London is poised on the brink of World War 11. Timid, scrawny Willie Beech -- the abused child of a single mother -- is evacuated to the English countryside. At first, he is terrified of everything, of the country sounds and sights, even of Mr. Tom, the gruff, kindly old man who has taken him in. But gradually Willie forgets the hate and despair of his past. He learns to love a world he never knew existed, a world of friendship and affection in which harsh words and daily beatings have no place. Then a telegram comes. Willie must return to his mother in London. When weeks pass by with no word from Willie, Mr. Tom sets out for London to look for the young boy he has come to love as a son.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

For decades, the approaches to and techniques of teaching and learning English have been changing in Bangladesh. New curriculum and textbooks are coming up and being used as the prime source of materials for teaching English. With an intention to find out the reasons for the pitiable condition of the students' ability to use English in communication, this book presents an analytical assessment of the NCTB published EFL textbook English Grammar and Composition for Class 9-10 which has been introduced recently at the secondary level. The analysis has been done on the basis of a self-constructed textbook evaluation scheme. The study basically assesses the possibilities and weaknesses of this EFL textbook for language skills, language components, content, and some other general criteria. In its preface, the book under assessment, attempts to clarify some intended teaching objectives, but the findings of the evaluation show that these objectives have not been perceived well in its contents.
