victimization into entertainment ? Are they playing out old fantasies, institutionalizing their abuse? In *Hunting Girls*, Kelly Oliver examines popular culture's fixation on representing young women as predators and prey and the implication that violence—especially sexual violence—is an inevitable, perhaps even celebrated, part of a woman's maturity. In such films as *Kick-Ass* (2010), *The Girl with the Dragon Tattoo* (2011), and *Maleficent* (2014), power, control, and danger drive the story, but traditional relationships of care bind the narrative, and even the protagonist's love interest adds to her suffering. To underscore the threat of these depictions, Oliver locates their manifestation of violent sex in the growing prevalence of campus rape, the valorization of woman's lack of consent, and the new urgency to implement affirmative consent apps and policies. *When Man Listens* London, D. Appleton If you lead a student organization and you're frustrated that you and a few others do all the work, you need to motivate a specific set of overlooked members. It's the concept that will set student leaders free. Stop focusing on those who check out or

cause problems, and start focusing on those "middle third members" who hate drama, care for your organization, and prefer to play a supporting role. Directing your efforts toward the middle -- and understanding what they can contribute -- may solve your most pressing leadership challenges. Motivating the Middle offers a simple, empowering strategy for student government

officers, team captains, chapter presidents, club leaders, residence life staff, and other college students looking to make a difference on today's campuses. About the Author T.J. Sullivan is the cofounder and CEO of CAMPUSPEAK. Since 1992, T.J. Sullivan has spoken professionally to millions of college students, empowering them to take nontraditional approaches to advancing

their organizations. Visit his blog at www.tjsullivan.com.

Penis Envy and Other Bad Feelings

Routledge
This is the extended and annotated edition including * an extensive annotation of almost 10,000 words about the oracles in religion * an interactive table-of-contents * perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the

traditions and history of ancient Greece and Rome. Their fame was spread abroad long before the beginning of the Christian era. Heraclitus of Ephesus, five centuries before Christ, compared himself to the Sibyl "who, speaking with inspired mouth, without a smile, without ornament, and without perfume, penetrates through centuries by the power of the gods." The ancient

traditions vary in reporting the number and the names of these weird prophetesses, and much of what has been handed down to us is legendary. But whatever opinion one may hold respecting the various legends, there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome. There are, moreover, various oracles, purporting to have been written by

ancient Sibyls, found in the writings of Pausanias, Plutarch, Livy, and in other Greek and Latin authors. Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine; but the Roman capitol was destroyed by fire in the time of Sulla (B. C. 84), and again in the time of Vespasian (A. D. 69), and whatever books were at those dates

kept therein doubtless perished in the flames. It is said by some of the ancients that a subsequent collection of oracles was made, but, if so, there is now no certainty that any fragments of them remain.

Fully revised and expanded, this new work is the first major revision of the liturgical calendar of the Episcopal Church in

more than 40 years! It is the official revision of Lesser Feasts and Fasts and authorized by the 2009 General Convention. All commemorations in Lesser Feasts and Fasts have been retained, and many new ones added. Three scripture readings (instead of current two) are provided for all minor holy days. Additional new material includes a votive mass of the Blessed Virgin Mary,

many more ecumenical commemorations, plus a proper for space exploration. For years the oft revised volume, Lesser Feasts and Fasts (LFF), has served parishes and individuals mark part of the holiness of each day by providing Scripture readings, a collect, a Eucharistic preface, and a narrative about those remembered on the church's calendar that day whose

lives have witnessed to the grace of God. Holy Women, Holy Men (HWHM) is a major effort to revise, but also to expand and enrich LFF. Where LFF provided two readings (gospel and other New Testament) plus a psalm, HWHM adds an Old Testament citation. Where LFF was limited to few non-Anglicans in the post-reformation period (and few non-Episcopalians after 1789),

HWHM dramatically broadens appreciation for other Christians and their traditions. Over-emphasis on clergy is redressed by additional laity, males by females, and "in-church" activities by contributions well beyond the workings of institutional agendas. These almost daily commemorations occupy over 600 of the book's 785 pages, by far the lion's share of its content.

