The Manual of Standard Tibetan presents the everyday speech of Lhasa as it is currently used in Tibet and among the Tibetan diaspora. It not only places the language in its natural context but also highlights along the way key aspects of Tibetan civilization and Vajrayana Buddhism. The Manual, which consists of forty-one lessons, is illustrated with many drawings and photographs and also includes two informative political and linguistic maps of Tibet. Two CDs provide an essential oral complement to the manual. A detailed introduction presents a linguistic overview of spoken and written Tibetan.

This book provides an

ethno-historical study of the trade system in Ladakh (India), a busy entrepôt for Silk Route trade between Central and South Asia. Previously a part of global networks, Ladakh became an isolated border area as national boundaries were defined and enforced in the mid-20th century. As trade with Central Asia ended, social life in Ladakh was irrevocably altered. The author's research combines anthropological, historical, and archaeological methods of investigation, using data from primary documents, ethnographic interviews and participation-observation fieldwork. The result is a cultural history of South and Central Asia, detailing the social lives of historical Ladakhi traders and identifying their community as a cosmopolitan social group. The relationship between the historical narratives and the modern ethnographic context illustrates how social issues in modern communities are related

to those of the past. It is demonstrated that this relationship depends on both memories, narratives about the past constructed within present social contexts, and legacies, ways in which the past continues to shape present social interactions. This book will be of particular interest to anthropologists, historians and specialists in South and Central Asian studies, as well as those interested in historical archaeology, science, sociology, political science and economics.

Tashi Daknewa was one of

LTWA's resident Tibetan language teachers and with twelve years classroom experience, as well as a one-year sabbatical teaching and studying in the USA, he has developed a keen awareness of students' needs. Through diligently noting the many and various questions he has been asked over the years, as well as the answers he gave, he has been able to compile this book, which illustrates Tibetan grammar from a quite fresh perspective. What he has tried to do is to address the problems that occur in students' minds when initially presented with Tibetan grammar in the traditional way.

Assembled by a missionary during the mid-19th century, this dictionary has an outstanding reputation. Practical and nontechnical, it offers a full sense of Tibetan words in their common usage. Each word is defined in terms of both its written and conversational usage. An English-Tibetan vocabulary offers pronunciations for

hundreds of words.
A Tibetan-English Dictionary with Sanskrit Synonyms John Benjamins Publishing

This English-Tibetan dictionary contains 16,000 main entries and subentries, a total of 45,000 lexical items. The dictionary is primarily oriented to spoken communication and was designed to be semantically sensitive, bridging the semantic gap between Tibetan and English. Tibetan terms corresponding to submeanings of English subterms are specified, and each entry in the dictionary includes both the Tibetan orthography and a phonemic notation to indicate pronunciation. Grammatical features are noted, and all examples of usage are presented with the romanization of the Tibetan and phonemic notation of the spoken forms. An introductory essay outlines the main features of Tibetan grammar. (MSE)

This highly original and timely collection brings together case studies from salient areas of the Himalayan region to explore the politics of language contact. Promoting a linguistically and historically grounded perspective, *The Politics of Language Contact in the Himalaya* offers nuanced insights into language and its relation to power in this geopolitically complex region. Edited by respected scholars in the

field, the collection comprises five new research contributions by established and early-career researchers who have been significantly engaged in the Himalayan region. Grounded in a commitment to theoretically informed area studies, and covering Tibet (China), Assam (India), and Nepal, each case study is situated within contemporary debates in sociolinguistics, political science, and language policy and planning. Bridging disciplines and transcending nation-states, the volume offers a unique contribution to the study of language contact and its political implications. The Politics of Language Contact in the Himalaya is essential reading for researchers in the fields of language policy and planning, applied linguistics, and language and literary education. The detailed introduction and concluding commentary make the collection accessible to all social scientists concerned with questions of language, and the volume as a whole will be of interest to scholars in anthropology, sociolinguistics, political science and Asian studies. The Tibetan language comprises a wide range of spoken and written varieties whose known history dates from the 7th century AD to the present day. Its speakers inhabit a vast area in Central Asia and the Himalayas extending into seven modern nation states, while its abundant

literature includes much of vital importance to the study of Buddhism. After surveying all the known varieties of Tibetan, including their geographical and historical background, this book concentrates on a phonological and grammatical description of the modern spoken Lhasa dialect, the standard spoken variety. The grammatical framework which has been specially devised to describe this variety is then applied to the written varieties of Preclassical and Classical Tibetan, demonstrating the fundamental unity of the language. The writing system is outlined, though all examples and texts are given in roman script and where appropriate, the International Phonetic Alphabet. The volume includes a comprehensive bibliography.

Bulletin The Mountaineers Books First published in 1834, this was the first known dictionary of Tibetan, by the founder of the field of Tibetology. Containing over 20,000 entries with English translations, it begins with a useful guide to understanding Tibetan words, and the entries themselves are arranged primarily under the

language's thirty consonants.

The liberalization of political and intellectual life in China and the rise of Tibetan exile communities throughout the world have produced a resurgence of spoken and written Tibetan. These developments, together with increasing contacts between Western scholars and Tibetans, have created a widening circle of English-speakers—in government, business, academia, and elsewhere—who need to speak or write Tibetan with precision and clarity. For these people, and for others who want to communicate with

Tibetans in their own language, Professor Goldstein's Dictionary will be an indispensable aid. The first scholarly English-Tibetan dictionary, as well as the only one that is semantically sensitive, this work specifies the Tibetan terms that correspond to the submeanings of a single English term. Containing roughly 16,000 main entries, most of which have multiple subentries, the Dictionary treats a total of 45,000 lexical items. Each entry includes both the written Tibetan orthography and a phonemic notation to indicate pronunciation. Grammatical features are also noted, and all examples of usage are presented with the romanticization of the written Tibetan and phonemic notation of the spoken forms. An introductory essay familiarizes users with the main features of Tibetan grammar.

Explore a complete history of one of Tibet's four main Buddhist schools, from its origins to the present day. Since its 1976 publication in Tibetan, Dhongthog Rinpoche's history of the Sakya school of Tibetan Buddhism has been a key reference for specialists in Tibetan studies. Now English readers can consult it as well through Sam van Schaik's authoritative, fully annotated and accessible translation. The book begins by examining the development of Buddhism in India and Tibet, setting the scene for the Khon family's establishment of the Sakya school in the eleventh century. Rinpoche subsequently provides accounts of the transmission of the Lamdre (the heart of Sakya contemplative practice and other major streams of esoteric

instruction) and the Ngor and Tshar branches of the Sakya tradition. Highlights also include surveys of great Sakya and nonsectarian masters

such as Rongtongpa, Gorampa, Jamyang Khyentse Wangpo, and Khyentse Chokyi Lodro. This traditional history, compiled both from earlier histories and from

the author's direct connection to masters of the tradition, is an enormously valuable resource for the study of Tibetan Buddhism.
