Have you ever wondered why we Christians do what we do for church every Sunday morning? Why do we "dress up" for church? Why does the pastor preach a sermon each week? Why do we have pews, steeples, and choirs? This ground-breaking book, now in affordable softcover, makes an unsettling proposal: most of what Christians do in present-day churches is rooted, not in the New Testament, but in pagan culture and rituals developed long after the death of the apostles.

Coauthors Frank Viola and George Barna support their thesis with compelling historical evidence and extensive footnotes that document the origins of modern Christian church practices. In the process, the authors uncover the problems that emerge when the church functions more like a business organization than the living organism it was created to be. As you reconsider Christ's revolutionary plan for his church—to be the head of a fully functioning body in which all believers play an active role—you'll be challenged to decide whether you can ever do church the same way again.

Why were so many religious images and objects broken and damaged in the course of the Reformation? Margaret Aston's magisterial new book charts the conflicting imperatives of destruction and rebuilding throughout the English Reformation from the desecration of images, rails and screens to bells, organs and stained glass windows. She explores the motivations of those who smashed images of the crucifixion in stained glass windows and who pulled down crosses and defaced symbols of the Trinity. She shows that destruction was part of a methodology of religious revolution designed to change people as well as places and to forge in the long term new generations of new believers. Beyond blanked walls and whited windows were beliefs and minds impregnated by new modes of religious learning. Idol-breaking with its emphasis on the treacheries of images fundamentally transformed not only Anglican ways of worship but also of seeing, hearing and remembering.

The topic of fivefold ministry—the apostle, prophet, teacher, pastor and evangelist appointed by Christ to equip His Church—was central to two movements in previous decades: The Shepherd Movement in the 1970's and the New Apostolic Reformation in the 1990's and early 2000's. While both movements saw important elements of this ministry restored to the church, they also saw misunderstanding and abuses that prevented the fivefold from becoming more widely established in doctrine and practice.

Aside from the fact that it is perhaps the single most discussed and controversial theological writing of the century, no one knowledgeable of Bultmann's work could doubt its basic importance for his entire contribution. Although the position is for which it argues was hardly new, having already taken shape in several of his theological essays written during the 1920s, it is nevertheless the classic formulation of this position and as such incomparable in the Bultmann corpus.

The Trojan Horse Of Tithing is a plea to Christian leaders, written from a Charismatic/Pentecostal perspective. Jonathan Brenneman exposes the inherent problems with common tithe teachings, highlighting serious issues with even so-called "grace tithing." He demonstrates how deception starts subtly and documents the growing acceptance in mainstream Christianity of even overt teachings of salvation by tithing. Millions of people today now believe they will never even enter heaven without their tithes. No matter how much we try to dress tithe teachings up as grace, they continue to be the root of serious problems. The arguments contained here against the modern tithe tradition are thorough, compelling, and overwhelming. The gospel is worth giving not only our money, but even our lives to promote. However, modern tithe traditions have no place in this because they are not based on truth and misrepresent the way God relates to people. Rather than helping to advance, the gospel, they distort it. God is calling his church to get rid of the leaven and return to a powerful and pure gospel message! The Trojan Horse of Tithing is one of the most comprehensive overviews of multiple arguments against tithing. Few books make such a compelling case as to why tithing is incompatible with the gospel, or deal so thoroughly with less logical but emotionally powerful objections such as "but tithing works!" We include: -What could have possibly convinced strong proponents of tithing such as Derek Prince to change their minds?-Documentation and evidence of the extent of literal "salvation by tithing" doctrine in today's churches, and demonstration that this is the logical implication of even many of the most common so-called "grace tithing" teachings.-Dozens of serious logical problems with all of the common pro-tithing arguments.-A historical study on Melchizedek and the related terms "El Elyon," "Zedek," "Salem," "Heaven," and "Earth."-11 commandments of God that churches regularly break for their tithe tradition.-9 serious problems with using Malachi as support for Christian tithing.-The history of tithing.-Contrast between the Babylonian tithe and the Jewish tithe. Which is our modern tithe tradition based on?-How the modern tithe tradition violates the statutes and the basic principles of the Jewish tithe.-What tithing and witchcraft have in common.-How tithing undermines Spirit-led giving.-How people are stepping into supernatural giving and supernatural provision without the tithe.-The historical and cultural context of ministerial support in scripture.-Why some of the world's most successful church planters see tithing as a hindrance to church multiplication.-How tithe teachings promote a poverty spirit.-A prophetic dream for the church.

