Prince Lyov Nikolaevich Myshkin, a good yet simple man, is out of place in the corrupt world created by Russia's ruling class.

An Anthology of Old Spanish Wordsworth Editions

Dostoevskij scrisse questo romanzo tra il

settembre del 1867 e il gennaio del 1869. Venne dapprima pubblicato a puntate tra il 1868 e il 1869 sul "Ruskij Vestnik" e successivamente in volume a Pietroburgo nel 1874. Il personaggio principale del romanzo è il principe Lev Nikolaevič Myškin, il quale ha potuto recarsi in Svizzera per curare l'epilessia grazie a un benefattore, versando lui stesso, ultimo discendente del suo casato, in pessime condizioni economiche. Tramite la figura del principe l'autore vuole trasmettere a

chi legge una sorta di istanza ideale, narrativamente caratterizzata dalla «idiozia» del principe, che consiste in un atteggiamento di assoluta fiducia negli altri; forse la malattia, che gli ha inibito negli anni cruciali per la formazione del carattere una compiuta esperienza di vita, ha contribuito alla costruzione del suo ego in direzione di una pressoché totale ingenuità. Con questo espediente narrativo l'autore esprime la propria aspirazione a tratteggiare una figura umana che possa impersonare positivamente la soluzione del problema etico, così come aveva in mente.

Jean-Paul Sartre: A Bibliography of International Criticism Skenè. Texts and Studies

Dante's conception of language is encompassed in all his works and can be understood in terms of a strenuous defence of the volgare in tension with the prestige of Latin. By bringing together different approaches, from literary studies

to philosophy and history, from aesthetics to queer studies, from psychoanalysis to linguistics, this volume offers new critical insights on the question of Dantes language, engaging with both the philosophical works characterized by an original project of vulgarization, and the poetic works, which perform a new language in an innovative and self-reflexive way. In particular, Dantes Plurilingualism explores the rich and complex way in which Dantes linguistic theory and praxis both informs and reflects an original configuration of the relationship between authority, knowledge and identity that continues to be fascinated by an ideal of unity but is also imbued with a strong element of subjectivity and opens up towards multiplicity and modernity.

Una parabola di tre amori: Myskin e Nastàs'ja, Aglàja e Myskin, Nastàs'ja e Rog"zin: "Se davvero tutte queste sono forme d'amore, ebbene è il concetto stesso di amore che ci si dissolve tra le mani, come una chimera che pu" assumere le forme più assurde e

contraddittorie, fino a far perdere qualsiasi senso al suo stesso nome". Un romanzo intessuto di tutti i principali temi della narrativa dostoevskiana, del dilemma dell'esistenza; un racconto polifonico di personaggi ambigui, non conclusi, che ruotano attorno alla figura del principe Myskin. Egli non è un profeta, né un cercatore di Dio che spera di trovare la Verità, un credo che gli sveli il significato della vita; no, l'"idiota" è un malato, a metà strada tra l'angelo e l'uomo, "uno che cerca nell'intimo della sua coscienza le motivazioni essenziali del suo modo di essere, evitando da una parte le insidie della volontà di autoaffermazione, e dall'altra ogni tentazione di voler rappresentare un modello o un esempio per gli altri, di pretendere di indicare a essi la via. Il mondo gli appare come un immenso enigma, che ora lo riempie di gioiosa e ammirata esultanza, ora invece gli fa avvertire una dolorosa stretta al cuore per lo struggente sentimento di essere l'unico estraneo a quel 'banchetto"..

Italians found another way to engage with

Shakespeare besides opera. In 1923, Italian intellectual Piero Gobetti wrote that his age would be remembered as a curious chapter in the reception history of Shakespeare, when the Bard got entangled with ideas of criminal anthropology. In fact, the uses of Shakespeare by Lombroso's school are now forgotten. In the second half of the nineteenth century, Shakespeare began to be portrayed as a genius who anticipated the findings of the Italian Positivist School, or, alternatively, as an authority who could debunk them. Shakespeare's own psyche and the characters of his plays were explored and pathologised. These studies occasionally percolated into the practices of courthouses, prisons, hospitals, and asylums, and had an impact on the performance of Shakespeare's plays. This volume provides an edition of hitherto uncollected primary sources which document these uses of Shakespeare. Each text has a parallel English translation, and is introduced by a preface providing details about the context and its main discursive stances. The volume also features a critical introduction and explanatory notes.

