A teenaged girl from a small town in
Guatemala goes to California as an
exchange student.

A Workbook for Adults Routledge
Celebrates the lives of the first Africans
arriving in America, depicting their
hardships, triumphs, and contributions to
American society.

The Saigon Sisters Liveright Publishing
Forgotten California Murders 1915 to
1968 chronicles homicides that
happened so long ago they have been
forgotten even by the families of the
killers and the victims. Their crimes are
no less shocking than the murders that
have had books and films made about
them.

Content analysis is one of the most
important but complex research
methodologies in the social sciences. In
this thoroughly updated Second Edition

of *The Content Analysis Guidebook*, author Kimberly Neuendorf provides an accessible core text for upper-level undergraduates and graduate students across the social sciences. Comprising step-by-step instructions and practical advice, this text unravels the complicated aspects of content analysis. *Woodrow Wilson and the World He Made* Cornell University Press

New York Times bestselling author Laura Thompson returns with *Heiresses*, a fascinating look at the lives of heiresses throughout history and the often tragic truth beneath the gilded surface. Heiresses: surely they are among the luckiest women on earth. Are they not to be envied, with their private jets and Chanel wardrobes and endless funds? Yet all too often those gilded lives have

been beset with trauma and despair. Before the 20th century a wife's inheritance was the property of her husband, making her vulnerable to kidnap, forced marriages, even confinement in an asylum. And in modern times, heiresses fell victim to fortune-hunters who squandered their millions. *Heiresses* tells the stories of these million dollar babies: Mary Davies, who inherited London's most valuable real estate, and was bartered from the age of twelve; Consuelo Vanderbilt, the original American "Dollar Heiress", forced into a loveless marriage; Barbara Hutton, the Woolworth heiress who married seven times and died almost penniless; and Patty Hearst, heiress to a newspaper fortune who was arrested for terrorism. However, there are also

stories of independence and achievement: Angela Burdett-Coutts, who became one of the greatest philanthropists of Victorian England; Nancy Cunard, who lived off her mother's fortune and became a pioneer of the civil rights movement; and Daisy Fellowes, elegant linchpin of interwar high society and noted fashion editor. *Heiresses* is about the lives of the rich, who—as F. Scott Fitzgerald said—are 'different'. But it is also a bigger story about how all women fought their way to equality, and sometimes even found autonomy and fulfillment.

Renard the Fox Simon and Schuster
From acclaimed author Patricia Hruby Powell comes the story of a landmark civil rights case, told in spare and gorgeous verse. In 1955, in Caroline

County, Virginia, amidst segregation and prejudice, injustice and cruelty, two teenagers fell in love. Their life together broke the law, but their determination would change it. Richard and Mildred Loving were at the heart of a Supreme Court case that legalized marriage between races, and a story of the devoted couple who faced discrimination, fought it, and won.

The Lives of the Million Dollar Babies
Apollo

"On the eve of a top-secret space mission, Captain Calli Chase--a NASA pilot, quantum physicist, and cybercrime investigator-- detects a problem in the tunnels below a NASA research center. She discovers dried blood, a missing security badge, a suspicious suicide. This series of disturbing clues point to Calli's

twin sister Carme, who's been missing for days. Desperate to avoid disaster and clear her sister's name, Captain Chase races to find answers to her twin's erratic conduct. But time is running out, and she realizes that failure means catastrophe--for both the space program but for the safety of the entire nation"--

Now available in a tall Premium Edition, the novel that introduces one of suspense fiction's most compelling heroines--Dr. Kay Scarpetta--from a #1 "New York Times"-bestselling author. Reissue.

A Memoir WestBow Press

Este es un libro que contiene doce capítulos basados en la novela del escritor Ray Blaine, quien es el creador

del método Teaching Proficiency through Reading and Storytelling. (T.P.R.S.). Este libro de actividades y ejercicios se puede usar en la escuela secundaria en los niveles I y II en currículo del departamento de español. Los profesores Padmore-Rogers y Valecillos presentan una serie de actividades y ejercicios en este libro en donde se practican las cuatro destrezas básicas del idioma, tales como: comprensión, práctica oral, lectura y escritura. Con el uso de este libro los estudiantes estarán motivados para hacer los ejercicios, ya que fueron cuidadosamente diseñados con material auténtico y preparado exclusivamente para los estudiantes del siglo XXI incorporando las normas fundamentales del plan de estudios.
Farishta Quirk Books

Acclaimed author Patricia O’Toole’s “superb” (The New York Times) account of Woodrow Wilson, one of the most high-minded, consequential, and controversial US presidents. A “gripping” (USA TODAY) biography, *The Moralist* is “an essential contribution to presidential history” (Booklist, starred review). “In graceful prose and deep scholarship, Patricia O’Toole casts new light on the presidency of Woodrow Wilson” (Star Tribune, Minneapolis). *The Moralist* shows how Wilson was a progressive who enjoyed unprecedented success in leveling the economic playing field, but he was behind the times on racial equality and women’s suffrage. As a Southern boy during the Civil War, he knew the ravages of war, and as president he refused to lead the country

into World War I until he was convinced that Germany posed a direct threat to the United States. Once committed, he was an admirable commander-in-chief, yet he also presided over the harshest suppression of political dissent in American history. After the war Wilson became the world’s most ardent champion of liberal internationalism—a democratic new world order committed to peace, collective security, and free trade. With Wilson’s leadership, the governments at the Paris Peace Conference in 1919 founded the League of Nations, a federation of the world’s democracies. The creation of the League, Wilson’s last great triumph, was quickly followed by two crushing blows: a paralyzing stroke and the rejection of the treaty that would have allowed the

