*Social Movements and New Technology* Simon and Schuster  
 This book tells a story to shake the conscience of the world. It is the catalogue of the first-ever traveling exhibition about the Auschwitz concentration camp, where 1.1 million people—mostly Jews, but also non-Jewish Poles, Roma, and others—lost their lives. More than 280 objects and images from the exhibition are illustrated herein. Drawn from the Auschwitz-Birkenau State Museum and other collections around the world, they range from the intimate (such as victims' family snapshots and personal belongings) to the immense (an actual surviving barrack from the Auschwitz III-Monowitz satellite camp); all are eloquent in their testimony. An authoritative yet accessible text weaves the stories behind these artifacts into an encompassing history of Auschwitz—from a Polish town at the crossroads of Europe, to the dark center of the Holocaust, to a powerful site of remembrance. *Auschwitz: Not long ago. Not far away.* is an essential volume for everyone who is interested in history and its lessons.

**Epic Win for Anonymous** Routledge

Conspiracy theories are inevitable in complex human societies. And while they have always been with us, their ubiquity in our political discourse is nearly unprecedented. Their salience has increased for a variety of reasons including the increasing access to information among ordinary people, a pervasive sense of powerlessness among those same people, and a widespread distrust of elites. Working in combination, these factors and many other factors are now propelling conspiracy theories into our public sphere on a vast scale. In recent years, scholars have begun to study this genuinely important phenomenon in a concerted way. In *Conspiracy Theories and the People Who Believe Them*, Joseph E. Uscinski has gathered forty top researchers on the topic to provide both the foundational tools and the evidence to better understand conspiracy theories in the United States and around the world. Each chapter is informed by three core questions: Why do so many people believe in conspiracy theories? What are the effects of such theories when they take hold in the public? What can or should be done about the phenomenon? Combining systematic analysis and cutting-edge empirical research, this volume will help us better understand an extremely important, yet relatively neglected,

phenomenon.

**The Masters of Atlantis** Oxford University Press

Who believes in conspiracy theories, and why are some people more susceptible to them than others? What are the consequences of such beliefs? Has a conspiracy theory ever turned out to be true? The Psychology of Conspiracy Theories debunks the myth that conspiracy theories are a modern phenomenon, exploring their broad social contexts, from politics to the workplace. The book explains why some people are more susceptible to these beliefs than others and how they are produced by recognizable and predictable psychological processes. Featuring examples such as the 9/11 terrorist attacks and climate change, The Psychology of Conspiracy Theories shows us that while such beliefs are not always irrational and are not a pathological trait, they can be harmful to individuals and society.

[COVID-19 Conspiracy Theories](#) Harper Paperbacks

If you don't know QAnon or if you have a vague knowledge of this QAnon movement and if you truly value the truth, you will want to find out about the QAnon movement and the fight that is being pursued for your sake to guard you and your youngsters from misuse and oppression. The fight between Good and Evil is not symbolic anymore. Evil is being tested and brought upon the equity in government courts and military councils as of today. Criminally degenerate government pioneers, the famous individuals, religious leaders, media figures, and corporate heads will be tested and penalized for violations including injustice, human trafficking, ritual sacrifice, and unspeakable corruption. This book educates and unveils the significant piece of the truth that has been meticulously covered up and wrongly defamed by the media. It uncovers a phenomenal development in progress, a clash of amazing proportions. Regardless of whether you know it or not, you're included on the grounds that the consequence of this fight will decide the destiny of your children and people in the future both in America and around the globe. Be that as it may, you may just be enigmatically mindful of QAnon or "Q," if by any means. Let us look at some very important things you will learn in this book The meaning of Conspiracy Theories The Psychology of Conspiracy Theories The Origin of QAnon The story of QAnon The identity of QAnon How This Conspiracy Theory Differs from Other Conspiracy Theories The Role of Social Network and the Fake News And much more! This awesome book tells the historical background of a mysterious banner on the free-discourse sites 4Chan and afterward 8Chan and how he (or maybe they) assembled an after of a large number of watchers around the world. With an insider's information on the battle plan, and "Q" level military knowledge leeway, QAnon's communications are frequently cryptic and coded. QAnon is an ace of the Socratic technique, posing inquiries and encouraging supporters to do their own examination, to be analytical, and to challenge themselves to think. Have you been persuaded by legacy media assertions that Q is a fraud or a "conspiracy theory?" Instead, ponder upon why the media would demand that you, a reasoning and able grown-up, ought to ignore Q at all cost? On the off chance that a simple "conspiracy theory," why all the recognition? What thoughts are so risky you ought to never hear them? Is there another side to the story? Read QAnon: The Awakening Begins. *QAnon and On Anchor*

