A Hood Rat Novel Abrams

Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the

prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will

this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on

his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet:

when does intelligence transcend to become consciousness ?

The 50 most mind-blowing ideas in neuroscience, each explained in half a minute
 Heinemann Educational Publishers
 The End of Chiraq: A Literary Mixtape is a collection of poems, rap lyrics, short stories, essays, interviews, and artwork about Chicago, the city that came to be known as "Chiraq" ("Chicago" + "Iraq"), and the people who live in its vibrant and occasionally

violent neighborhood s. Tuned to the work of Chicago's youth, especially the emerging artists and activists surrounding Young Chicago Authors, this literary mixtape unpacks the meanings of "Chiraq" as both a vexed term and a space of possibility. "Chiraq" has come to connote the violence—inte rpersonal and structural—th at many Chicago youth regularly

experience. But the contributors to The End of Chiraq show that Chicago is much more than Chiraq. Instead, they demonstrate how young people are thinking and mobilizing, engaged in a process of creating a new and safer world for themselves, their communities, and their city. In true mixtape fashion, the book is an exercise in "low end theory" that does not just include so-

called underground and marginal voices, but foregrounds them. Edited by award-winning poets, writers, and teachers Javon Johnson and Kevin Coval, *The End of Chiraq* addresses head-on the troublesome relationship between Chicago and Chiraq and envisions a future in which both might be transformed. A sober hedonist's guide to living a decadent, wild, and soulful life-- alcohol-free. In a culture where sipping "rosé all day" is seen as the epitome of relaxation, "grabbing a drink" the only way to network; and meeting at a bar the

quintessential "first date," many of us are left wondering if drinking alcohol really is the only way to cultivate joy and connection in life. Jardine Libaire and Amanda Eyre Ward wanted to live spontaneous and luxurious lives, to escape the ordinary and enjoy the intoxicating. Their drinking, however, had started to numb them to the present moment instead of unlocking it.

Ward was introduced to Libaire when she first got sober. As they became friends, the two women talked about how they yearned to create lives that were Technicolor, beautifully raw, connected, blissed out, and outside the lines . . . but how? In *The Sober Lush*, Libaire and Ward provide a road map for living a lush and sensual life without booze. This book offers ideas and

instruction for such nonalcoholic joys as: • The allure of "the Vanish," in which one disappears early from the party without saying goodbye to a soul, to amble home under the stars • The art of creating zero-proof cocktails for all seasons • Having a fantastic first date while completely sober • A primer on setting up your own backyard beehive, and honey tastings For anyone curious about

lowering their alcohol consumption or quitting drinking altogether, or anyone established in sobriety who wants inspiration, this shimmering and sumptuous book will show you how to keep indulging in life even if you stop indulging in alcohol.

A plethora of bioinformatics tools are available for exploiting the rapidly growing genomic, proteomic and structural data and the related databases. However, many researchers are unaware of these tools because they were published in a journal of narrow distribution or because they were described in technical language unfamiliar to the life

scientist. In this book, leading bioinformaticists critically review the latest developments in their fields of expertise. Each chapter provides a clear explanation of the use, purpose and future potential of the tools for a given application.
