the margins of the red-rocked desert and the forest where the last of the state's Native Americans still make their home. When Boa, the charismatic new mayor, decides to put Coca on the map, he plans a monumental new project: a six-lane bridge, two hundred metres high, designed and destined to catapult the city into the third millennium. Workers from across the globe flock to California: to earn a living, to escape their pasts, to bear witness to man's mastery of nature. But the project's majestic scope has no regard for the legacy of this ancient land, and within this monochrome Babel festers a very human cocktail of fears and passions. At once timeless and yet exquisitely of its moment, Maylis De Kerangal's multi-award-winning novel follows its broad cast of construction workers and architects, diggers and dreamers, as they navigate both the intricacies of their project and the depths of the human heart. Translated from the French by Jessica Moore

Wallbanger Council Oak Books

The book "THERAPEUTIC TAROT TRAINING- Volume 1 - MAJOR ARCANA" is a highly didactic treatise that, starting from the basic principles of esotericism, unveils the 78 Arcana. It does not place the objective of the work in divination or in advising on specific matters, but in the self-knowledge and transformation of the human being. It was taking shape from the notes that I had been giving for my students since 1986, so that it is accessible to laymen as very enriching for the initiates. This innovative and progressive work makes the connection between the ancient tradition of the Arcana with modern psychotherapy, also accompanying the paradigm shift that marks the entry into a New Age. With a holistic approach, the meanings of the letters are elaborated through a systematic study of their symbols, present mythology and astrological, numerological and kabbalistic correspondences, showing how all these paths converge towards the same wisdom. Of the various tarots shown, the deck studied in greater depth is that of Aleister Crowley & Frieda Harris, concluded in 1944, cleansed of moralisms and ancient doctrines and therefore more suitable for diving and understanding the psyche of the current human being. MAIN THEMES COVERED: - Study of the 22 Arcana as phases of the growth of human consciousness.- Origins and history of the Tarot.- Presentation of the ritual and THERAPEUTIC READING, created by me resignifying the Celtic Cross. This reading studies: 1- The internal impulses and brakes that the person is feeling at this moment. 2- The crystallized behavior patterns, which block the individual's achievement. 3- Children's programming. 4- The Voice of the Essence. 5- The working method to remove the behavior patterns and tune into the Essence. 6- The Growth Path or possible evolution of the table if the proposed keys are used.- Extensive study of each Major Arcana from its most universal or archetypal level to the most everyday level; breaking with the stereotypical and expired vision that some cards had accumulated.- Summary of meanings and key words.- Introduction to the Tree of Life. Finally, the book "TRAINING IN THERAPEUTIC TAROT - Volume 1 - ARCANOS MAYORES" is not just for reading, but also for living. Enjoy. With love. Veet Pramad

Called by many France's foremost philosopher, Gilles Deleuze is one of the leading thinkers in the Western World. His acclaimed works and celebrated collaborations with Félix Guattari have established him as a seminal figure in the fields of literary criticism and philosophy. The long-awaited publication of *What Is Philosophy?* in English marks the culmination of Deleuze's career. Deleuze and Guattari differentiate between philosophy, science, and the arts, seeing as means of confronting chaos, and challenge the common view that philosophy is an extension of logic. The authors also discuss the similarities and distinctions between creative and philosophical writing. Fresh anecdotes from the history of philosophy illuminate the book, along with engaging discussions of composers, painters, writers, and architects. A milestone in Deleuze's collaboration with Guattari, *What Is Philosophy?* brings a new perspective to Deleuze's studies of cinema, painting, and music, while setting a brilliant capstone upon his work.
