are as
dynamic and

diverse as their stories. Sixty years have passed since the Partition of India, and it's clear that Pakistani writers have established their own literary tradition to record the stories of their communities. Famed novelist Bapsi Sidhwa portrays a Pakistani community in Houston, Texas, still struggling to heal from the horrors of Partition. In Uzma Aslam Khan's tale, a man working

in a Karachi auto body shop falls in love with the magical woman painted on a bus cabin. Bushra Rehman introduces us to a Pakistani girl living in Corona, Queens, who becomes painfully aware of the tensions between established Italian immigrants and their new Pakistani neighbors. And during the anti-Muslim sentiment following 9/11, a young

woman in newcomer Humera Afridi's story searches Manhattan's rubble-filled streets for a mosque. Filled with nostalgic memories of Pakistan, critical commentary about the world's current political climate, and inspirational hope for the future, the stories in *And the World Changed* weave an intricate, enlightening view of Pakistan, its relation to the West, and the

<p>women who travel between the two regions. Featuring: Talat Abbasi, Humera Afridi, Aamina Ahmad, Rukhsana Ahmad, Feryal Ali Gauhar, Sara Suleri Goodyear, Shahrukh Husain, Sabyn Javeri Jillani, Sonia Kamal, Fawzia Afzal Khan, Sorayya Khan, Uzma Aslam Khan, Maniza Naqvi, Tahira Naqvi, Nayyara Rahman, Hima Raza, Bushra Rehman, Fahmida Riaz, Roshni Rustomji, Sehba Sarwar,</p>	<p>Bina Shah, Qaisra Shahrzad, Kamila Shamsie, Muneeza Shamsie, and Bapsi Sidwa. The Emergence of Pakistan Oxford University Press, USA A harrowing account of the last three months of Benazir Bhutto's life October, 2007. Pakistan's former Prime Minister Benazir Bhutto returns home after eight years of exile to seek political office once more.</p>	<p>Assigned to cover her controversial arrival is TV journalist Ali Sikandar, the estranged son of a wealthy landowner from the interior region of Sindh. While her presence ignites fierce protests and assassination attempts, Ali finds himself irrevocably drawn to the pro-democracy People's Resistance Movement, a secret that sweeps him into the many contradictions of a country still struggling</p>

to embrace modernity. As Shah weaves together the centuries-old history of Ali's feudal family and its connection to the Bhuttos, she brilliantly reveals a story at the crossroads of the personal and the political, a chronicle of one man's desire to overcome extremity to find love, forgiveness, and even identity itself. *The Party Worker* London ; Boston : Faber and Faber The winner of

the DSC Prize for South Asian Literature follows his debut *Home Boy* with "an unforgettable romp across love, life, and everything else" (Akhil Sharma, author of *Family Life*). Abdullah, bachelor and scion of a once prominent family, awakes on the morning of his seventieth birthday and considers launching himself over the balcony. Having spent years attempting to

compile a "mythopoetic legacy" of his beloved Karachi, the cosmopolitan heart of Pakistan, Abdullah has lost his zeal. A surprise invitation for a night out from his old friend Felix Pinto snaps Abdullah out of his funk and saddles him with a ward—Pinto's adolescent grandson Bosco. As Abdullah plays mentor to Bosco, he also attracts the romantic attentions of Jugnu, an enigmatic

siren with links to the mob. All the while Abdullah's brothers' plot to evict him from the family estate. Now he must to try to save his home—or face losing his last connection to his familial past. Anarchic, erudite, and rollicking, with a septuagenarian protagonist like no other, *The Selected Works of Abdullah the Cossack* is a joyride of a story set against a kaleidoscopic

portrait of one of the world's most vibrant cities. "H.M. Naqvi's remarkable Cossack is the Pakistani Falstaff, the Tristram Shandy of 'Currachee,' spinning yarns inside yarns, allusive, affirming, and grandly comic."—Joshua Ferris, author of *To Rise Again at a Decent Hour* "Wild, wise, and tender . . . Every page in this book is a playground, and each sentence an absolute thrill and joy to read."—Patrici

a Engel, author of *The Veins of the Ocean* "Completely original in form and sensibility."—Ha Jin, winner of the National Book Award *Lords of the Khyber* Springer This illuminating two-volume collection presents leading articles on the theory and practice of intellectual property law as it applies to the promotion of innovation in economic, social, and legal dimensions.

Topics include the role of law and incentives, cumulative and open forms of innovation, as well as discussion of its social dimensions, relationship with market institutions and how to chart a course for future innovation policy. Together with an original introduction by the editor, this collection offers a compelling overview of the ideas that ignite and enliven innovation

scholarship, invaluable to academics and policymakers alike.
Masculinity and Male Identity

Additive manufacturing or '3D printing' has emerged into the mainstream in the last few years, with much hype about its revolutionary potential as the latest 'disruptive technology' to destroy existing business models, empower individuals

and evade any kind of government control. This book examines the trajectory of 3D printing in practice and how it interacts with various areas of law, including intellectual property, product liability, gun laws, data privacy and fundamental/c onstitutional rights. A particular comparison is made between 3D printing and the Internet as this has been, legally-speaking,

another 'disruptive technology' and also one on which 3D printing is partially dependent. This book is the first expert analysis of 3D printing from a legal perspective and provides a critical assessment of the extent to which existing legal regimes can be successfully applied to, and enforced vis-à-vis, 3D printing.

