For years, south Dallas has been ruled by a corrupt caste of politicians who espouse populist rhetoric. Growing fat and rich while their constituents wallow in crime and poverty. Jebediah Shaw never wanted to make the city his home. It had never been more than a place to rest between wars. And now, working in that dark area between government and private business, he's given an impossible task. To keep a man alive that everyone, including himself, has a reason to want dead while choosing sides in a Civil War no one even knows is happening. At the beginning of the end of the American empire, at the edge of what was and what will be, he knows in the end all a man has, all he has any control over, is his word and his work. He will do whatever it takes to complete his mission. Dallas, may never be the same.

"A rich, sensual, bewitching adventure of good vs. evil with love as the prize." ~Publisher's Weekly on ETERNITY 300 years ago, Raven St. James was hanged for witchcraft. But she revives among the dead to find herself alive. She is an Immortal High Witch, one of the light. A note from her mother warns that there are others, those of the Dark, who preserve their own lives by taking the hearts of those like her. Duncan Wallace's forbidden love for the secretive lass costs him his life. 300 years later, he loves her again, tormented by hazy memories of a past that can't be real. She tells him of another lifetime, claims to be immortal. Though he knows she's deluded, he can't stay away. And the Dark Witch after her heart is far closer than either of them know. If you liked the TV Series HIGHLANDER, you will LOVE this series. Don't miss Book 2, INFINITY. "A hauntingly beautiful story of a love that endures through time itself." ~New York Times Bestselling Author, Kay Hooper "This captivating story of a love that reaches across the centuries, becomes as immortal as the lover's themselves, resonates with timeless passion, powerful magic, and haunting heartbreak." ~BN.com's official review *Edge of the City* Createspace Independent Publishing Platform Decker Lawrence just opened The Monarch, the crown jewel in his chain of successful nightclubs. Surrounded every day by beautiful women, he's never been tempted to sample the goods. That is

until she stumbles in. With a quirky innocence and curves-for-days, May is about to change this virgin's life forever. May Morgan has riches beyond most people's wildest dreams, but after her parent's death, none of it will ever be hers. Bound to her upcoming arranged marriage, May dreams of escape. Her crazy idea to slip away and earn money by dancing at a hot nightclub seems like the perfect solution. Except, when the handsome club owner catches sight of her, he offers her far more than just a job. Decker has waited his whole life for his first time, but he knows what he wants and he doesn't hesitate to stake his claim. When he discovers what waits for May back at home, Decker sees red. Is one man strong enough to fight the evil forces determined to tear them apart? Will these May to December virgins ever get their fairy tale first time? Authors Note: The Forever Collection is all virgins, love-at-first-sight, indulgent fantasy. Each book a standalone. It's fall hard, fall fast and get right to the sticky bits. If you want to lose yourself for a while with a happily ever after, no cheating and all wrapped up with an obsessed, alpha hero who will stop at nothing to make babies with his woman, then step inside, it's steamy.

Caution: this book is a document from the future, on how the United States finally split into two independent republics in 2029, and its aftermath. The topic is so sensitive, that its futuristic author must be identified merely as John Doe, Ph.D. Dateline: 2029. The "One Nation, Indivisible," finally divides. - A political satire.

The Sea of Storms World Scientific

This book is written from the viewpoint that a deep connection exists between cosmology and particle physics. It presents the results and ideas on both the homogeneous and isotropic Universe at the hot stage of its evolution and in later stages. The main chapters describe in a systematic and pedagogical way established facts and concepts on the early and the present Universe. The comprehensive treatment, hence, serves as a modern introduction to this rapidly developing field of science. To help in reading the chapters without having to constantly consult other texts, essential materials from General Relativity and the theory of elementary particles are collected in the appendices. Various hypotheses dealing with unsolved problems of cosmology, and often alternative to each other, are discussed at a more advanced level. These concern dark matter, dark energy, matter-antimatter asymmetry, etc. Particle physics and cosmology underwent rapid development between the first and the second editions of this book. In the second edition, many chapters and sections have been revised, and numerical values of particle physics and cosmological parameters have been updated. *Mineral Springs Road 1940s* Createspace Independent Publishing Platform

What happens when Franco Genovese, drummer for the American rock band, Rook, and Gemma Hendricks, a British architect, meet in a L.A. bar? The attraction between the two is instant, and so is their friendship. When they both head home soon, it will all be over, or will it? There is something Gemma wants more than anything else. Everything changes when Franco propositions her to provide what she's looking for, but will it be love, or will it be their ruin?

