*****AS FEATURED ON NPR'S TALK OF THE NATION***** Imagine the worst thing in the world. Picture it. Construct it, carefully and deliberately in your mind. Be careful not to omit anything. Imagine it happening to you, to the people you love. Imagine the worst thing in the world. Now try not to think about it. This is what it is like for Fletcher Wortmann. In his brilliant memoir, the author takes us on an intimate journey across the psychological landscape of OCD, known as the "doubting disorder," as populated by God, girls, and apocalyptic nightmares. Wortmann unflinchingly reveals the elaborate series of psychological rituals he constructs as "preventative measures" to ward off the end times, as well as his learning to cope with intrusive thoughts through Clockwork Orange-like "trigger" therapy. But even more than this, the author emerges as a preternatural talent as he unfolds a kaleidoscope of culture high and low ranging from his obsessions with David Bowie, X-Men, and Pokemon, to an eclectic education shaped by Shakespeare, Kierkegaard, Catholic mysticism, Christian comic books, and the collegiate dating scene at the "People's Republic of Swarthmore." *Triggered* is a pitch-perfect

memoir; a touching, triumphantly funny, compulsively readable, and ultimately uplifting coming-of-age tale for Generation Anxiety. Fletcher Wortmann on OCD and sex: "If a girl accepts an invitation to help count the tiles on your bedroom ceiling, then she will probably be disappointed when she realizes you were speaking literally." ...on OCD and religion: "I have found Catholicism and obsessive compulsive disorder to be deeply sympathetic to one another. One is a repressive construct founded in existential terror, barely restrained by complex, arbitrary ritual behaviors; the other is an anxiety disorder." ...on OCD humor: "By the sink, I noticed a perfunctory sign warning readers to wash their hands. It was scrawled with graffiti: NO YOU CAN'T GERMS ARE UNPREVENTABLE AND INESCAPABLE." ...on the seductiveness of OCD: "Every so often, everything will work, and you will somehow convince yourself that you are safe, and the disorder will claim credit. I had struck a bargain with the OCD. The transaction was complete. In that moment I became subservient to it." *Triggered* Columbia University Press

Financial Planning for Teachers provides teachers, administrators, and other educational professionals with just the right amount of financial literacy to know what's important in planning for the future. Written by Eric Nichols, CFP(r), CLU(r), RICP(r), CRPC(r), a financial professional who has spent the past ten years helping teachers and their families with their financial strategies, this book is here to guide you through the personal finance landscape. Over his many years of working with teachers with just about every imaginable financial condition, family situation, and set of goals, Nichols has recognized a common theme: while teachers are generally very intelligent and caring individuals who know they need to plan for their futures, they typically prefer to have someone they trust handle it for them. The challenge, as they see it, is finding someone who will put their best interests first. Presenting all the essential information in a light, conversational tone, this easy-to-use educational tool is designed to help you work with your financial professional and carve out your path to financial prosperity. Whether you're just getting started in your planning or you're closer to retirement, you'll come away better able to meet your particular needs.

A NEW YORK TIMES BESTSELLER A New York Times Notable Book "Riveting, heartbreaking, sometimes difficult, always inspiring." —The New York Times Book

Review "An incredibly moving memoir about what it means to be a doctor."
 —Ellen Pompeo As seen/heard on Fresh Air, The Daily Show with Trevor Noah, NBC Nightly News, MSNBC, Weekend Edition, and more An emergency room physician explores how a life of service to others taught her how to heal herself. Michele Harper is a female, African American emergency room physician in a profession that is overwhelmingly male and white. Brought up in Washington, D.C., in a complicated family, she went to Harvard, where she met her husband. They stayed together through medical school until two months before she was scheduled to join the staff of a hospital in central Philadelphia, when he told her he couldn't move with her. Her marriage at an end, Harper began her new life in a new city, in a new job, as a newly single woman. In the ensuing years, as Harper learned to become an effective ER physician, bringing insight and empathy to every patient encounter, she came to understand that each of us is broken—physically, emotionally, psychically. How we recognize those breaks, how we try to mend them, and where we go from there are all crucial parts of the healing process. *The Beauty in Breaking* is the poignant true story of Harper's journey toward self-healing. Each of the patients Harper writes about taught her something important about recuperation and recovery. How to let go of fear even when the future is murky: How to tell the truth when it's simpler to overlook it. How to understand that compassion isn't the same as justice. As she shines a light on the systemic disenfranchisement of the patients she treats as they struggle to maintain their health and dignity, Harper comes to understand the importance of allowing ourselves to make peace with the past as we draw support from the present. In this hopeful, moving, and beautiful book, she passes along the precious, necessary lessons that she has learned as a daughter, a woman, and a physician.

