From Stephen R. Covey's eldest son come a revolutionary book that will guide business leaders, public figures and their organizations towards unprecedented productivity and satisfaction. Trust, says Stephen M. R. Covey, is the very basis of the 21st century's global economy, but its power is generally overlooked and misunderstood. Covey shows you how to inspire immediate trust in everyone you encounter - colleagues, constituents, the marketplace - allowing you to forego the time-killing and energy-draining check and balance bureaucracies that are so often relied upon in lieu of actual trust.

Summary of The 4 Disciplines of Execution Who is this summary for? The 4 Disciplines of Execution by Chris McChesney is an excellent guide to removing the distractions of the day-to-day tasks in your day job and being able to focus on 'Wildly Important Goals' and execute these excellently.

McChesney produces a straightforward and actionable step-by-step guide that could transform the way you and your team work. Great for anyone looking for a little bit of guidance in the workplace and particularly useful for anyone in a leadership position. Chris McChesney began his career working with Stephen R. Covey within the Franklin Covey organisation. McChesney has dedicated his work to helping organisations achieve the results they are after by improving their execution. His book, The 4 Disciplines of Execution has been hugely successful and was a Wall Street Journal #1 National Best Seller. McChesney has become well known for his high-energy keynote speeches and presentations. McChesney lives with his wife and has seven children. As the title suggests, McChesney outlines what he considers to be the 4 most important disciplines for executing tasks and hitting goals. This summary will cover each of the 4 disciplines and discuss how they can be enacted. The first discipline we will cover is focusing on the wildly important. Discipline two covers acting on the lead measures followed by discipline three: keeping a compelling scoreboard. Finally, we'll cover discipline four: creating a cadence of accountability. "The real enemy of execution is your day job! We call it the whirlwind. It's the massive amount of energy that's necessary just to keep your operation going on a day-to-day basis; and ironically, it's also the thing that makes it so hard to execute anything new. The whirlwind robs from you the focus required to move your team forward." Chris McChesney, Sean Covey, and Jim Huling, authors of The 4 Disciplines of Execution, are definitely on to something when they pinpoint "the whirlwind" as the main detractor of execution success. And they spend the entirety of their excellent book detailing just how to avoid the trap of the daily grind. Achieving your "wildly important goals" through mindful execution is key. Their combined business experience is impressive. All leaders at Franklin Covey with decades of business know-how, these guys "completed more than fifteen hundred implementations of the 4 Disciplines (4DX) before they were ready to write this book" and they have

created a set of tools that can be useful for a single person, small business, or large international company. It doesn't hurt that "4 Disciplines" is a #1 business bestseller recommended by The Wall Street Journal. Or, that the book leads with pages of endorsements by the likes of author Stephen R. Covey, and CEOs of companies like Kroger, Wegmans, and the Campbell Soup Company, and even Nobel Peace Prize Winner, Mohammed Yunus. This is an impressive book, years in the making. What I particularly liked about this book is that it is about taking action on your strategic goals, not developing more theory. There are four clear roadmaps to help you overcome the "whirlwind" of the day-to-day work that keeps leaders, and teams, from executing the programs that drive real change. The Four Disciplines are: Focus on the Wildly Important. Act on the Lead Measures. Keep a Compelling Scoreboard. Create a Cadence of Accountability. So, how do you begin to create the mindset that will help you take action on the four? Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc. A gripping tale that reveals what occupies the minds of the world's best business leaders As CEO, most everything that Rich O'Connor did had something to do with at least one of the four disciplines on his famed "yellow sheet." Some of the firm's executives joked that he was obsessed with it. Interestingly, only a handful of people knew what was on that sheet, and so it remained something of a mystery. Which was okay with Rich, because no one really needed to understand it, other than him. He certainly never suspected that it would become the blueprint of an employee's plan to destroy the firm. In this stunning follow-up to his best-selling book, *The Five Temptations of a CEO*, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization - an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as Rich O'Connor, fictional CEO of technology consulting company Telegraph Partners, faces a leadership challenge so great that it threatens to topple his company, his career and everything he holds true about what makes a leader truly exceptional. In the story's telling, Lencioni deftly helps his readers understand the disarming simplicity and power of creating a healthy organization and reveals four key disciplines that they can follow to achieve it. In *The Four Obsessions of an Extraordinary Executive*, Lencioni delivers an utterly gripping tale with a powerful and memorable message for all who strive to be remarkable leaders.

Summary of The 4 Disciplines of Execution by Chris McChesney, Sean Covey, and Jim Huling | Includes Analysis Preview: The 4 Disciplines of Execution is a guide for businesses to reliably commit to the goals and plans they set, authored by associates from FranklinCovey, a management consultancy. Rather than focusing on what a business must accomplish to be successful, the four disciplines establish how to accomplish those things. One reason commitments tend to be abandoned in business is that new projects and goals are less urgent than the day-to-day tasks of each individual employee, which the authors call the "whirlwind." The key to commitment fulfillment is for new tasks to take up only a small portion of each employee's time, but for that employee to be held accountable for completing them. The first discipline is to settle on one or two wildly important goals (WIGs). These are the things that would have the most significant impact on progress toward the business's long-term goals. In the second discipline, the WIG... PLEASE NOTE: This is key takeaways and analysis of the book and NOT the original book. From the author of the wildly popular bestseller *The 7 Habits of Highly Effective Teens* comes the go-to guide that helps teens cope with major challenges they face in their lives—now updated for today's social media age. In this newly revised edition, Sean Covey helps teens figure out how to approach the six major challenges they face: gaining self-esteem, dealing with their parents, making friends, being wise about sex, coping with substances, and succeeding at school and planning a career. Covey understands the pain and confusion that teens and their parents experience in the face of these weighty, life-changing, and common difficulties. He shows readers how to use the 7 Habits to cope with, manage, and ultimately conquer each challenge—and become happier and more productive. Now updated for the digital and social media age, Covey covers how technology affects these six decisions, keeping the information and advice relevant to today's teenagers.

