[God and the Nations](#) Wiley

Despite living in a very connected world today, few of us have any real understanding of the history of nations. Secular scholars and scientists from various fields rarely consult the Bible's rich history on the subject. Yet if we consider what the Bible has to say about the global community's past—and future—achievements and mistakes, we discover a saga as fascinating as anything produced in Hollywood. In *God & the Nations*, Dr. Henry Morris does an unusual thing: he shows clearly that God is even more interested in the fate of each person as He is about the unfolding of national stories. Additionally, he delves into the mysterious world of Bible prophecy to proclaim the God of the Bible as truly unique. Morris, through this study of civilizations, reveals the origins and purpose for the whole world!

"Here's a delightful little book to warm the hearts of young children and teach them how to experience the joy of giving and receiving. Just think of all the little buckets this book will fill with love and encouragement." —Dr. Kevin Leman, author of *Have a New Kid by Friday* The day you were

born was a very happy day. You are a special gift. Everyone was so happy to see you. But, there was one part of you that they could not see. It was your bucket, your invisible bucket. While using a simple metaphor of a bucket full of hearts and stars, authors Carol McCloud and Katherine Martin, M.A. illustrate, in the sweetest of ways, that we are all born with an invisible bucket and that our bucket holds all of our good thoughts and feelings. This book highlights the many ways that families and caregivers use to fill the buckets of children but also gives young children simple ideas on how to BE a bucket filler as well. This 24-page picture book is perfect for children, parents, grandparents, teachers and people that want to teach empathy, nurture kindness and create a positive environment in their home, classroom, workplace and community. Winner of 4 awards. For more information on bucket filling or free downloadables and resources, please visit [bucketfillers101.com](http://bucketfillers101.com). Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

The New York Times Bestseller and A Reese's Book Club Pick “This love story between Lucy & Gabe spans decades and continents as two star-crossed lovers try to return to each other...Will they ever meet again? This book kept me up at night, turning the pages to find out, and the ending did not disappoint.”—Reese Witherspoon “One Day meets Me Before You meets your weekender bag.”—The Skimm “Extraordinary.”—Emily Giffin He was the first person to inspire her, to move her, to truly understand her. Was he meant to be the last? Lucy is faced with a life-altering choice. But before she can make her decision, she must start her story—their story—at the very beginning. Lucy and Gabe meet as seniors at Columbia University on a day that changes both of their lives forever. Together, they decide they want their lives to mean something, to matter. When they meet again a year later, it seems fated—perhaps they'll find life's meaning in each other. But then Gabe becomes a photojournalist assigned to the Middle East and Lucy pursues a career in New York. What follows is a thirteen-year journey of dreams, desires, jealousies, betrayals, and, ultimately, of love. Was it fate that brought them together? Is it choice that has kept them away? Their journey takes Lucy and Gabe continents apart, but never out of each other's hearts. Every moment matters. Each of us has an invisible bucket. When our bucket is full, we feel great. When it's empty, we feel awful. Yet most children (and many adults) don't realize the importance of having a full bucket throughout the day. In *How Full Is Your Bucket? For Kids*, Felix begins to see how every interaction in a day either fills or empties his bucket. Felix then realizes that everything he says or does to other people fills or empties their buckets as well. Follow along with Felix as he learns how easy it can be to fill the buckets of his classmates, teachers and family members. Before the day is over, you'll see how Felix learns to be a great bucket filler, and in the process, discovers that filling someone else's bucket also fills his own.

Praise for BILLIONS OF DROPS in MILLIONS OF BUCKETS "Billions of Drops in Millions of Buckets provides a bracing and original look at philanthropy that offers a much-needed corrective to conventional wisdom. Steve Goldberg combines a resolve to understand why so much philanthropy accomplishes so little enduring social change with a timely and serious proposal to reinvigorate nonprofit capital markets through the simplest of insights: getting more of the money to where it can do the most good. This book will change how forward-looking philanthropists, foundations, and policymakers think about the relationship between charitable giving and the transformative capacity of social entrepreneurs." —Jerr Boschee, founder and Executive Director, The Institute for Social Entrepreneurs; Visiting Professor of the Practice in Social Enterprise, Carnegie Mellon University "Goldberg's arguments are logical next steps in the rapidly evolving discussion of social capital markets. He offers ambitious proposals informed by the reality of current practices and focused on an achievable set of goals. He fully recognizes the potential for restructuring that is inherent in this time of financial hardship. Real change relies on big ideas, and Steve Goldberg offers us several."

—Lucy Bernholz, author of *Creating Philanthropic Capital Markets: The Deliberate Evolution* "When I first heard about 'evidence-based medicine,' I thought: 'you mean it isn't?' Read this book and that's how you'll feel about 'performance-based philanthropy.' Goldberg takes some of the best current management thinking and applies it to social enterprise, illuminating both the encouraging successes of social entrepreneurs and the barriers they face. Even better, he presents compelling ideas for making the social sector vastly more effective." —Christopher Meyer, Chief Executive, Monitor Networks "Goldberg calls for more 'performance-driven philanthropy,' where nonprofits are rewarded based on their results, in place of the current dysfunction. It is an important call and a valuable contribution to discussions about how to improve nonprofits in the U.S. and internationally." —Martin Brookes, Chief Executive, New Philanthropy Capital "Billions of Drops... is a must-read romp through emerging fields of social entrepreneurship and nonprofit capital markets." —George Overholser, founder and Managing Director, NFF Capital Partners
