Certified Routing Engineer (MTCRE) Training outline. Duration: 2 days. Outcomes: By the end of this training session, the student will be able to plan, implement and debug routed MikroTik RouterOS network configurations. Target audience: Network engineers and technicians wanting to deploy and support static and/or dynamic routed networks. Certified Routing Engineer

(MTCRE) - MikroTik MikroTik Certified Routing Engineer The training session is organized to prepare you for static routing, PtP addressing, VPN and OSPF protocols and how they work. MikroTik Certified Routing Engineer - MikroTik Training COURSE DESCRIPTION FOR MTCRE EXAM. MikroTik Certified Routing Engineer is an advanced certification that covers different aspects of routing, relevant to larger networks and ISPs, with focus on OSPF with single and multiple areas, Policy Routing, and advance use of static routing. MTCRE Exam also covers the configuration of multi-homed devices, for Load Balancing and Failover. MTCRE Exam - Get ready to be MikroTik Certified Routing ... MTCRE Exam - Get ready to be MikroTik Certified Routing ...

MikroTik Certified Routing Engineer. MTCRE adalah training dan sertifikasi tingkat engineer untuk para teknisi jaringan yang ingin mahir dalam perancangan dan implementasi jaringan, khususnya routing dan switching, dalam lingkup jaringan internal (interior) enterprise. Dalam jenjang training MTCNA, para peserta telah mendapatkan pengetahuan tentang fitur routing di MikroTik, yang akan dibahas lebih mendalam dan mendetail pada training MTCRE.