SUMMARY: The 4 Disciplines of Execution: Achieving Your Wildly Important Goals by: Chris McChesney, Sean Covey, Jim Huling | The MW Summary Guide Simon and Schuster

The Four Disciplines of Execution is about a simple, proven formula for reaching the goals you want to reach as a business or individual. In Covey's

experience, the thing that most undermines the ability to execute goals is what he calls the Whirlwind: those urgent tasks that must be done simply to keep an organization alive. As Covey shows, the only way to execute new, important goals is to separate those goals from the Whirlwind. The Four Disciplines allow leaders to create a strategy that requires a change in behaviour, since only by ensuring that everyone on the team understands the goal, knows what to do to reach it and knows whether progress is being made, will a leader produce consistent breakthrough results while sustaining the urgent work of the Whirlwind. The Four Disciplines of Execution are: 1. Focus on the Wildly Important; 2. Act on the Lead Measures; 3. Keep a Compelling Scoreboard; 4. Create a Cadence of Accountability. For more than a decade FranklinCovey has been studying what it takes to achieve important goals, and in this book they share success stories from a wide range of companies that have implemented the Four Disciplines to result in greater profits, increased market share and improved customer satisfaction. This way of thinking is essential to any company that wants to not only weather, but thrive in this economy.

An adaptation of the business classic *Getting Things Done* for teenage readers The most interconnected generation in history is navigating unimaginable amounts of social pressure, both in personal and online interactions. Very little time, focus, or education is being spent teaching and coaching this generation how to navigate this unprecedented amount of "stuff" entering their lives each day. How do we help the overloaded and distracted next generation deal with increasing complexity and help them not only survive, but thrive? How do we help them experience stress-free productivity and gain momentum and confidence? How do we help them achieve autonomy, so that they can confidently take on whatever comes their way? *Getting Things Done for Teens* will train the next generation to overcome these obstacles and flourish by coaching them to use the internationally renowned *Getting Things Done* methodology. In its two editions, David Allen's classic has been translated into dozens of languages and sold over a million copies, establishing itself as one of the most influential business books of its era, and the ultimate book on personal organization. *Getting Things Done for Teens* will adapt its lessons by offering a fresh take on the GTD methodology, framing life as a game to play and GTD as the game pieces and strategies to play your most effective game. It presents GTD in a highly visual way and frames the methodology as not only as a system for being productive in school, but as a set of tools for everyday life. *Getting Things Done for Teens* is the how-to manual for the next generation—a strategic guidebook for creating the conditions for a fruitful and effective future.

There is a competitive advantage out there, arguably more powerful than any other. Is it superior strategy? Faster innovation? Smarter employees? No, New York Times best-selling author, Patrick Lencioni, argues that the seminal difference between successful companies and mediocre ones has little to do with what they know and how smart they are and more to do with how healthy they are. In this book, Lencioni brings together his vast experience and many of the themes cultivated in his other best-selling books and delivers a first: a cohesive and comprehensive exploration of the unique advantage organizational health provides. Simply put, an organization is healthy when it is whole, consistent and complete, when its management, operations and culture are unified. Healthy organizations outperform their counterparts, are free of politics and confusion and provide an environment where star performers never want to leave. Lencioni's first non-fiction book provides leaders with a groundbreaking, approachable model for achieving organizational health—complete with stories, tips and anecdotes from his experiences consulting to some of the nation's leading organizations. In this age of informational ubiquity and nano-second change, it is no longer enough to build a competitive advantage based on intelligence alone. *The Advantage* provides a foundational construct for conducting business in a new way—one that maximizes human potential and aligns the organization around a common set of principles.

After writing a successful memoir, Donald Miller's life stalled. During what should have been the height of his success, he found himself unwilling to get out of bed, avoiding responsibility, even questioning the meaning of life. But when two movie producers proposed turning his memoir into a movie, he found himself launched into a new story filled with risk, possibility, beauty, and meaning. *A Million Miles in a Thousand Years* chronicles Miller's rare opportunity to edit his life into a great story, to reinvent himself so nobody shrugs their shoulders when the credits roll. Through heart-wrenching honesty and hilarious self-inspection, Donald Miller takes readers through the life that emerges when it turns from boring reality into meaningful narrative. Miller goes from sleeping all day to riding his bike across America, from living in romantic daydreams to fearful encounters with love, from wasting his money to founding a nonprofit with a passionate cause. Guided by a host of outlandish but very real characters, Miller shows us how to get a second chance at life the first time around. *A Million Miles in a Thousand Years* is a rare celebration of the beauty of life.

Impact Mapping Page Two

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
