The Englishwoman's
Review, which published
from 1866 to 1910,
participated in and
recorded a great change
in the range of
possibilities open to

women. The ideal of the
magazine was the idea of
the emerging
emancipated middle-class
woman: economic
independence from men,
choice of occupation,
participation in the male
enterprises of commerce
and government, access
to higher education,
admittance to the male
professions, particularly
medicine, and, of course,
the power of suffrage
equal to that of men. First
published in 1984, this
thirty-fifth volume
contains issues from
1903. With an informative
introduction by Janet
Horowitz Murray and Myra
Stark, and an index
compiled by Anna Clark,
this set is an invaluable
resource to those
studying nineteenth and
early twentieth-century
feminism and the
women's movement in
Britain.

Sermons Preached in the Diocese of Durham
Routledge

This book reports on the proceeding of the 5th International Conference on Intelligent, Interactive Systems and Applications (IISA 2020), held in Shanghai, China, on September 25–27, 2020. The IISA proceedings, with the latest scientific findings, and methods for solving intriguing problems, are a reference for state-of-the-art works on intelligent and interactive systems. This book covers nine interesting and current topics on different systems' orientations, including Analytical Systems, Database Management Systems, Electronics Systems, Energy Systems, Intelligent Systems, Network Systems, Optimization Systems, and Pattern Recognition Systems and Applications. The chapters included in this book cover significant recent developments in

the field, both in terms of theoretical foundations and their practical application. An important characteristic of the works included here is the novelty of the solution approaches to the most interesting applications of intelligent and interactive systems.
