Limited
Winner of the 2011 George Orwell
Award. One of The Atlantic's top
psychology books of 2011. As human
beings, we've always told stories: stories
about who we are, where we come from,
and where we're going. Now imagine
that one of those stories is taking over

the others, narrowing our diversity and creating a monoculture. Because of the rise of the economic story, six areas of your world - your work, your relationships with others and the environment, your community, your physical and spiritual health, your education, and your creativity - are changing, or have already changed, in subtle and not-so-subtle ways. And because how you think shapes how you act, the monoculture isn't just changing your mind - it's changing your life. In *Monoculture*, F.S. Michaels draws on extensive research and makes surprising connections among disciplines to take a big-picture look at how one story is changing everything. Her research and writing have been supported by the Social Sciences and Humanities

Research Council of Canada, the Killam Trusts, and regional and municipal arts councils. Michaels has an MBA, and lives and writes in British Columbia.

Today's beekeepers face unprecedented challenges, a fact that is now front-page news with the spread of "colony collapse disorder." Newly introduced pests like varroa and tracheal mites have made chemical treatment of hives standard practice, but pest resistance is building, which in turn creates demand for new and even more toxic chemicals. In fact, there is evidence that chemical treatments are making matters worse. It's time for a new approach. Now revised and updated with new resources and including full-color photos throughout, *Natural Beekeeping* offers

all the latest information in a book that has already proven invaluable for organic beekeepers. The new edition offers the same holistic, sensible alternative to conventional chemical practices with a program of natural hive management, but offers new sections on a wide range of subjects, including: The basics of bee biology and anatomy Urban beekeeping Identifying and working with queens Parasitic mite control Hive diseases Also, a completely new chapter on marketing provides valuable advice for anyone who intends to sell a wide range of hive products. Ross Conrad brings together the best "do no harm" strategies for keeping honeybees healthy and productive with nontoxic methods of controlling mites; eliminating American

foulbrood disease without the use of antibiotics; selective breeding for naturally resistant bees; and many other detailed management techniques, which are covered in a thoughtful, matter-of-fact way. Whether you are a novice looking to get started with bees, an experienced apiculturist looking for ideas to develop an integrated pest-management approach, or someone who wants to sell honey at a premium price, this is the book you've been waiting for.

The Iron Range earned its name honestly: it was once among the world's richest iron ore mining districts. The Iron Range propelled the U.S. steel industry in the late nineteenth century, and iron mining sustained generations in the region with work and a strong economy. But long before most other parts of the country faced the realities of industrial

decline, Minnesota's Iron Range was already striving to maintain its core industry. In *Taconite Dreams: The Struggle to Sustain Mining on Minnesota's Iron Range, 1915-2000*, Jeffrey T. Manuel examines how the region fought the dislocation that came with economic changes, technological advances, and global shifts in industrial production. On the Iron Range, efforts included the development of taconite mining as a technological fix for the drop in hematite mining. Manuel describes the Iron Range's modern history and how the downturn was opposed by individuals, civic groups, and commercial interests. The first book dedicated to thoroughly exploring this era on the Iron Range, *Taconite Dreams* demonstrates how the area fit into a larger story of

regions wrestling with deindustrialization in the twentieth century. The 1964 taconite amendment to Minnesota's constitution, the bruising federal pollution lawsuit that closed a taconite plant, and the Iron Range Resources and Rehabilitation Board's economic development policy are all discussed. Ultimately, the resistance against economic decline is also a battle over mining's memory and legacy, one that continues today. Manuel's history sheds much-needed light on this important yet widely overlooked mining region as well as the impact of the past century's struggles on the people who call it home. *Appreciation* ASCD Providing colorful photography, instructive diagrams and everyday examples, this exciting resource reveals

the science behind virtually everything and is divided into four sections - Mechanics, Natural Forces, Materials and Chemistry and Biology and Medicine. *Plan of Re-union Between Great Britain and Her Colonies..* Red Clover Press It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother

