Pumps Most
split-case
pumps are
axially-split -
meaning that
the flange at
which the
pump casing
separates is in

the same
plane as the
pump axis.
Radially-split
pumps are
also available,
and are
commonly
used in very
high-pressure
and high-
temperature
industrial
applications
(boiler-feed
pumps are
one common
application for
radially-split
pumps). Split-
