GROSS SCHMITT

Vulgar Latin Cambridge University Press
 John Cottingham's 1998 study examines three philosophical approaches to the systematic understanding of human nature.
Timmy in Trouble Oxford University Press
 The advent of gay and lesbian studies as an academic field opened the door for a new exploration of sexuality in literature. Here, works generally considered heterosexual are re-examined in the light of queer theory. The notion of homosexuality is viewed as a social construction that emerged during the 19th century, with a definitive difference between biological sex and gendered behavior. Heterosexuality is determined by whether sexual performance conforms to society-designated gender roles. From this wider perspective, this book examines literature previously viewed as "straight" in a search for alternative manifestations of desire and performance, relationships that contain an apparent disconnect between gender and desire. With broad coverage of many periods, authors, and genres, the 17 essays identify inherently queer heterosexual practices and critique the idea of heteronormativity, blurring the line between homo- and heterosexuality. Topics discussed include sodomy and chastity; Victorian literature; the relationship between sex, gender and desire; and the instability in literary portrayals of gender and sexuality. George Eliot, George Meredith, Ernest Hemingway, and Rider Haggard are among the many authors discussed.

 Ultimul volum semnat de scriitorul și publicistul Octavian Paler incapacitatea lumii moderne de a crea mituri. Singurele mituri „moderne” care pot fi puse alături de miturile anticilor – Don Juan, Don Quijote, Faust Hamlet – sunt produse de tot atâtea capodopere literare. Pornind de la aceste mituri, Octavian Paler imaginează niște „conferințe nerostite” în care vorbește despre dragoste, bătrânețe și moarte.

 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and

remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.
Uncollected Stories of William Faulkner Routledge
 Vulgar Latin refers to those features of Latin language that were not recommended by the classical grammarians but existed nonetheless. Although Vulgar Latin is not well documented, evidence can be deduced from details of the spelling, grammar, and vocabulary that occur in texts of the later Roman Empire, late antiquity, and the early Middle Ages. Every aspect of Vulgar Latin is exemplified in this book, proving that the language is not separate in itself, but an integral part of Latin. Originally published in French in 1967, Vulgar Latin was translated more recently into Spanish in an expanded and revised version. The English translation by Roger Wright accurately portrays Vulgar Latin as a complicated field of study, where little is known with absolute certainty, but a great deal can be worked out with considerable probability through careful critical analysis of the data. This text is an invaluable aid to research and understanding for all those interested in Latin, Romance languages, historical linguistics, early medieval texts, and early medieval history. József Herman is the former director of the Linguistic Research Institute at the Hungarian Academy of Sciences and is currently Professor of Latin Linguistics at the University of Venice. He is a well-known authority on the history of later Latin and the prehistory of Romance languages
Calomnii mitologice John Benjamins Publishing
 Această lucrare își propune să realizeze un studiu de literatură comparată ce are ca scop evidențierea valorificării temelor antice prin interpretarea analitică a elementelor comune identificate în Metamorfozele lui Ovidius și în literatura română modernă și postmodernă.
The German Refugees Editura Universității din București - Bucharest University Press
 The Panchatantra is a collection of short stories from India, written more than 5000 years ago! This is a collection of stories from that legendary collection. The stories inculcate moral values

in children in a subtle and fun manner. Enjoy the stories, where plants and animals can converse with human beings too!

 A Linguistic History of Italian offers a clear and concise explanation of why modern Italian grammar has become the way it is. It focuses on the effects of historical changes on the modern structure of Italian, revealing patterns and structures which are not always apparent to those who are only familiar with modern Italian. Although the book concentrates on the internal history of the language, the emergence of Italian is considered against the wider background of the history of Italian dialects, and other external factors such as cultural and social influences are also examined.
METAMORFOZELE OVIDIENE ÎN DIALOG CU LITERATURA ROMÂNĂ MODERNĂ ȘI POSTMODERNĂ Routledge
 "Anthology of essays examining censorship in the 21st century, including via cancel culture and social media"--
Feminist Readings/feminists Reading Legare Street Press
 First published in 1934, this book presents a detailed account of Romanian history by the British historian and activist R. W. Seton-Watson.
The World of Angela Carter McFarland
 In recent years there has been a resurgence of interest in grammatical constructions units of grammar representing formmeaning correspondences. The movement in which Construction Grammar, as developed by Charles Fillmore and Paul Kay, has played a significant role, has arisen in part as a response to the Chomskyan modular approach, which treats grammatical constructions as epiphenomenal, dismantling their component features and attributing these to general principles of grammar. This volume is the first collection to focus on grammatical constructions per se, and is dedicated to Charles Fillmore in recognition of his leadership in the field. The papers all reflect or elaborate on his work, which shows how lexicon, syntax, semantics, and pragmatics interact in giving constructions their individual holistic characters as basic units of grammar. Several approaches to constructions are represented here, dealing with topics that range from idiomatized constructions to traditional forms such as conditionals, relative clauses, and benefactive constructions. A unifying thread is the shared conviction that close examination of the nature of grammatical constructions, with particular emphasis on their idiosyncrasies and on the complex interrelationships among their forms, functions, meanings, and uses in ordinary speech and writing, provides a rich foundation upon which to build a theory of cognition, memory, and grammar.
Lectures on the History of Literature Om Books International
 "You've stumbled on to something much larger than you can possibly imagine." In the dead of night, a cloaked figure drags a

heavy box through snow-covered streets. The chest, covered in images of mythical beasts, can only be opened when the fangs of its serpent's-head clasp taste blood. Centuries later, in an Oxford library, a boy touches a strange book and feels something pierce his finger. The volume is blank, wordless, but its paper has fine veins running through it and seems to quiver, as if it's alive.

