On the tenth day of the month of Muharram, fifty years after the passing of the Holy Prophet Muhammad (s), Imam Hussain (a) and a small number of family members and companions were slaughtered at the hands of the Umayyad government. They made their stance on the land of Karbala with determination and resolve. They did not waiver in the face of an army of thousands. They made that stance in the hope that their memory will bring life to a Muslim nation which was spiraling fast down the road of deviance. More than thirteen centuries have passed since. Yet every year, Muslims around the world continue to commemorate

the tragedy and remember Imam Hussain's (a) great sacrifice. Devotees from around the globe flock to his grave in Karbala to visit and supplicate. They remember the events of that bloody massacre and the valor of Imam Hussain (a) and his companions. They recite verse and prose in commemoration of that stance. Because of the great importance of the tragedy and the passion that it infused into the Muslim nation, Umayyad authorities did all they could to erase its memory. They forbade the mentioning of Imam Hussain (a), persecuted anyone who professed love to the Holy Prophet's (s) household, and spread false ideologies that absolved them of any culpability. Despite all this, Imam Hussain's (a) stance was engraved into the conscience of the Muslim nation. As Lady Zaynab proclaimed in the court of Yazid, "By God, you will never erase our remembrance or kill our inspiration."

"Allah is the Guardian of the believers. He takes them out of darkness into light." - Surah al-Baqarah, 2:257 Ashura ... Ashura today is remembered for great many reasons; it has also been used to serve and assert the narrative of great many people - each to their own, each to achieve for distinct goals. But what is Ashura if not a universal call for Liberation from the shackles of Falsehood? What is Ashura if not a grand declaration of allegiance to God, the Master of all world? Whether Muslims care to remember Ashura through the martyrdom of Imam Hussain, the grandson of the last prophet of God, son of Ali and Lady Fatema, or for Moses' victory over Pharaoh matters very little for Ashura has always spoken of the Word enacted through the righteous deeds of men of God. Allow me now to speak to you of my Ashura, the mourning and grief I share with that of my kin. For all the reverence I hold towards Moses and those who follow in his journey out of Egypt, Ashura for me will forever echo of Imam Hussain, martyrs among all martyrs, son to the Holy House of the Prophet, God's righteous commander, the one soul which darkness could never touch, not even for a fleeting moment. Songs and poems have risen in his name across ages of men, it is Hussain ibn Ali generations' of men and women have called out in eternal sorrow, for none could bear the manner in which he was stolen from us.

**The Martyr of Karbala** Tahrike Tarsile Quran  
 Commemorating the Battle of Karbala, in which the Prophet Mohammad's grandson Hosayn and seventy-two of his family members and supporters were martyred in 680 CE, is the central religious observance of Shi'i Islam. Though much has been written about the rituals that reenact and venerate Karbala, until

now no one has studied women's participation in these observances. This collection of original essays by a multidisciplinary team of scholars analyzes the diverse roles that women have played in the Karbala rituals, as well as the varied ways in which gender-coded symbols have been used within religious and political discourses. The contributors to this volume consider women as participants in and observers of the Karbala rituals in Iran, Iraq, Lebanon, India, Pakistan, and the United States. They find that women's experiences in the Shi'i rituals vary considerably from one community to another, based on regional customs, personal preferences, religious interpretations, popular culture, and socioeconomic background. The authors also examine the gender symbolism within the rituals, showing how it reinforces distinctions between the genders while it also highlights the centrality of women to the symbolic repertory of Shi'ism. Overall, the authors conclude that while Shi'i rituals and symbols have in some ways been used to restrict women's social roles, in other ways they have served to provide women with a sense of independence and empowerment.

Less than 50 years after the death of Islam's last prophet, Muhammad, an epic battle forever altered the course of Islam. In autumn 2001, U.S. and NATO troops were deployed to Afghanistan to unseat the Taliban rulers, repressive Islamic fundamentalists who had lent active support to Osama bin Laden's Al-Qaeda jihadists. The NATO forces defeated and dismantled the Taliban government, scattering its remnants across the country. But despite a more than decade-long attempt to eradicate them, the Taliban endured—regrouping and reestablishing themselves as a significant insurgent movement. Gradually they have regained control of large portions of Afghanistan even as U.S. troops are preparing to depart from the region. In his authoritative and highly readable account, author Hassan Abbas examines how the Taliban not only survived but adapted to their situation in order to regain power and political advantage. Abbas traces the roots of religious extremism in the area and analyzes the Taliban's support base within Pakistan's Federally Administered Tribal Areas. In addition, he explores the roles that Western policies and military decision making—not to mention corruption and incompetence in Kabul—have played in

enabling the Taliban's return to power.

Who is Hussain son of Ali? Why do we need to know about him? Why is it important to know about the Battle of Karbala? Why is it important to know about it today? These are just a few of the questions that this short booklet intends to answer. It shows how Hussain is a significant historical figure not only for Muslims but for all people because he took a stand for truth, justice, and human dignity. This slim volume should be a welcome addition to the libraries of both Muslims and non-Muslims. It sheds light on the horrific events we see playing out in the world today as a consequence of events that took place in the vaults of Islamic history from the time of its formative early years in the Arabian peninsula.