Having a little sister isn't always a picnic. Older sisters may feel jealous of the time taken away from them, the toys they have to share, and the attention focused on the youngest member of their

family. Getting along is often a day-to-day battle, but what can parents do to make this situation easier and to help children realize how special it is to have a sister? In *Spice & Little Sugar*, the delightful new children's book about sibling rivalry, authors Megan Waldrep and Melissa Nelson show big sisters the big benefits, responsibilities, and absolute joys of their role. Told in a whimsical rhyme that children will love to read aloud, *Spice & Little Sugar* first humorously relates all the ways Little Sugar gets on Spice's nerves, from grabbing her favorite toys to sticking to her like glue when Spice wants to be left alone. But gradually Spice comes to realize that Little Sugar does have her good points, including sticking up for her when she gets in trouble with their parents and saving the day with her cute face. Parents will love the warm, gentle lessons the book teaches about understanding how positives can outweigh negatives, and kids will laugh at the playful illustrations and funny story. The perfect book for siblings, *Spice & Little Sugar* can be read and enjoyed by the whole family, time and time again.

* Instant Bestseller * New York Times Editors' Choice * "A gripping account of PayPal's origins and a vivid portrait of the geeks and contrarians who made its meteoric rise possible" (The Wall Street Journal)—including Elon Musk, Amy Rowe Klement, Peter Thiel, Julie Anderson, Max Levchin, Reid Hoffman, and many others whose stories have never been shared. "Deeply reported and bracingly written, this book is an indispensable guide to modern

innovation and entrepreneurship." —Walter Isaacson, New York Times bestselling author of *Code Breaker* Today, PayPal's founders and earliest employees are considered the technology industry's most powerful network. Since leaving PayPal, they have formed, funded, and advised the leading companies of our era, including Tesla, Facebook, YouTube, SpaceX, Yelp, Palantir, and LinkedIn, among many others. As a group, they have driven twenty-first-century innovation and entrepreneurship. Their names stir passions; they're as controversial as they are admired. Yet for all their influence, the story of where they first started has gone largely untold. Before igniting the commercial space race or jumpstarting social media's rise, they were the unknown creators of a scrappy online payments start-up called PayPal. In building what became one of the world's foremost companies, they faced bruising competition, internal strife, the emergence of widespread online fraud, and the devastating dot-com bust of the 2000s. Their success was anything but certain. In *The Founders: The Story of PayPal and the Entrepreneurs Who Shaped Silicon Valley*, award-winning author and biographer Jimmy Soni explores PayPal's turbulent early days. With hundreds of interviews and unprecedented access to thousands of pages of internal material, he shows how the seeds of so much of what shapes our world today—fast-scaling digital start-ups, cashless currency concepts, mobile money transfer—were planted two decades ago. He also reveals the stories of countless individuals who were left out of the front-page features and banner headlines but who were central to PayPal's success. Described as "an intensely magnetic chronicle" (The New York Times) and "engrossing" (Business Insider), *The Founders* is a story of iteration and inventiveness—the products of which have cast a long and powerful shadow over modern life. This narrative illustrates how this rare assemblage of talent came to work together and how their collaboration changed our world forever.

A child's dream takes us on a journey through space. The child looks for a place to land while exploring each planet, but some are too hot, some are too cold, and some are just made of liquid and gas. Only planet Earth is just right. Fun rhyming text introduces children to each planet and basic facts about it. The text is accompanied by stunning images of a rocket traveling through the solar system, interspersed by close up images of each planet in order. While each planet is amazing in its own way, there is only one we can call home. If parents choose, this can be the start to a conversation about how we can take better care of our planet. This humorous picture book helps children explore the big questions around what is right and wrong. Questions include: Do other people's feelings matter? Is doing wrong ever right? Is it

ever okay to lie? Do my decisions matter? The book is part of the series, 'Big Questions, Big World' for children aged 7 plus. With lots of humorous illustrations and different scenarios to consider, the books help the reader to gain confidence in their own ideas and to think critically. They are a great introduction to philosophical thinking and encourage the reader to learn through challenging ideas. Titles in the series: How do I decide what is right? Why do we need rules? What makes me special? Why are we here?

Moving across the country was supposed to be a fresh start. I'd made mistakes, but I told myself I'd no longer prey on emotionally unstable women. I don't do relationships-I'm a selfish bastard that enjoys not answering to anyone-and relationships mean being with only one woman. More often than not, one that carries emotional baggage, like cheating exes or worse-kids. After landing myself in trouble, again, my cousin Charlie dared me to settle down with one woman. I'm not one to shy away from a dare, so I chose Scarlett Winters, the most wanted actress in Hollywood. The sexiest woman on Earth. I just needed to get past the roadblock-her assistant, Morgan Bentley. The wicked bitch of the west. Between her multiple personalities and the giant stick up her ass, I should've seen it coming. I'd been with enough women to read the signs. Morgan Bentley was after one thing, and one thing only. A rebound. That's me, right? Mr Rebound. But what if this time I wanted more?
