Motilal Nehru and Jawaharlal Nehru are both prominent Indian men in their own right. Motilal is known as a widely successful civil lawyer and a popular political figure, while Jawaharlal made his mark as a firm nationalist leader and possible heir of the Mahatma. This book serves as a discussion of Motilal's life and achievements, and looks into the first four decades of

Jawaharlal's life. It shows that while the father-son tandem played different roles in the nationalist struggle of India, their close emotional bonds helped them influence each other. Their story can be combined with that of the Indian freedom movement. The book covers a number of important events in the lives of the Nehrus—from Motilal's childhood in

Agra, Jawaharlal's acceptance into Trinity College, and Jawaharlal's entry into the political arena, to the father-son conflict over the changing political atmosphere in India. This book also takes a look at several notable individuals who play important roles in Motilal and Jawaharlal's lives. These include Annie Besant, the leader of the Home Rule movement, and Mahatma

Gandhi, the fierce fighter for India's independence. *Select Your Remedy* Xlibris Corporation HOMOEOPATHIC ORGANON & PHILOSOPHY NOTES FOR AIAPGET CCRH UPSC STATE PSC NHM NRHM VARIOUS HOMEOPATHIC COMPETITIVE EXAMINATION Concise & to the point, Colorful graphics & crammer notes, High yielding topics are covered by Author 80+ COPIES SOLD

Jain Publishers	The Wrestler's Body tells the story of a way of life organized in terms of physical self- development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's

identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-

hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national

character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.
