The War of 1812 is a conflict best characterized by two adjectives: ironic and forgotten. Conventional histories of the War of 1812 focus almost exclusively on the land engagements of the war, despite the occurrence of several crucial engagements at sea. In what is perhaps the greatest irony of all, one of the most infamous incidents of the war -- the shooting of several United States prisoners-of-war at Dartmoor prison in 1815 -- has received virtually no scholarly attention. The general topic of prisoners-of-war during the War of 1812 has received almost no treatment. Owing to the lack of substantial scholarly literature on Dartmoor Prison during its time as a place of incarceration for both French and American prisoners-of-war, this study's primary focus is on the autobiographical accounts of the men held there. For this study, the author has discovered ten narratives that each tell a slightly different story of what it was like within the prison on the moor. Without exception, all of these narratives are autobiographical in scope. Building upon the prisoner-of-war autobiographies, the thesis concludes with a discussion of the two most important events in Dartmoor's

history as a prisoner-of-war compound. The first, a riot over bread, bears a direct correlation to what would take place on April 6, 1815, the date of the Dartmoor Massacre. To what degree did the former influence the latter? What did actually take place during both events? Was the Dartmoor Massacre really a massacre? Or have time, sensationalism, and political rhetoric obscured the truth?

This doubtless accounts for the fact that our government did not possess a list of our soldiers and sailors who had been taken prisoners during the war with Great Britain, 1812-1814. In this volume, Q recounts the lives and experiences of Devon and Somerset residents who were forced to accommodate French prisoners of war and the daily routine and behaviour of the prisoners, many of whom were used to build Dartmoor prison. This volume contains an annotated edition of The Westcotes, a tale of daily life in Devon and Somerset in the times of the Napoleonic Wars and of potential romance between a prisoner and a wealthy gentlewoman. It also contains extracts written about prisoners of war and a summary of the actual lives of the 'parole town' prisoners of war in towns and villages in Devon and Cornwall as well as a brief history of Dartmoor Prison which held thousands of French prisoners and a history of Wincanton in the times of the Napoleonic Wars. This volume concludes with the tale of one escapee, Louis Vanhille, who after his escape travelled a complicated route back and forth across England, perhaps to drum up support for a mass uprising of the detained men.

This is a transcription of War of 1812 prisoner of war records of American sailors, marines and merchantmen which were transcribed from the ledgers of the British Admiralty. These men were either captured off the coast of western Europe or who were taken off British warships and merchant vessels in England at the beginning of the war. The Royal Navy's Plymouth Naval Base was the home of one of the three prisoner of war prison ship facilities which were used during the War of 1812 to house American prisoners of war. The facility had been used since 1796 to intern French prisoners of war during the Napoleonic Wars. A total of 3,568 Americans, including 392 African-Americans, one Indian and one Chinese, were interned at Plymouth for up to three months before being transferred to Ashburton, Portsmouth, Dartmoor, Chatham or Stapleton prison of war facilities. The ledgers from Plymouth include the listing of the crews from the U.S. Brigs Argus and Syren plus a partial crew listing from the U.S. Frigate Chesapeake. Mr. Johnson is a lineal descendant of seven veterans of the War of 1812, and he is the past president of the Society of the War of 1812 in the State of Ohio (2008-2011). He is currently the Registrar General for the General Society of the War of 1812; and has served as the Historian General (2011-2014) and the Archivist General (2014-2017) for this society.

American Prisoners of War at Dartmoor War Depot (1813-1815) War College Series

During the French Revolutionary and Napoleonic Wars, over 200,000 prisoners of war of many nationalities were brought to Britain to be held in the infamous prison hulks, land prisons and parole depots. Many prisoners languished in captivity for over eleven years. This book tells the story of these men and women. Hell Upon Water examines how prisoners of war were acquired by the British, how they were fed, clothed and accommodated by the Transport Board of the Admiralty. The larger prisons such as Dartmoor, Portchester Castle and Norman Cross are described in detail, alongside the smaller lesser known depots of Forton, Stapleton, and Mill Bay. It compares the treatment of French prisoners with that of Britons in France, and also tells the stories of officers who fell in love with local girls and married, and those who fought to escape.

It's an account of life as a British prisoner of war during the War of 1812, and it's also a mystery. Prisoner of the British was originally released in 1816 as A Journal of a Young Man of Massachusetts, Late a Surgeon on Board an American Privateer, Who Was Captured at Sea by the British. As such it is an immensely readable, if eye-opening, account of the author's experiences as a British prisoner of war during the War of 1812. At first he was held at Melville Island, Halifax, then in a prison ship at Chatham, England, and last in the infamous Dartmoor Prison. His descriptions and observations of the characters and characteristics of three nations are truly remarkable-as is his detailed descriptions of the massacre of American prisoners at Dartmoor on April 6, 1815. But there is a mystery surrounding this book as well-a mystery that is debated to this day. Who wrote it? Benjamin Waterhouse, the pioneering American physician, is credited with authorship, but he would have been 59 years old when the story transpired, and there is no record of his ever having served in the military. Modern scholars now suspect a 21 year old seaman from Massachusetts by the name of Henry Torey, but no one knows for sure. Whoever wrote it, it's a must read for anyone who wishes to genuinely understand the War of 1812.