from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil

company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

THE DEFINITIVE AUTOBIOGRAPHY OF A SPORTS LEGEND The NHL may never see anyone like Gordie Howe again. Known as Mr. Hockey, he led the Detroit Red Wings to four Stanley Cups and is the only player to have competed in the league in five different decades. In Mr. Hockey, the man widely recognized as the greatest all-around player the sport has ever seen tells the story of his incredible life... Twenty consecutive seasons among the top five scorers in the NHL. One hundred points after the age of forty. Playing for Team Canada with his two sons. Gordie Howe rewrote the record books. But despite Howe's unyielding ferocity on the ice, his name has long been a byword for decency,

generosity, and honesty off of it. Going back to Howe's Depression-era roots and following him through his Hall of Fame career, his enduring marriage to his wife, Colleen, and his extraordinary relationship with his children, Mr. Hockey is the definitive account of the game's most celebrated legacy, as told by the man himself. A memoir of a family's year living in Reykjavik that "captures the fierce beauty of the Arctic landscape" (Booklist). Sarah Moss had a childhood dream of moving to Iceland, sustained by a wild summer there when she was nineteen. In 2009, she saw an advertisement for a job at the University

of Iceland and applied on a whim, despite having two young children and a comfortable life in Kent, England. The resulting adventure was shaped by Iceland's economic collapse, which halved the value of her salary; by the eruption of the volcano Eyjafjallajokull; and by a collection of new friends, including a poet who saw the only bombs fall on Iceland in 1943; a woman who speaks to elves; and a chef who guided Sarah's family around the intricacies of Icelandic cuisine. Moss explored hillsides of boiling mud and volcanic craters and learned to drive like an Icelander on the unsurfaced roads that link remote farms and fishing villages in the far north. She watched the northern lights and the comings and goings of migratory birds, and as the

weeks and months went by, she and her family learned new ways to live. Names for the Sea is her compelling and very funny account of living in a country poised on the edge of Europe, where modernization clashes with living folklore. "Beautifully written . . . A stranger in a strange land, Moss grapples with new foods, customs and landscapes that are both oddly familiar and wildly alien in this absorbing memoir." —Financial Times

KINGS OF ITALY DUET, PART 1 FAUSTO I am the darkness, the man whose illicit empire stretches around the globe. Not many have the courage for what needs to be done to maintain power . . .but I do. And I always get what I want. Including my son's fiancée. She's mine now, and I'll use Francesca any way I see fit. She's the perfect match to my twisted desires, and I'll keep her close, ready and waiting at my disposal. Even if she fights me at every turn. FRANCESCA I was stolen away and held prisoner in

Italy, a bride for a mafia king's only heir. Except I'm no innocent, and it's the king himself-the man called il Diavolo-who appeals to me in sinful ways I never dreamed. Fausto's wickedness draws me in, his power like a drug. And when the devil decides he wants me, I'm helpless to resist him-even if it means giving myself to him, body and soul. He may think he can control me, but this king is about to find out who's really the boss. ***** MAFIA MISTRESS is a full-length mafia romance written by a USA Today Bestselling author. It's the first book in the Italian Kings duet, not a standalone. My Ex Fell in Love Between the Lines It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that

they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay...

Mahvish Khan is the only Afghan-American to walk into Guantanamo of her own accord. This unique book is her story, and the story of the men she grew to know uniquely well inside the cages of Guantanamo. Mahvish Khan is an American lawyer, born to immigrant Afghan parents. She was outraged that her country, the USA, seemed to have suspended its tradition of equality for all

under the law with regard to those imprisoned at Guantanamo Bay in Cuba, and so she volunteered to translate for the lawyers - including British lawyer and founder of Reprieve Clive Stafford Smith - acting pro bono for the prisoners. Because she spoke their language, understood their customs and brought them Starbucks chai, the closest available drink to the kind of tea they would drink at home, they quickly befriended her, offering fatherly advice as well as a uniquely personal insight into their plight, and that of their families thousands of miles away at home. Some

at Guantanamo are terrorists who deserve to be convicted and sentenced as such. Some are paediatricians and school teachers. We cannot tell the difference until we see them as individuals with their own unique stories. They deserve that much. No other writer has had access to the detainees. This book is a testament to their captivity. It documents the voices of men who have been tortured and held in a black hole of indefinite detention without legal recourse for years. It shows who they are and also allows readers to see that these men are more similar to us than they are different.
