Why is Chemistry the Central Science? | Schooled By Science Chemistry Central Science Chemistry is often called the central science because of its role in connecting the physical sciences, which include chemistry, with the life sciences and applied sciences such as medicine and engineering. The nature of this relationship is one of the main topics in the philosophy of chemistry and in scientometrics. The phrase was popularized by its use in a textbook by Theodore L. Brown and H ... The central science - Wikipedia Chemistry is involved in both the natural world and the man-made world. It's the link between all of the physical sciences (even the confusing ones like physics). That's why it's often called "the central science." Don't believe me? Just have a look at everything chemistry plays a part in — both in science and in everyday life.