The status quo of gender-based inequality and discrimination in our society perpetuates the notion that we live in "a man's world". Traditional masculine stereotypes persist in a culture which identifies men as self-reliant, emotionally reticent, focused on work over family, and oversexed. When these beliefs are taken to extreme levels by boys and men, they result in poor relationships,

mental health problems and risky behaviours. Rethinking masculinity can help men and boys to move away from narrow masculine ideals and negative role models towards healthier, more diverse approaches to male identity. This book explores what it means to be a "a real man" in Australia, questioning the masculine stereotypes which sustain gender inequality. In addition, the

book examines "toxic masculinity", traditional male gender roles, misogyny and attitudes which promote violence and disrespect towards women. It also addresses the impacts of traditional masculine norms on men's health and wellbeing. What does it mean to be a man in a changing world - is there really a crisis in masculinity? How can society - and

boys and men as individuals - encourage positive, healthier masculinities?

 Although the Internet of Things (IoT) will play a key role in the development of next generation information, network, and communication technologies, many are still unclear about what makes IoT different from similar concepts. Answering fundamental questions

about IoT architectures and models, Unit and Ubiquitous Internet of Things introduces Kashmir London ; Lahore [etc.] : Oxford U.P 'Transactions involving intellectual property whether by way of out-and-out assignment or by one of the myriad variants of licensing which are possible, are really really important - they help the world of business go

round. But such transactions can be complex with things like national rules preventing alienation getting in the way of bargains people wish to make. So it is quite astonishing how sparse the literature on the subject is – particularly literature taking a comparative view. This book is perhaps the very first of its kind, taking as it does perspectives from the

major legal systems of the world. Moreover its distinguished authors have not written in a technical or abstruse way – as academics (and some judges) can all too easily do. Far from it. This book is readable – and anyone concerned with intellectual property licensing should read it and will find it a pleasure to do so. They will also learn a lot about some of the pitfalls and bear-traps to

be found around the world. At UCL we have recognised the importance of this subject. This book will be on our students' reading list.' – The Rt. Hon. Sir Robin Jacob, UCL Faculty of Laws, UK 'IP licensing underpins the information economy. This impressive book brings together leading academic lawyers and practitioners from a range of key jurisdictions to explore a

number of major current issues. The book is both thoughtful and practical and it is not afraid to call for greater harmonization of IP licensing law. It is a must have for all those involved in the field.' - Simon Stokes, Blake Laphorn 'This Research Handbook provides a valuable mix of practical and theoretical perspectives on IP licensing and will serve as a reference resource for scholars and practitioners in this field of study.' - Francesco Parisi, University of Minnesota, US and University of Bologna, Italy 'The Handbook brings together a unique collection of world renowned experts providing detailed discussion in every chapter. The brilliance of this collective work is found in its broad two dimensional focus - beyond patents to all key IP assets on the one hand, and country specific discussion for key regions around the world on the other. . . . Whether read cover-to-cover as a compilation of current best practice or used as a true reference guide, the Research Handbook on Intellectual Property Licensing is a must have for anyone seeking to capture value from intangible assets.' - From the foreword by

James E. Malackowski *The Research Handbook on Intellectual Property Licensing* explores the complexities of intellectual property licensing law from a comparative perspective through the opinions of leading experts. This major research tool analyses the features of specific types of licensing agreements and also addresses other practical issues which apply across different types

of licensing transactions, such as the treatment of licensing in bankruptcy and the use of arbitration for solving licensing disputes. The Handbook ultimately provides a scholarly contribution to the development of global intellectual property licensing policies. Including transversal and comparative analysis, this Handbook will appeal to intellectual property

licensing practitioners, lawyers and intellectual property and contract law academics.

Rodopi *Recounts the British attempts to conquer the Pushtuns of Afghanistan and offers profiles of the tribal leaders and their British foes* [The Making of Modern Sindh](#) Routledge Basow continues to present a balanced view of the literature on both men and

womens gender roles, with thorough attention to the empirical research. In a field that is generating research at an amazing pace, Basow provides the most comprehensive, most up-to-date and most research-oriented book available, presenting all the current findings in psychology and sociology, as well as biology, political science, and anthropology. She covers both the "old" topics related

to gender as well as new concerns in the field, such as AIDS and data on changing families. Research Handbook on Intellectual Property Licensing Cengage Learning The Law and Practice of Trademark Transactions is a comprehensive analysis of the law governing trademark transactions in a variety of legal and business contexts, and from a range of

