Instant Wall Street Journal Bestseller! You don't need to be Ivy League educated, have money, be creative, or even have an idea to get rich. You just need to be willing to break the rules. At nineteen, I founded a software company with \$119 in my bank account. Five years later, it was valued at \$10.5 million. I don't consider myself exceptionally brilliant. I just realized something few people know: You don't need lots of money or an original idea to get really rich. Now, I make more than \$100,000 in passive income every month, while also running my own private equity firm and hosting The Top Entrepreneurs podcast, which has more than 10 million downloads. This book will show you how I went from college dropout to member of the New Rich. And I'm holding nothing back. You'll see my tax returns, my profit and loss statements, my email negotiations when buying and selling

companies. It's time to forget your grandfather's advice. I'll teach you how to be a modern opportunist--investor, entrepreneur, or side hustler--by breaking these four golden rules of the old guard: 1.Focus on one skill: Wrong. Don't cultivate one great skill to get ahead. In today's business world, success goes to the multitaskers. 2.Be unique: Wrong. The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist. 3.Focus on one goal: Wrong. Focus instead on creating a system to produce the outcome you want, not just once, but over and over again. 4.Appeal to the masses: Wrong. The masses are broke (\$4k average net worth in America?). Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work. By rejecting these defunct rules and following my unconventional path, you can copy other people's ideas shamelessly, bootstrap a start-up with almost no funding, invest in small local businesses for huge payoffs, and reap all the benefits.

Mastering Upwork: The Ultimate Guide To Attracting, Converting, And Keeping Excellent Clients On Upwork Author Level Up LLC

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: * Create profitable side hustles that you can turn into passive income streams or full-time businesses * Save money without giving up what makes you happy * Negotiate more out of your employer than you thought possible * Travel the world for less * Live for free--or better yet, make money on your living situation * Create a simple, money-making portfolio that only needs minor adjustments * Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

"An insider's take on how to break into the Upwork market If you are a freelancer hoping to break into the Upwork job market, this book will save you hours of browsing through free blog posts and forums. You might be thinking" why pay for this information when, with a little diligence, I can find this info all over the web? Here's why: 1. This author has managed to build a quite successful (translate: lucrative) career on Upwork, way back when it was still oDesk and Elance. She knows that ins and outs of this platform 2. She's been on both sides of the equation: hiring people herself, and pitching (and winnng!) major bids for projects and contracts 3. There are many things that you only learn after years and years of working through this platform, and she's privy to most of this knowledge. Now, you can benefit from her experience. I've known people who ask me for advice on how to get started on Upwork. These days, instead of giving them a lengthy explanation, I just email them a link to this e-book -- it has everything they need to know, and more." Chrystina and Brian, Amazon Customer "It was an AWESOME book starting a freelance career. Thanks Diana for this COOL info. Would recommend every Freelance beginner reading this book before starting and along the way. I have got a lot from this book and have started from scratch on Upwork, it does help you create your first base ground to launch a successful freelance business." Amazon Customer "What I liked the most about the book is that it motivates and inspires you. The author gives you some "homework" and you will appreciate the value of the book right at the moment you start doing the first homework!" Ilian Yankulov, Freelancer & Project Manager, working remotely for a Danish Digital Agency This book is the direct result of Diana Marinova's extensive experience as a freelance marketing consultant and the many questions she receives on a daily basis from the fellow freelancers who read her blog. What experience you ask? She has completed more than forty freelance

projects. She is a top-rated freelancer on Upwork (formerly oDesk) with 6,500+ paid hours and even more if counting the hours spent working on fixed-price jobs. Clients continuously rate her work with the maximum review rating of five-stars. Today she fully enjoys the freelance lifestyle--traveling the world while making a good living working online. Her market rates range from \$40+ per hour for hourly jobs, all the way up to \$100+ per hour when working on fixed-price projects. And she sure made a lot of mistakes early on in her freelance career--for example, she was selling herself short when working for as low as \$7 per hour during the first few months ... Don't make rookie mistakes when you can learn from hers. Download the sample of the book and see what's in it. But be warned--this book is not a silver bullet for success. You have to roll up your sleeves and work hard to achieve your goals. If you are committed to succeed, this book is everything needed to kick-start your freelance practice on Upwork (formerly oDesk). Diana tells her story while also walking you through all the steps needed to lay a solid foundation for your freelance business on Upwork. In the end of each chapter, she includes action items (a.k.a. homework assignments) to help you put all tips in practice right away. Have a look inside to see the Table of Contents and the first couple of book sections.
