Going Public responds to the urgent
need to expand current thinking on what
it means to co-create and to actively
involve the public in research activities.
Drawing on conversations with over
thirty practitioners across multiple
cultures and disciplines, this book
examines the ways in which oral

historians, media producers, and theatre
artists use art, stories, and participatory
practices to engage creatively with their
publics. It offers insights into concerns
related to voice, appropriation, privilege,
and the ethics of participation, and it
reveals that the shift towards
participatory research and creative
practices requires a commitment to
asking tough questions about oneself
and the ways that people’s stories are
used.

Aboriginal Dreaming Playscripts and Masks Baltimore : Johns Hopkins University Press

'Still a loser, Pig,' Stormin says. 'Guess you haven't learnt much over summer.'
 'Oh, I don't know,' I reply, bloody, bowed and hating his guts. 'I can read.' Which is when he kicks me. I really should learn to keep my stupid mouth shut. Seeing Stormin thoroughly occupied, the rest of Year 9 drift back, although they do wait till he's left before resuming their commentary. 'Loser.' 'Coward.'
 'Hopeless.' 'Pussy.' 'Pig.' That's me: Morgan Patrick Lohdi - otherwise known

as Pig. Life sucks for Morgan Patrick Lohdi. Used as the school punching bag, he's constantly bruised and harassed, and doesn't have anything even resembling a friend. Maybe it would be okay if he could keep his mouth shut, but Morgan has a sarcastic tongue that no amount of bullying is going to keep quiet. And then there's Lissa, the girl he thought was his friend. Who might even have been something more - if the bullies hadn't made her turn her back. When the art room burns down and Morgan's one safe haven disappears, things get much worse and he's determined to finally make it stop. But will learning to fight back work? Or is it possible to turn the other cheek? Or, just maybe, will help come from the unlikeliest source? Otherwise Known as

Pig is a book about bullying, the planet-sized blind spots of teachers, and learning to accept help.

Music Theatre Works for Children Anchor Books

Gabi is a young Jewish girl living in Czechoslovakia during the time of the Holocaust. Gradually life is getting harder and harder. Jews are bullied at school, they can't visit each other at a certain time, they have to walk everywhere, they are not allowed to go to non-Jewish stores, and finally Gabi's best friend deserts her because she is Jewish. One day, the Nazis start visiting all the houses looking for Jewish children. In a tremendous act of courage, Gabi's mother protects Gabi from the soldiers by hiding her in their dining-room dresser. This is the story of author

Kathy Kacer's own mother, who was the real-life Gabi. The only thing retrieved from their family's home after the war was the dresser that saved Gabi's life. It now sits in author Kathy Kacer's home in Toronto.

The Routledge Companion to Applied Performance Media Nusa Creative (MNC Publishing)

The Methuen Drama Handbook of Theatre History and Historiography is an authoritative guide to contemporary debates and practices in this field. The book covers the key themes and methods that are current in theatre history research, with a particular focus on expanding the object of study to include engagement with theatre and performance practices and the development of theatre histories around

the world. Central to the book are eighteen specially commissioned essays by established and emerging scholars from a wide range of international contexts, whose discussion of individual case studies is predicated on their understanding and experience of their 'local' landscape of theatre history. These essays reveal where important work continues to be done in the field and, most valuably, draws on academic contexts beyond the Western academy to expand our knowledge of the exciting directions that such an approach opens up. Prefaced by an introduction tracing the development of the discipline of theatre history and changing historiographical approaches, the Handbook explores current issues pertaining to theatre and performance

history research, as well as providing up to date and robust introductions to the methods and historiographic questions being explored by researchers in the field. Featuring a series of essential research tools, including a detailed list of resources and an annotated bibliography of key texts, this is an indispensable scholarly handbook for anyone working in theatre and performance history and historiography.

Nowhere are floods more paradoxical than in the generally arid Australian continent. Floods in an Arid Continent brings together experts in meteorology, hydrology, limnology, ornithology, landscape ecology, veterinary and medical sciences, economics, anthropology and sociology to

synthesize current knowledge on floods, their occurrence, and their consequences for the environment and societies in the Australian context. Floods can have either beneficial or detrimental effects on the landscape and human societies. This book fills this important gap in our study and offers a multidisciplinary approach in understanding the effects of global climate change. The editors provide complete coverage on dynamics, patterns and consequences of floods, studied from several perspectives. Although the geographic focus of the book is Australia, the synthesis that is detailed in this book will undoubtedly be useful for the understanding of floods in all other regions of the planet. Offers detailed trends of effects on global

climatic change Provides an understanding of past and future floods in Australia Discusses disturbances on landscape Includes effects on aquatic birds, infectious diseases, and economy

New Internationalist Springer Nature

In Indigenous North American film Native Americans tell their own stories and thereby challenge a range of political and historical contradictions, including egregious misrepresentations by Hollywood. Although Indians in film have long been studied, especially as characters in Hollywood westerns, Indian film itself has received relatively little scholarly attention. In *Imagic Moments* Lee Schwenger offers a much-needed corrective, examining films in which the major inspiration, the source material, and the acting are essentially Native. Schwenger looks at a selection of mostly narrative fiction films from the United States and Canada and places them in historical and generic contexts. Exploring films such as *Powwow Highway*, *Smoke Signals*, and *Skins*, he

argues that in and of themselves these films constitute and in fact emphatically demonstrate forms of resistance and stories of survival as they talk back to Hollywood. Self-representation itself can be seen as a valid form of resistance and as an aspect of a cinema of sovereignty in which the Indigenous peoples represented are the same people who engage in the filming and who control the camera. Despite their low budgets and often nonprofessional acting, Indigenous films succeed in being all the more engaging in their own right and are indicative of the complexity, vibrancy, and survival of myriad contemporary Native cultures.