A NEW YORK TIMES EDITORS' PICK / TOP 10 RECOMMENDED

READ Two experts of extremist radicalization take us down the QAnon rabbit hole, exposing how the conspiracy theory ensnared countless Americans, and show us a way back to sanity. In January 2021, thousands descended on the U.S. Capitol to aid President Donald Trump in combating a shadowy cabal of Satan-worshipping pedophiles. Two women were among those who died that day. They, like millions of Americans, believed that a mysterious insider known as "Q" is exposing a vast deep-state conspiracy. The QAnon conspiracy theory has ensnared many women, who identify as members of "pastel QAnon," answering the call to "save the children." With Pastels and Pedophiles, Mia Bloom and Sophia Moskalenko explain why the rise of QAnon should not surprise us: believers have been manipulated to follow the baseless conspiracy. The authors track QAnon's unexpected leap from the darkest corners of the Internet to the filtered glow of yogi-mama Instagram, a frenzy fed by the COVID-19 pandemic that supercharged conspiracy theories and spurred a fresh wave of Q-inspired violence. Pastels and Pedophiles connects the dots for readers, showing how a conspiracy theory with its roots in centuries-old anti-Semitic hate has adapted to encompass local grievances and has metastasized around the globe—appealing to a wide range of alienated people who feel that something is not quite right in the world around them. While QAnon claims to hate Hollywood, the book demonstrates how much of Q's mythology is ripped from movie and television plot lines. Finally, Pastels and Pedophiles lays out what can be done about QAnon's corrosive effect on society, to bring Q followers out of the rabbit hole and back into the light.

*QAnon & the #Pizzagates of Hell* Hardie Grant Publishing

This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?", *The Paranoid Style in American Politics* remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

With Europe convulsed in wars over religion, a young theology student finds himself siding with heretics and the disenfranchised while confronting an agent of the Vatican who intends to hunt down and destroy enemies of the faith.

**The Social Science of QAnon** All Points Books

"I hope everyone reads this book. It has become such a crucial thing for all of us to understand." —Erin Burnett, CNN "An ideal tour guide for your journey into the depths of the rabbit hole that is QAnon. It even shows you a glimmer of light at the exit."

—Cullen Hoback, director of HBO's *Q: Into the Storm* Its messaging can seem cryptic, even nonsensical, yet for tens of thousands of people, it explains everything: What is QAnon, where did it come from, and is the Capitol insurgency a sign of where it's going next? On October 5th, 2017, President Trump made a cryptic remark in the State Dining Room at a gathering of military officials. He said it felt like "the calm before the storm"—then refused to elaborate as puzzled journalists asked him to explain. But on the infamous message boards of 4chan, a mysterious poster going by "Q Clearance Patriot," who claimed to be in "military intelligence," began the elaboration on their own.

In the days that followed, Q's wild yarn explaining Trump's remarks began to rival the sinister intricacies of a Tom Clancy novel, while satisfying the deepest desires of MAGA-America. But did any of what Q predicted come to pass? No. Did that stop people from clinging to every word they were reading, expanding its mythology, and promoting it wider and wider? No. Why not? Who were these rapt listeners? How do they reconcile their worldview with the America they see around them? Why do their numbers keep growing? Mike Rothschild, a journalist specializing in conspiracy theories, has been collecting their stories for years, and through interviews with QAnon converts, apostates, and victims, as well as psychologists, sociologists, and academics, he is uniquely equipped to explain the movement and its followers. In *The Storm Is Upon Us*, he takes readers from the background conspiracies and cults that fed the Q phenomenon, to its embrace by right-wing media and Donald Trump, through the rending of families as loved ones became addicted to Q's increasingly violent rhetoric, to the storming of the Capitol, and on. And as the phenomenon shows no sign of calming despite Trump's loss of the presidency—with everyone from Baby Boomers to Millennial moms proving susceptible to its messaging—and politicians starting to openly espouse its ideology, Rothschild makes a compelling case that mocking the seeming madness of QAnon will get us nowhere. Rather, his impassioned reportage makes clear it's time to figure out what QAnon really is — because QAnon and its relentlessly dark theory of everything isn't done yet.

