 Politics Among Nations by Hans J. Morgenthau
 Power politics is a theory in international relations, which contains the idea that distributions of power and interests, or changes to those distributions, are fundamental causes of war and of system stability. The concept of power politics provides a way of understanding systems of international relations: in this view, nations compete for the world's limited resources and it is to an individual nation's advantage to be manifestly able to harm others.

SIX PRINCIPLES OF POLITICAL REALISM

1. Political realism believes that politics, like society in general, is governed by objective laws that have their roots in human nature.

SIX PRINCIPLES OF POLITICAL REALISM

Power and politics within a business or organization are rather similar to the traditional political structures of government: authority is divided throughout the different parts of the system that power is exerted in.

1 There are often different sources of power competing for control, which isn't necessarily a bad thing until someone

decides to fight dirty. Power And Politics Within a Business Organizational ... Power as Resource Based: Power usually represents a struggle over resources. The more scarce and valued resources are, the more intense and protracted are power struggles. The scarcity hypothesis indicates that people have the most power when the resources they possess are hard to come by or are in high demand. Power (social and political) - Wikipedia Therefore politics can be viewed as the process by which to achieve and maintain a position of security, rather than a struggle for power. Realism is often synonymous with power politics which prioritises national self-interest over the interest of other nations or the international community. Is International Politics Just A Struggle For Power ...
