ARISE Life-Skills for Young Folks Grades 2-3 Volume 1 - Learner's Workbook Oswaal Books

Rapid—and seemingly accelerating—changes in the economies of developed nations are having a proportional effect on the skill sets required of workers in many new jobs. Work environments are often technology-heavy, while problems are frequently ill-

defined and tackled by multidisciplinary teams. This book contains insights based on research conducted as part of a major international project supported by Cisco, Intel and Microsoft. It faces these new working environments head-on, delineating new ways of thinking about '21st-century' skills and including operational definitions of those skills. The authors focus too on fresh approaches to educational assessment, and present methodological and technological solutions to the barriers that hinder ICT-based assessments of these skills, whether in large-scale surveys or classrooms. Equally committed to defining its terms and providing practical solutions, and including international perspectives and comparative evaluations of assessment methodology and policy, this volume tackles an issue at the top of most educationalists' agendas.

Life Skills, Grade 4 Prabhat Prakashan

Setting out a year-long curriculum based programme for education and youth professionals, this book provides a challenging and engaging workshop-based approach to developing school engagement and ambitions in young people aged 11-18. The programme, which is informed by CBT, helps professionals to understand barriers to young people's school engagement and learning. It outlines a case for a practical, well-rounded curriculum that readies students for life post-education through eight core themes, including 'believing in me', 'money matters' and 'business basics'. The second part of the book is a photocopiable manual for use in classroom settings, making this an essential, hands-on manual for nurturing young people's life skills.