Remaining sections address: principles of revision and guides for future revision; liturgical propers for seasons (Advent/Christmas, Lent, and Easter); and new propers for a miscellany of propers usable with individuals (or events) not officially listed in the formal calendar. Two cycles of propers for daily Eucharist are also included, one covering a six week period, the other a

two year cycle. *The Works of Walter Bagehot ... Flatiron Books: An Oprah Book* The updated and expanded third edition of Tilly's widely acclaimed book brings this analytical history of social movements fully up to date. Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants' rights, new media technologies, and the role of bloggers and Facebook in social movement activities. With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring, this new edition of *Social Movements* adds more historical depth while capturing a new cycle of contention today. New to the Third Edition Expanded discussion of the Facebook revolution-and the significance of new technologies for social movements Analysis of current struggles-including the Arab Spring and pro-democracy movements in Egypt and Tunisia, Arizona's pro-and anti-immigration movements, the Tea Party, and the movement inspired by Occupy Wall

time to learn how to create your own 3D games and live wallpaper for Android. You'll find out all about shaders and the OpenGL pipeline, and discover the power of OpenGL ES 2.0, which is much more feature-rich than its predecessor. If you can program in Java and you have a creative vision that you'd like to share with the world, then this is the book for you. This book will teach you everything

you need to know to create compelling graphics on Android. You'll learn the basics of OpenGL by building a simple game of air hockey, and along the way, you'll see how to initialize OpenGL and program the graphics pipeline using shaders. Each lesson builds upon the one before it, as you add colors, shading, 3D projections, touch interaction, and more. Then, you'll

find out how to turn your idea into a live wallpaper that can run on the home screen. You'll learn about more advanced effects involving particles, lighting models, and the depth buffer. You'll understand what to look for when debugging your program, and what to watch out for when deploying to the market. OpenGL can be somewhat of a dark art to the uninitiated. As you read this

book, you'll learn each new concept from first principles. You won't just learn about a feature; you'll also understand how it works, and why it works the way it does. Everything you learn is forward-compatible with the just-released OpenGL ES 3, and you can even apply these techniques to other platforms, such as iOS or HTML5 WebGL.

 The Cold War shaped the world we live in today - its politics, economics, and military affairs. This book shows how the globalization of the Cold War during the last century created the foundations for most of the key conflicts we see today, including the War on Terror. It focuses on how the Third World policies of the two twentieth-century

superpowers - the United States and the Soviet Union - gave rise to resentments and resistance that in the end helped topple one superpower and still seriously challenge the other. Ranging from China to Indonesia, Iran, Ethiopia, Angola, Cuba, and Nicaragua, it provides a truly global perspective on the Cold War. And by exploring both the development of interventionist ideologies and

the revolutionary movements that confronted interventions, the book links the past with the present in ways that no other major work on the Cold War era has succeeded in doing.

personal account of eight of his friends and fellow SEALs who made the ultimate sacrifice. “Knowing these great men—who they were, how they lived, and what they stood for—has changed my life. We can’t let them be forgotten. We’ve mourned their deaths. Let’s celebrate their lives.”—Brand on Webb As a Navy SEAL, Brandon Webb rose to the top of the world’s most elite sniper corps,

experiencing years of punishing training and combat missions from the Persian Gulf to Afghanistan. Along the way, Webb served beside, trained, and supported men he came to know not just as fellow warriors, but as friends and, eventually, as heroes. This is his personal account of eight extraordinary SEALs who gave all for their comrades and their country with remarkable

valor and abiding humanity: Matt “Axe” Axelson, who perished on Afghanistan’s Lone Survivor mission; Chris Campbell, Heath Robinson, and JT Tumilson, who were among the casualties of Extortion 17; Glen Doherty, Webb’s best friend, killed while helping secure the successful rescue and extraction of American CIA and State Department diplomats in Benghazi; and other close friends,

classmates, and fellow warriors. These are the men who left behind powerfully instructive examples of what it means to be alive—and what it truly means to be a hero.

Mari Ruti combines theoretical reflection, cultural critique,

feminist politics, and personal experience to analyze the prevalence of bad feelings in contemporary everyday life. Proceeding from a playful engagement with Freud's idea of penis envy, Ruti's autotheoretical commentary fans out to a broader consideration of neoliberal pragmatism. She focuses on the emphasis on good performance, high productivity, constant self-improvement, and relentless

cheerfulness that characterizes present-day Western society. Revealing the treacherousness of our fantasies of the good life, particularly the idea that our efforts will eventually be rewarded—that things will eventually get better—Ruti demystifies the false hope that often causes us to tolerate an unbearable present. Theoretically rigorous and lucidly written, *Penis Envy and Other Bad Feelings* is a

trenchant critique of contemporary gender relations. Refuting the idea that we live in a postfeminist world where gender inequalities have been transcended, Ruti describes how neoliberal heteropatriarchy has transformed itself in subtle and stealthy, and therefore all the more insidious, ways. Mobilizing Michel

Foucault's concept of biopolitics, Jacques Lacan's account of desire, and Lauren Berlant's notion of cruel optimism, she analyzes the rationalization of intimacy, the persistence of gender stereotypes, and the pornification of heterosexual culture. Ruti shines a spotlight on the

depression, anxiety, frustration, and disenchantment that frequently lie beneath our society's sugarcoated mythologies of self-fulfillment, romantic satisfaction, and professional success, speaking to all who are concerned about the emotional costs of the pressure-cooker ethos of our age.