Why the call to Love Thy Body? To counter a pervasive hostility toward the body and biology that drives today's headline stories: Transgenderism: Activists detach gender from biology. Kids down to kindergarten are being taught their bodies are irrelevant. Is this affirming--or does it demean the body? Homosexuality: Advocates disconnect sexuality from biological identity. Is this liberating--or does it denigrate biology? Abortion: Supporters deny the fetus is a person, though it is biologically human. Does this mean equality for women--or does it threaten the intrinsic value of all humans? Euthanasia: Those who lack certain cognitive abilities are said to be no longer persons. Is this compassionate--or does it ultimately put everyone at risk? In *Love Thy Body*, bestselling author Nancy Pearcey goes beyond politically correct slogans with a riveting exposé of the dehumanizing worldview that shapes current watershed moral issues. Pearcey then turns the tables on media boilerplate that misportrays Christianity as harsh or hateful. A former agnostic, she makes a surprising and persuasive case that Christianity is holistic, sustaining the dignity of the body and biology. Throughout she entrances readers with compassionate stories of people wrestling with hard questions in their own lives--their pain, their struggles, their triumphs. "Liberal secularist ideology rests on a mistake and Nancy Pearcey in her terrific new book puts her finger right on it. In embracing abortion, euthanasia, homosexual conduct and relationships, transgenderism, and the like, liberal secularism . . . is philosophically as well as theologically untenable."--Robert P. George, Princeton University "Wonderful guide."--Sam Allberry, author, *Is God Anti-Gay?* "A must-read."--Rosaria Butterfield, former professor, Syracuse University; author, *The Secret Thoughts of an Unlikely Convert* "An astute but accessible analysis of the intellectual roots of the most important moral ills facing us today: abortion, euthanasia, and redefining the family."--Richard Weikart, California State University, Stanislaus "Highly readable, insightful, and informative."--Mary Poplin, Claremont Graduate University; author, *Is Reality Secular?* "Unmasks the far-reaching practical consequences of mind-body dualism better than anyone I have ever seen."--Jennifer Roback Morse, founder and president, The Ruth Institute "Love Thy Body richly enhances the treasure box that is Pearcey's collective work."--Glenn T. Stanton, Focus on the Family "Essential reading . . . Love Thy Body brings clarity and understanding to the multitude of complex and confusing views in discussions about love and sexuality."--Becky Norton Dunlop, Ronald Reagan Distinguished Fellow, The Heritage Foundation "Pearcey gets straight to the issue of our day: What makes humans valuable in the first place? You must get this book. Don't just read it. Master it."--Scott Klusendorf, president, Life Training Institute

The legal and technical rules governing flows of information are out of balance, argues Julie E. Cohen in this original analysis of information law and policy. Flows of cultural and technical information are overly restricted, while flows of personal information often are not restricted at all. The author investigates the institutional forces shaping the emerging information society and the contradictions between those forces and the ways that people use information and information technologies in their everyday lives. She then proposes legal principles to ensure that people have ample room for cultural and material participation as well as greater control over the boundary conditions that govern flows of information to, from, and about them.

Invention in Rhetoric and Composition examines issues that have surrounded historical and contemporary theories and pedagogies of rhetorical invention, citing a wide array of positions on these issues in both primary rhetorical texts and secondary interpretations. It presents theoretical disagreements over the nature, purpose, and epistemology of invention and pedagogical debates over such issues as the relative importance of art, talent, imitation, and practice in teaching discourse. After a discussion of treatments of invention from the Sophists to the nineteenth century, *Invention in Rhetoric and Composition* introduces a range of early twentieth-century multidisciplinary theories and calls for invention's awakening in the field of English studies. It then showcases inventional theories and pedagogies that have emerged in the field of Rhetoric and Composition over the last four decades, including the ensuing research, critiques, and implementations of this inventional work. As a reference guide, the text offers a glossary of terms, an annotated bibliography of selected texts, and an extensive bibliography. Janice M. Lauer is Professor of English, Emerita at Purdue University, where she was the Reece McGee Distinguished Professor of English. In 1998, she received the College Composition and Communication Conference's Exemplar Award. Her publications include *Four Worlds of Writing: Inquiry and Action in Context*, *Composition Research: Empirical Designs*, and *New Perspectives on Rhetorical Invention*, as well as essays on rhetorical invention, disciplinary writing as inquiry, composition pedagogy, historical rhetoric, and empirical research.