Q ANON: the Reluctant Warrior Routledge

'Detailed and impeccably researched. Eye-opening' GUARDIAN  
'Punchy and well-reported. Sommer is the perfect person to tell this story' NEW YORK TIMES

Revolution Q Bloomsbury Publishing

"The Protocols of the Elders of Zion" is almost certainly fiction, but its impact was not. Originating in Russia, it landed in the English-speaking world where it caused great consternation. Much is made of German anti-semitism, but there was fertile soil for "The Protocols" across Europe and even in America, thanks to Henry Ford and others.

*The World's Worst Conspiracies* Greenhaven Publishing

Most of the rational world is currently asking, "What is wrong with these Qanon people?" My book, #Pizzagates of Hell: Unreal Stories of Occult Child Abuse by the CIA, asks, "What is right with them?" Sure, Qanon is an unhinged, mostly right-wing group of individuals that believe the world is run by a left-wing cabal of satanic pedophiles. But, by the time of the 2020 U.S. presidential election, their numbers were growing. And not just in the United States. There have been contingents in the U.K., Germany and Australia. 89 Qanon supporters in the U.S. ran for Congress, suggesting that Qanon has come to represent a minor political constituency. My book doesn't ask what sort of deranged media and cultural environment gave rise to Qanon. Instead, it asks what it is about their ideology that has caught fire. More specifically, it asks: is there something in the supposedly delusional ravings of this new political movement that might actually be accurate? •Pedo cabal? Check. Notorious pedophile and spook Jeffrey Epstein had ties to two U.S. presidents, the king of Saudi Arabia, two Israeli prime ministers, and the British Royal Family. •Occultism? Check. British intelligence relied on Aleister Crowley, the disputed grandfather of satanism, as a spy from World War One and beyond. U.S. intelligence agent Lt. Col. Michael Aquino was an open satanist accused of ritual sexual abuse of children at multiple daycare centers across the U.S. and possibly abroad. •The Illuminati? Check. The Illuminati may not exist, per se, but numerous secret societies do exert undue influence on global affairs, from the Freemasons and Skull and

Bones to Bilderberg and Le Cercle. It's hard not to argue that we are ruled by a secret elite. •Turning Us All into Sex Slaves? Question mark. Though the long-rumored Monarch Program is feasible when one examines the history of the CIA's MK ULTRA, there is, so far, no proof of its existence. Once we've asked what Qanon has gotten right,

"Anthology of curated essays addressing QAnon and conspiracy theories--why they begin, how they catch fire, and how they affect politics and society"--

**Qanon** Abrams

"Only small secrets need to be protected. The large ones are kept secret by the public's incredulity." - Marshall McLuhan  
The media's favorite "hoax" is the Q Anon movement. Is it a joke? Is it dangerous? Who's involved and how did it begin? "Q Anon, An Invitation to The Great Awakening," explains the phenomena with the help of 12 citizen journalists—from the very first Q post right up until present day.

**Conspiracy Theories and the People Who Believe Them**

Melville House

Lamar Jimmerson is the leader of the Gnomon Society, the international fraternal order dedicated to preserving the arcane wisdom of the lost city of Atlantis. Stationed in France in 1917, Jimmerson comes across a little book crammed with Atlantean puzzles, Egyptian riddles, and extended alchemical metaphors. It's the Codex Pappus - the sacred Gnomon text. Soon he is basking in the lore of lost Atlantis, convinced that his mission on earth is to administer to and extend the ranks of the noble brotherhood.