The Idiot is a novel by the 19th-century Russian author Fyodor Dostoevsky. It was first published serially in the journal The Russian Messenger in 1868-69. The title is an ironic reference to the central character of the novel, Prince (Knyaz) Lev Nikolayevich Myshkin, a young man whose goodness, open-hearted simplicity and guilelessness lead many of the more worldly characters he encounters to mistakenly assume that he lacks intelligence and insight. In the character of Prince Myshkin, Dostoevsky set himself the task of depicting "the positively good and beautiful man." [1] The novel examines the consequences of placing such a unique individual at the centre of the conflicts, desires, passions and egoism of worldly society, both for the man himself and for those with whom he becomes involved.

four years in a Swiss clinic for treatment of a severe epileptic condition. On the journey Myshkin meets a young man of the merchant class, Parfyon Semyonovich Rogozhin, and is struck by his passionate intensity, particularly in relation to a woman-the dazzling society beauty Nastassya Filippovna-with whom he is obsessed. Rogozhin has just inherited a very large fortune from his dead father and he intends to use it to pursue the object of his desire. Joining in their conversation is a civil servant named Lebedyev - an "omniscient" gentleman with a profound knowledge of social trivia and gossip. Realizing who Rogozhin is, he firmly attaches himself to him.

Introduzione di Mauro Martini Edizione integrale L'idiota, ha notato Vittorio

Strada, è il «più fantastico e uno dei più originali romanzi dostoevskiani». In un'umida giornata novembrina arriva a Pietroburgo il principe Lev Nikolaevič Myškin. È venuto a proclamare la sua verità da "idiota", che sovverte le tradizionali contrapposizioni tra Bene e Male, tra Amore e Odio e afferma una sua nuova Legge: quella della compassione e dell'accettazione del prossimo. Ma a questa verità tutti si ribellano; a respingerla è soprattutto Nastas'ja Filippovna, donna bellissima e consapevolmente perduta che rifiuta di farsi salvare dal principe e non si sottrae al suo tragico destino, quello di finir vittima del passionale mercante Rogožin. Opera in cui massimamente si trasfondono la visione dostoevskiana del mondo e un profondo sentimento religioso (tanto che nel principe Myškin è stata adombrata la figura di Cristo), *L'idiota*, definito da Thomas Mann «il romanzo dell'anima», resta tuttora una lettura irrinunciabile e una pietra miliare della letteratura. «Forse anche qui mi considereranno un ragazzino, e sia. C'è anche chi mi crede un idiota, non ho mai scoperto perché. In verità sono stato talmente malato da non essere

molto diverso da un idiota; ma com'è possibile che sia idiota anche adesso quando io per primo mi accorgo che la gente mi considera tale? Io entro e penso: "Mi credono idiota, ma io sono intelligente, e loro non lo sospettano nemmeno".» Fëdor M. Dostoevskij Fëdor Michajlovic Dostoevskij nacque a Mosca nel 1821. Da ragazzo, alla notizia della morte del padre, subì il primo attacco di epilessia, malattia che lo tormentò per tutta la vita. Nel 1849 lo scrittore, a causa delle sue convinzioni socialiste, venne condannato a morte. La pena fu poi commutata in quattro anni di lavori forzati in Siberia e nell'esilio fino al 1859. Morì a San Pietroburgo nel 1881. È forse il più grande narratore russo e uno dei classici di tutti i tempi. Le sue opere e i suoi personaggi, intensi, drammatici, affascinanti, sono attuali e modernissimi. La Newton Compton ha pubblicato *L'adolescente*, *Delitto e castigo*, *I demoni*, *I fratelli Karamazov*, *Il giocatore*, *L'idiota*, *Memorie dal sottosuolo*, *Le notti bianche - La mite - Il sogno di un uomo ridicolo* anche in volumi singoli. *A Concise Etymological Dictionary of the English Language* Createspace Independent Publishing Platform

From the author of the definitive biography of Fyodor Dostoevsky, never-before-published lectures that provide an accessible introduction to the Russian writer's major works Joseph Frank (1918–2013) was perhaps the most important Dostoevsky biographer, scholar, and critic of his time. His never-before-published Stanford lectures on the Russian novelist's major works provide an unparalleled and accessible introduction to some of literature's greatest masterpieces. Presented here for the first time, these illuminating lectures begin with an introduction to Dostoevsky's life and literary influences and go on to explore the breadth of his career—from *Poor Folk*, *The Double*, and *The House of the Dead* to *Notes from Underground*, *Crime and Punishment*, *The Idiot*, and *The Brothers Karamazov*. Written in a conversational style that combines literary analysis and cultural history, *Lectures on Dostoevsky* places the novels and their key characters and scenes in a rich context. Bringing Joseph Frank's unmatched knowledge and understanding of Dostoevsky's life and writings to a new generation of readers, this remarkable book will appeal to anyone