jurisdictional and cross-border perspectives. After mapping out the international legal framework applicable to trademark transactions, the book provides an analysis of important strategic considerations, including: tax strategies; valuation; portfolio splitting; registration of security interests; choice-of-law clauses; trademark coexistence agreements, and dispute

resolution mechanisms. Key features include: • A comprehensive overview of legal and policy-related issues • A blend of approaches underpinning strategic considerations with analytical rigour • Regional coverage of the key characteristics of trademark transactions in a range of jurisdictions • Authorship from renowned trademark experts Practitioners advising trademark

owners, including trademark attorneys, will find this book to be an invaluable resource for their practice, particularly where cross-border issues arise. It will also be a key reference point for scholars working in the field. And the World Changed Stenhouse Publishers Gender, Race and Class in Media examines the mass media as economic and cultural institutions that shape our

social identities. Through analyses of popular mass media entertainment genres, such as talk shows, soap operas, television sitcoms, advertising and pornography, students are invited to engage in critical mass media scholarship. A comprehensive introductory section outlines the book's integrated approach to media studies, which incorporates three distinct

but related areas of investigation: the political economy of production, textual analysis and audience response. The readings include a dozen new original essays, edited for maximum accessibility. The book provides: - A comprehensive, critical introduction to Media Studies - An analysis of race that is integrated into all chapters - Articles on Cultural Studies that are accessible	to undergraduates - An extensive bibliography and section on media resources - Expanded coverage of "queer" representations in mass media - A new section on the violence debates - A new section on the Internet Together with new section introductions, these provide a comprehensive critical introduction to mass media studies. <u>Tribal Rights in India</u> NYU	Press The author details and celebrates an approach to teaching that emphasizes connections among school, community, and environment. <i>Pakistan Beyond the Crisis State</i> Oxford University Press, USA Presents several essays in studies of Indian literature and film, by discussing how key authors offer contending, 'alternative' visions of India and how poetry, fiction

Seen through the lens of the outsider, Pakistan has often been reduced to a caricature. Its diversity and resilience have rarely figured in the single-issue focus of recent

literature on the country, be it journalistic or scholarly. This book seeks to present an alternate paradigm and to contribute a deeper understanding of the country's dynamics that may help explain why Pakistan has confounded all the doomsday scenarios. It brings together an extra-ordinary array of leading experts, including Ahmed Rashid, Ayesha Jalal and Zahid

Hussain, and practitioners, such as the book's editor, Maleeha Lodhi, Akbar Ahmed and Munir Akram. Together they debate their country's strengths and weaknesses and offer ways out of its current predicament. This book provides a picture of how Pakistanis see themselves and their country's faultlines and spells out ways to overcome these. Pakistan's political, economic,

social, foreign policy and governance challenges are assessed in detail. So too is the complex interplay between domestic developments and external factors including great power interests that are so central to the Pakistan story and explain the vicissitudes in its fortunes. Lodhi and her contributors contend that Pakistan and its people have the capacity to transform their country

into a stable, modern Muslim state, but bold reforms will be needed to bring about this outcome. Alternative Indias The Feminist Press at CUNY "Zara, the suicide-prone protagonist of ambiguous gender, is raised as a son by her father. She has never been able to cry and so when she meets Zaid, a former college-mate, she is immediately curious because of the tear she sees streaming down his face.

Thus begins a quest to understand this wondrous facility of easy tears. Her search for answers leads her to a crumbling mansion where she encounters Waris, an ailing repository of ideals and wisdom who moonlights as a children's mystery writer, and Sheila and her brood who live behind the mansion, treating poverty as their religion. Here with Waris as her guide and

mentor she unravels the spool of Zaid's humanity to resolve the befuddling mystery of his tears, and in the process reaches deep into the heart of her own dilemma as well."--Page 4 of cover.

 This fascinating book shows that neither managers nor consumers completely control branding processes – cultural codes constrain how brands work

to produce meaning. Placing brands firmly within the context of culture, it investigates these complex foundations. Topics covered include: the role of consumption brand management corporate branding branding ethics the role of advertising. This excellent text includes case studies of iconic international brands such as LEGO, Nokia and Ryanair, and analysis by leading

researchers including John M.T. Balmer, Stephen Brown, Mary Jo Hatch, Jean-Noël Kapferer, Majken Schultz, and Richard Elliott. An outstanding collection, it will be a useful resource for all students and scholars interested in brands, consumers and the broader cultural landscape that surrounds them.

Pakistan's Radioactive Decade focuses on the cultural output of the 1970s, the most momentous ten years in the nation's history. The book examines the unprecedented experimentation that occurred in a diverse range of fields, including art, dance, music, television, fashion and advertising, among others. Over forty writers present their reflections of the national scene. The

book also includes the interviews of many iconic figures from the 1970s. The catalyst for the book was an exhibition by the same title held at Amin Gulgee Gallery in March 2016. Co-curators Niilofur Farrukh and Amin Gulgee commissioned 47 artists of different ages to create work inspired by this pivotal decade. These visual acts of remembering and reflecting are included in the book as well.