[Financial Planning for Teachers](#) Macmillan A "bracing and well-argued" study of America's college debt crisis—"necessary reading for anyone concerned about the fate of American higher education" (Kirkus). College is far too expensive for many people today, and the confusing mix of federal, state, institutional, and private financial aid leaves countless students without the resources they need to pay for it. In *Paying the Price*, education scholar Sara Goldrick-Rab reveals the devastating effect of these shortfalls. Goldrick-Rab examines a study of 3,000 students who used the support of federal aid and Pell Grants to enroll in public colleges and universities in Wisconsin in 2008. Half the students in the study left college without a degree, while less than 20 percent finished within five years. The cause of their problems, time and again, was lack of money. Unable to afford tuition, books, and living expenses, they worked too many hours at outside jobs, dropped classes, took time off to save money, and even went without adequate food or housing. In many heartbreaking cases, they simply left school—not with a degree, but with crippling debt. Goldrick-Rab combines that data with devastating stories of six individual students, whose struggles make clear the human and financial costs of our convoluted financial aid policies. In the final section of the book, Goldrick-Rab offers a range of

possible solutions, from technical improvements to the financial aid application process, to a bold, public sector-focused "first degree free" program. "Honestly one of the most exciting books I've read, because [Goldrick-Rab has] solutions. It's a manual that I'd recommend to anyone out there, if you're a parent, if you're a teacher, if you're a student."—Trevor Noah, *The Daily Show*

Penguin Bloom is an extraordinary true story of recovery, hope and courage as one injured bird and her human family learn to heal and celebrate life, featuring the gorgeous photography of Cameron Bloom and a captivating narrative by New York Times bestselling author of *The Blue Day Book* Bradley Trevor Greive. People around the world have fallen in love with Penguin the Magpie, a global social media sensation, and her adventures with her human family. But there is far more to Penguin's story than meets the eye. It all begins when Sam, Cameron Bloom's wife, suffers a near fatal fall that leaves her paralysed and deeply depressed. One of their three sons, reeling from the tragic accident, discovers an injured magpie chick abandoned after she had fallen from her nest. The boys name the bird Penguin, for her black-and-white plumage. As they nurse Penguin back to health, the incredible joy, playfulness and strength she exudes fortify the family and especially lift Sam's spirits. Penguin's resilience demonstrates that, however bleak things may seem, compassion, friendship and support can come from unexpected places ensuring there will always be better days ahead. This plucky little magpie reminds us all that, no matter how lost, fragile, or damaged we feel, accepting the love of others and loving them in return will help to make us whole. Winner of the ABIA Illustrated Book of the Year. The book is soon to be a major motion picture starring Naomi Watts, Andrew Lincoln, Jacki Weaver and Rachel House. A unique and remarkable insight into a family dealing with tragedy and finding their way through it with love, courage and hope - Naomi Watts [A Memoir of Obsessive-Compulsive Disorder](#) Recasting the history of African American literature, *Shadow Archives* brings to life a slew of newly discovered texts—including Claude McKay's *Amiable with Big Teeth*—to tell the stories of black special collections and their struggle for

institutional recognition. Jean-Christophe Cloutier offers revelatory readings of major African American writers, including McKay, Richard Wright, Ann Petry, and Ralph Ellison, and provides a nuanced view of how archival methodology, access, and the power dynamics of acquisitions shape literary history. *Shadow Archives* argues that the notion of the archive is crucial to our understanding of postwar African American literary history. Cloutier combines his own experiences as a researcher and archivist with a theoretically rich account of the archive to offer a pioneering study of the importance of African American authors' archival practices and how these shaped their writing. Given the lack of institutions dedicated to the black experience, the novel became an alternative site of historical preservation, a means to ensure both individual legacy and group survival. Such archivism manifests in the work of these authors through evolving lifecycles

where documents undergo repurposing, revision, insertion, falsification, transformation, and fictionalization, sometimes across decades. An innovative interdisciplinary consideration of literary papers, *Shadow Archives* proposes new ways for literary scholars to engage with the archive.