Words begin to appear on the page--words no one but the boy can see. And so unfolds a timeless secret . . .

A Concise English Grammar (R-269) McFarland

Katie can't believe it when her parents agree that she can have a puppy. And when she sees the lively Timmy, she's sure her family will fall in love with him, just as she has. But her sister Jess is worried about how Misty the cat will react to the new arrival. Katie thinks they'll get used to each other, but things don't go as planned. Every time Timmy tries to play with Misty he upsets her and gets into trouble. Timmy is so sad. Why doesn't Misty want to be friends?

Philosophy and the Good Life DigiCat

This book brings together a collection of articles characterized by two main themes: the contrastive study of parallel phenomena in two or more languages, and an essentially functional approach in which language is regarded, first and foremost, as a rich and complex communication system, inextricably embedded in sociocultural and psychological contexts of use. The majority of the studies reported is empirical in nature, many making use of corpora or other textual materials in the language(s) under investigation. The book begins with an introductory section in which the editors provide surveys of the state of the art in both functional and contrastive linguistics. The other five sections of the volume are devoted to (i) a cognitive perspective on form and function, (ii) information structure, (iii) collocations and formulaic language, (iv) language learning, and (v) discourse and culture.

In the post-communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors, only some of them political. Throughout the region, the Orthodox, Roman Catholic, and Greek Catholic churches have tried to impose their views on democracy through direct political engagement. Moreover, surveys show that the churches (and the army) enjoy more popular confidence than elected political bodies such as parliaments. These results reflect widespread disenchantment with a democratization process that has allowed

politicians to advance their own agendas rather than work to solve the urgent socio-economic problems these countries face. In this penetrating study, Lavinia Stan and Lucian Turcescu investigate the interaction of religion and politics in one such country, Romania. Facing internal challenges and external competitions from other religions old and new, the Orthodox Church in Romania has sought to consolidate its position and ensure Romania's version of democracy recognizes its privileged position of "national Church", enforcing the Church's stances on issues such as homosexuality and abortion. The post-communist state and political elite in turn rely on the Church for compliance with educational and cultural policies and to quell the insistent demands of the Hungarian minority for autonomy. Stan and Turcescu examine the complex relationship between church and state in this new Romania, providing analysis in key areas: church collaboration with communist authorities, post-communist electoral politics, nationalism and ethno-politics, restitution of Greek Catholic property, religious education, and sexual behavior and reproduction. As the first scholars to be given access to confidential materials from the archives of the communist political police, the notorious Securitate, Stan and Turcescu also examine church archives, legislation, news reports, and interviews with politicians and church leaders. This study will move the debate from common analyses of nationalism in isolation to more comprehensive investigations which consider the impact of religious actors on a multitude of other issues relevant to the political and social life of the country.

Calomnii mitologice. Ediția a III-a Vintage

In this book Sarah Gamble explores Angela Carter's celebration of the marginal, the balance in her work between history and fantasy, fairy tale and reality, excessive desire and love and looks at how these tensions influenced both the form and content of her fiction. Providing close, perceptive readings of all of Carter's fiction, many of the short stories, as well as the non-fiction writing, Sarah Gamble demonstrates how, throughout her career, Carter wrote with the intention of subverting consensus views of any kind, in particular, the conception of history as unalterable 'master narrative', conventional social codes regarding propriety and 'woman's place', and the artificial distinction between 'high' and 'low' literature. This is an illuminating study of a startlingly original and influential writer which will appeal to students and

the general reader alike.

Robin Hood Wiley-Blackwell

Angela Carter, a prolific author who worked in numerous genres, remains one of the most important British writers of the last century. She was particularly renowned for her investigation of cultural mythologies, which shape our lives but which we often leave unexamined. This text explores a selection of Carter's novels and short stories, supplemented with her perspectives on politics, society and aesthetics, and her attempts to redefine popular genres such as the fairy tale. This critical work is a strong addition to the scholarship on this important but often overlooked writer.

Ancient & Medieval History Greenhaven Publishing

A philosophical treatise on the limits of human knowledge and the futility of scientific pursuits. Written by Heinrich Cornelius Agrippa, a notable Renaissance thinker and theologian, this book challenges readers to question their assumptions and embrace uncertainty. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

A Linguistic History of Italian Oxford University Press, USA

"A new translation by an award winning translator rescues Goethe's collection of stories, modelled on the Decameron, from being out of print in English." "A family of German nobles have been forced from their home on the left bank of the Rhine by the French Revolution. Their peace is further disrupted by the arguments between the young Karl, a supporter of the ideals of the revolution, and the other men. The Baroness saves the family situation by suggesting they amuse each other by telling stories." "There are seven in all: two short ghost stories, two amorous anecdotes and two more substantial moral tales, the whole being concluded with Goethe's richly worked, fantastic, symbolic, allegorical 'Fairy Tale'." "The German Refugees was first published in 1795."--BOOK JACKET.