Performance provides an in-depth, far-reaching and provocative consideration of how scholars and artists negotiate the theoretical, historical and practical politics of applied performance, both in the academy and beyond. These volumes offer insights from within and beyond the sphere of English-speaking scholarship, curated by regional experts in applied performance. The reader will gain an understanding of some of the dominant preoccupations of performance in specified regions, enhanced by contextual framing. From the dis(h)arming of the human body through dance in Colombia to clowning with dementia in Australia, via challenges to violent nationalism in the Balkans, transgender performance in Pakistan and resistance rap in Kashmir,

the essays, interviews and scripts are eloquent testimony to the courage and hope of people who believe in the power of art to renew the human spirit. Students, academics, practitioners, policy-makers, cultural anthropologists and activists will benefit from the opportunities to forge new networks and develop in-depth comparative research offered by this bold, global project. The Rainbow Serpent Second Story Press Oceania has a rich and growing literary tradition. The imaginative literature that emerged in the 1960s often reflected the forms and structures of European literature, though the ideas expressed were typically anticolonial. After three decades, the literature of Oceania has become much more complex, in terms of style as well as content; and authors

write in a multiplicity of styles and voices. While the written literature of Oceania is continuously gaining more critical attention, questions about the imposition of European literary standards and values as a further extension of colonialism in the Pacific have become a central issue. This book is a detailed survey of the expanding amount of critical and interpretive material written about the imaginative literature of authors from Oceania. It focuses on commentary and scholarship concerned with the poetry, fiction, and drama written in English by indigenous peoples of the Pacific Islands, New Zealand, and Australia. The criticisms have appeared in academic books and journals since the mid-1960s. They have developed to the point at which critical

issues, related to decolonization and the expression of ideas without having to first satisfy foreign expectations, often determine the direction of such discussions. Entries are grouped in topical chapters, and each entry includes an extensive annotation. An introductory essay summarizes the evolution of Pacific literature.

"This practical text helps student teachers develop their confidence, understandings and skills so that they

can effectively and authentically teach arts in primary and middle school classrooms. Delivering Authentic Arts Education outlines the true nature of arts education and its importance in the curriculum, emphasising the arts as forms of creative activity, meaning-making and expression in a cultural context. Chapters discuss how to recognise and build on your existing artistic abilities and pedagogical skills, how to encourage children's creativity, how to lead arts appreciation experiences, and the general principles of planning and assessment. They then examine the five arts areas: dance, drama, media arts, music and visual arts. The final part of the text contains sample learning activities and resources that demonstrate how to plan an

effective lesson within a unit of inquiry. Practical tips, classroom "snapshots", starter ideas and suggestions for online resources show you the links between theory and practice so you can develop arts education experiences that are purposeful, stimulating and engaging for everyone"--Publisher's summary.

Tiddalick the Thirsty Frog A Play Based on
an Australian Aboriginal Story

Amerindian, Inuit, and Sami Theater

Bloomsbury Publishing

For generations, the aboriginal peoples
of the Arctic and Subarctic regions of
North America and Europe have
experienced disruption of their
traditional cultures by dominant,
colonizing societies. But recent years
have seen new efforts to revive and
preserve their traditional values. Some

native peoples including Alaskan and
Canadian Inuit, Canadian and American
Native Indian peoples, and the Sami, or
Lapps, of Northern Scandinavia and
Russia - have established theater groups
to tell the stories of their cultures, past
and present, to themselves and non-
natives. With play scripts, essays, and
interviews, *Aboriginal Voices* explores
the character and purpose of these
northern theater groups. The plays in
particular illustrate the unique concerns
of native peoples for both preserving
traditions and coping with contemporary
problems. "Inuit," a play from Tukak
Theater in Denmark, records and
celebrates the ancient myths of the
Greenland Inuit. "The Homecoming,"
from Alaska's Chevak Theater, uses
traditional mythology to explore the

modern Alaskan Inuit's search for self-esteem. "Gesat" concerns contemporary efforts by the indigenous Sami people of northern Scandinavia to restore their cultural identity. The volume also includes essays and interviews in which playwrights and dramaturgs associated with northern performance groups explore issues of theater anthropology and cultural change.

This is the first major collection to reimagine and analyse the role of the creative arts in building resilient and inclusive regional communities. Bringing together Australia's leading theorists in the creative industries, as well as case studies from practitioners working in the creative and performing arts and new

material from targeted research projects, the book reconceptualizes the very meaning of regionalism and the position - and potential - of creative spaces in non-metropolitan centres.