[Prisoners of War at Dartmoor](#) Simon and Schuster

The incarceration of French and American prisoners of war in Dartmoor Prison, at a time when Britain was at war with both its traditional enemy and the young nation of former British colonies, was a dark and unusual episode. Acts of cruelty and degradation were countered by defiance and a spirited loyalty by the prisoners to their respective countries. Much of the story is told firsthand by those who were there, against a background of warfare and glorious victories on all sides. The author relates how a barren landscape that was (and is) subject to the worst of winter weather was transformed into a thriving township by one very determined man, Sir Thomas Tyrwhitt, and why such a place was chosen to build a prison. The design and construction of the prison are described, as are the experiences of the men held in the harsh, overcrowded conditions of Dartmoor. From May 1809 to February 1816, 271 American and more than 1100 French prisoners of war died in confinement.

This is a transcription of American prisoner of war records from the U.S. Navy, privateers and merchant vessels (plus some civilians) who were captured and then interned by the British Empire at the Dartmoor Depot in England during the War of 1812. There are also some U.S. Army soldiers, volunteers and militiamen included in these transcriptions. This book was compiled from copies of the General Entry Book of American Prisoners of War (GEB) ledger of the British Admiralty made by the Public Records Office in London, Great Britain (ADM 103 series). These ledgers contain the information on 6,553 American prisoners of war who were interned between 2 April 1813 and 26 March 1815 at the Dartmoor Depot. Eight-hundred-sixty-seven of these Americans are listed as Negroes, Blacks, Colored, Men of Color or Mulattos on the GEB ledgers, which amounts to 13% of the total American POW population. Sixteen men are listed as Creoles and there was one Chinese American. Fifty-nine American men entered British service, that is, they enlisted in either the British army, navy or merchant marines to avoid internment in Dartmoor Depot. Fifty-three Americans escaped from Dartmoor Depot, while 272 died and were buried in the American Cemetery near Dartmoor Depot. [Dartmoor Prisoner Or War Depot and Convict Jail](#) The History Press

For decades after the War of 1812, the Dartmoor Massacre when British guards fired upon rioting American prisoners of war caste a dark shadow over Anglo-American relations. This book not only retells the story of that incident, but also places it in a larger context of carceral history in terms of prison design and in terms of the lived experience of both the French and the Americans held in Dartmoor Prison in the early nineteenth century. Paul A. Gilje, University of Oklahoma, USA The Napoleonic Wars brought unprecedented numbers of prisoners-of-war to Britain and posed huge problems for the authorities. In this pioneering study Neil Davie looks at one of the more radical solutions, the construction on Dartmoor of a war prison that would house 5000 men, many in cramped and insanitary conditions. The prison achieved notoriety in 1815 when rioting American prisoners were

mown down, and nine killed, in what became known as the Dartmoor Massacre. But violence was never far away, and this book offers keen insights into the social dynamics of life within the prison walls. Alan Forrest, University of York, UK As Davie demonstrates in this painstakingly researched book, Dartmoor is a fascinating observatory for any historian interested in carceral spaces, the organisation of prison societies, and prison governmentality. Renaud Morieux, University of Cambridge, UK This book explores the history of Dartmoor War Prison (1805-16). This is not the well-known Victorian convict prison, but a less familiar penal institution, conceived and built nearly half a century earlier in the midst of the long-running wars against France, and destined, not for criminals, but for French and later American prisoners of war. During a period of six and a half years, more than 20,000 captives passed through its gates. Drawing on contemporary official records from Britain, France and the USA, and a wealth of prisoners letters, diaries and memoirs (many of them studied here in detail for the first time), this book examines how Dartmoor War Prison was conceived and designed; how it was administered both from London and on the ground; how the fate of its prisoners intertwined with the military and diplomatic history of the period; and finally how those prisoners interacted with each other, with their captors, and with the wider community. The history of the prison on the moor is one marked by high hopes and noble intentions, but also of neglect, hardship, disease and death. Neil Davie is Professor of British History at Universite Lumiere, Lyon, France.

American Prisoners of War Held at Dartmoor During the War of 1812 Wentworth Press

The war of 1812 is over, but for the inmates at Dartmoor Prison, peace—like home—is still a long way away. On New Year's Eve 1814, the American sailors of the Eagle finally arrive at Dartmoor prison, bedraggled, exhausted, but burning with hope. They've only had one thing to sustain them during the harrowing voyage—a snatched whisper overheard along the way. The war is finally over. Joe Hill thought he'd left the war outside these walls but it's quickly clear that there's a different type of fight to be had within. The seven prison blocks surrounding him have been segregated; six white and one black. Inspired by true events, this novel recounts the remarkable story of the first ever all-black Shakespeare production, staged by segregated American prisoners of war. It is a story of hope and freedom, of loss and suffering. It is a story about how sometimes, in our darkest hour, it can be the most unlikely of things that see us through.

The Prisoners' Memoirs, Or, Dartmoor Prison; Containing a Complete and Impartial History of the Entire Captivity of the Americans in England, from the Commencement of the Last War Between the United States and Great Britain, Until All Prisoners Were Released - W

A leading historian reveals the never-before-told story of a doomed British prison and the massacre of its American prisoners of war After the War of 1812, more than five thousand American sailors were marooned in Dartmoor Prison on a barren English plain; the conflict was over but they had been left to rot by their government. Although they shared a common nationality, the men were divided by race: nearly a thousand were Black, and at the behest of the white prisoners, Dartmoor became the first racially segregated prison in US history. The Hated Cage documents the extraordinary but separate communities these men built within the prison—and the terrible massacre of nine Americans by prison guards that destroyed these worlds. As white people in the United States debated whether they could live alongside African Americans in freedom, could Dartmoor's Black and white Americans band together in captivity? Drawing on extensive new material, *The Hated Cage* is a gripping account of this forgotten history.
