Automotive Repair Manual  
This beautifully designed and illustrated  
essential guide to car design from  
Motorbooks' Speed Read series traces the  
inspirations of the first car designers and  
tracks the craft, the art, and the science  
that have propelled successive  
generations of designers and shaped the  
contours of the vehicles we see all around  
us. Never before has the car-buying public

been more aware of how a car's design fits  
into their everyday lives and what it  
communicates about the driver behind the  
wheel. Like all design, car design is  
complex subject. Every part of a car  
represents myriad decisions by the design  
team ruled by engineering, aesthetics,  
human interface, and emotion. Speed  
Read Car Design helps the you understand  
the hows and whys of that design process,  
offering an engaging review of history,  
theory, key concepts, and key designers.  
It's a book for car enthusiasts, design fans,  
and anyone with a desire to better  
understand why our wheeled world looks

the way it does. In sections divided by  
topic, you'll explore the birth of car design,  
how it evolved over the last century,  
successes and failures in innovation, the  
elements that make up a car's style, the  
engineering behind the design, the  
creative process and design fads, and  
finally the road ahead in car design. Each  
section ends with a glossary of related  
terms, and informational sidebars provide  
fun facts, historical tidbits, and mini-bios  
of key people in car design. Sleek  
illustrations of the cars give clear design  
examples throughout. With Motorbooks'  
Speed Read series, become an instant

expert in a range of fast-moving subjects, from Formula 1 racing to the Tour de France. Accessible language, compartmentalized sections, fact-filled sidebars, glossaries of key terms, and event timelines deliver quick access to insider knowledge. Their brightly colored covers, modern design, pop art-inspired illustrations, and handy size make them perfect on-the-go reads.

In his latest book, the prolific writer and thinker Alphonso Lingis brings interdisciplinarity and lyrical philosophizing to the weight of reality, the weight of things, and the weight of life itself. Drawing from philosophy, anthropology, psychology, religion, and science, Lingis seeks to uncover what in our reality escapes our attempts at measuring and categorizing. Writing as much from his own experiences and those of others as from his longstanding engagement with phenomenology and existentialism, *Irrevocable* studies the world in which shadows, reflections, halos,

and reverberations count as much as the carpentry of things. Whether describing religious art and ritual, suffering, war and disease, the pleasures of love, the wonders of nature, archaeological findings, surfing, volcanoes, or jellyfish, Lingis writes with equal measures of rigor and abandon about the vicissitudes of our practices and beliefs. Knowing that birth, the essential encounters in our lives, crippling diseases and accidents, and even death are all determined by chance, how do we recognize and understand such chance? After facing tragedies, what makes it possible to live on while recognizing our irrevocable losses? Lingis's investigations are accompanied by his own vivid photographs from around the world. Balancing the local and the global, and ranging across vast expanses of culture and time, *Irrevocable* sounds the depths of both our passions and our impassioned bodies and minds.