United States to join the League. Ultimately, Wilson's liberal internationalism was revived by Franklin D. Roosevelt and it has shaped American foreign relations—for better and worse—ever since. A cautionary tale about the perils of moral vanity and American overreach in foreign affairs, *The Moralist* “does full justice to Wilson’s complexities” (The Wall Street Journal). *Heiresses* Amer School Counseling Assn To save the Great Library, the unforgettable characters from Ink and Bone, Paper and Fire, and Ash and Quill put themselves in danger in the next thrilling adventure in the New York Times bestselling series. The opening moves of a deadly game have begun. Jess Brightwell has put himself in direct peril, with only his wits and skill to aid

him in a game of cat and mouse with the Archivist Magister of the Great Library. With the world catching fire, and words printed on paper the spark that lights rebellion, it falls to smugglers, thieves, and scholars to save a library thousands of years in the making...if they can stay alive long enough to outwit their enemies.

Optimal Healing Simon and Schuster The author recounts her difficult childhood, describes her family members, and discusses the background of her books

The Moralist AuthorHouse One couple's walk through life and Alzheimer's disease from the first "hello" on a college campus to the final "goodbye" in a small room in a nursing home. "It's a love story. It's a story about

advocacy. It's a story that shows how muchgoing the extra mile means. It will be great for caregivers." says an OT.

Dopesick MIT Press

An American diplomat is forced to confront the devastation of her past when she is assigned to remote northern Afghanistan. Twenty-one years ago, diplomat Angela Morgan witnessed the death of her husband during the bombing of the U.S. Embassy in Beirut. Devastated by her loss, she fled back to America, where she hid in the backwaters of the State Department and avoided the high-profile postings that would advance her career. Now, with that career about to dead-end and no true connections at home, she must take the one assignment available-at a remote British army outpost in northern

Afghanistan. Unwelcome among the soldiers and unaccepted by the local government and warlords, Angela has to fight to earn the respect of her colleagues, especially the enigmatic Mark Davies, a British major who is by turns her staunchest ally and her fiercest critic. Frustrated at her inability to contribute to the nation's reconstruction, Angela slips out of camp disguised in a burka to provide aid to the refugees in the war-torn region. She becomes their farishta, or "angel," in the local Dari language-and discovers a new purpose for her life, a way to finally put her grief behind her. Drawing on the experiences of the author as a diplomat in Afghanistan, *Farishta* is a deeply moving and fast-paced story of a woman struggling to move beyond a past

trauma, and finding a new community, a new love, and a new sense of self in the process.

Dealers, Doctors and the Drug Company That Addicted America Simon and Schuster

One day, high-schooler Anna receives a mail from her friend who suddenly got transferred a year ago. She hopped to the bus hoping to meet the only person who can understand her, but once Anna realizes she couldn't remember her name, the bus stop and now she is stranded in a strange city resided by nobody, except the horrific monsters that would not stop hunting for flesh..

Correctional Counseling and Rehabilitation Courier Dover Publications

Blaine personally guarantees that each of your students will eagerly tell stories in the target language by using the Student Book."

When Mountain Lions Are Neighbors
Chronicle Books

This user-friendly workbook provides adults with obsessive compulsive disorder (OCD), the tools they need to move beyond their disorder using Acceptance and Commitment Therapy

(ACT) and it also serves as compact text for clinicians/practitioners to use with clients suffering from OCD at any point in treatment. The workbook offers readers hands-on ACT and Exposure Response Prevention (ERP) skills for taming disturbing obsessions and filling the gap of where one stands and where one wants to go. Dr. Zurita provides evidence-based exercises to guide adults through the process of ACT. This includes learning to step back from one's thoughts and memories, opening up to all types of unwanted thoughts and feelings, paying attention to the physical world, observing one's thoughts and feelings, getting rid of barriers to values-based living, and developing consistent patterns of values-based behavior. Written from the office of a full-time

therapist in a simple, uncomplicated, and unpretentious manner, this workbook will be useful for all clients suffering from OCD and for the therapists who work with them. *Harness your body's untapped intelligence to achieve more, stress less and live more happily* MediBang(global) Progress in the neurosciences is profoundly changing our conception of ourselves. Contrary to time-honored intuition, the mind turns out to be a complex of brain functions. And contrary to the wishful thinking of some philosophers, there is no stemming the revolutionary impact that brain research will have on our understanding of how the mind works. Brain-Wise is the sequel to Patricia Smith Churchland's Neurophilosophy, the book that launched

a subfield. In a clear, conversational manner, this book examines old questions about the nature of the mind within the new framework of the brain sciences. What, it asks, is the neurobiological basis of consciousness, the self, and free choice? How does the brain learn about the external world and about its own introspective world? What can neurophilosophy tell us about the basis and significance of religious and moral experiences? Drawing on results from research at the neuronal, neurochemical, system, and whole-brain levels, the book gives an up-to-date perspective on the state of neurophilosophy—what we know, what we do not know, and where things may go from here.
Simon & Schuster

The highly successful four-part strategy for raising your performance at work and home so that you can thrive in a busy, challenging world, from the experts who have worked with Fortune 100 and Fortune 500 companies across the globe. Do you wish you could be more focused and productive? Would you like to ensure your most confident performance when the stakes are high and your stress levels are even higher? The way your body reacts in any given situation determines your ability to think clearly and your capacity for managing your emotions.