Qanon McFarland

Pulitzer Prize-winning investigative journalist James Ball takes us into the depths of the internet to trace the origins and rapid ascent of QAnon, the movement that mutated from a niche online conspiracy theory into the world's first digital pandemic.\*A Financial Times Book to Read in 2023\*Imagine a deadly pathogen that, once created, could infect any person in any part of the globe within seconds. No need to wait for travellers, trains, or air traffic to spread it, all you need is an internet connection. In this gripping investigation, Pulitzer Prize winner James Ball decodes the cryptic language of the online right and with a surgeon's precision tracks the spread of QAnon, the world's first digital pandemic. QAnon began as an internet community dedicated to supporting President Trump and intent on outing a global cabal of human traffickers. A short, cryptic message posted by an anonymous user to a niche internet forum in 2017 was the spark that ignited a global movement. What started as a macabre game of virtual make-believe quickly spiralled into the spread of virulently hateful, dangerous messaging - which turned into tragic, violent actions. Incoherent, chaotic, free from agendas: QAnon is a one-size-fits all cult conspiracy. From a standoff at the Hoover Dam, to the storming of the U.S. Capitol on 6 January 2021, to protesting COVID-19 lockdowns, this digital pandemic has spread globally and shows no signs of stopping. In *The Other Pandemic* Ball takes us into the niche pathways through which these digital pathogens spread, mutate and infect people all across the globe - but he also argues that the prognosis doesn't have to be dire. He shows us that it is possible to treat and cure this virus in order to build up our digital immune systems, and be better prepared to survive the next wave.

**Auschwitz** Penguin

How 4chan and 8chan fuel white nationalism, inspire violence, and infect politics. The internet has transformed the ways we think and act, and by consequence, our politics. The most impactful recent political movements on the far left and right

started with massive online collectives of teenagers. Strangely, both movements began on the same website: an anime imageboard called 4chan.org. *It Came from Something Awful* is the fascinating and bizarre story of sites like 4chan and 8chan and their profound effect on youth counterculture. Dale Beran has observed the anonymous messageboard community's shifting activities and interests since the beginning. Sites like 4chan and 8chan are microcosms of the internet itself—simultaneously at the vanguard of contemporary culture, politics, comedy and language, and a new low for all of the above. They were the original meme machines, mostly frequented by socially awkward and disenfranchised young men in search of a place to be alone together. During the recession of the late 2000's, the memes became political. 4chan was the online hub of a leftist hacker collective known as Anonymous and a prominent supporter of the Occupy Wall Street movement. But within a few short years, the site's ideology spun on its axis; it became the birthplace and breeding ground of the alt-right. In *It Came from Something Awful*, Beran uses his insider's knowledge and natural storytelling ability to chronicle 4chan's strange journey from creating rage-comics to inciting riots to—according to some—memeing Donald Trump into the White House.

#### **Escaping the Rabbit Hole** Simon and Schuster

How the new conspiracists are undermining democracy—and what can be done about it. Conspiracy theories are as old as politics. But conspiracists today have introduced something new—conspiracy without theory. And the new conspiracism has moved from the fringes to the heart of government with the election of Donald Trump. In *A Lot of People Are Saying*, Russell Muirhead and Nancy Rosenblum show how the new conspiracism differs from classic conspiracy theory, how it undermines democracy, and what needs to be done to resist it.

#### Maddi's Fridge TrineDay

#### **Q** chasecheck ltd

A "sharp, witty, and well-researched" history of 4chan and its cultural impact (*The Rumpus*). Created by a fifteen-year-old wunderkind in 2003, it is the creative force behind "the Web's most infectious memes and catchphrases" (*Wired*). Today it has millions of monthly users, and enormous social influence. *Epic Win for Anonymous* is the first book to tell 4chan's story. Longtime blogger and 4chan expert Cole Stryker writes with a voice that is engrossingly informative and approachable. Whether examining the 4chan-provoked Jessi Slaughter saga and how cyber-bullying is part of our new reality, or explaining how Sarah Palin's email account was leaked, *Epic Win for Anonymous* proves 4chan's transformative cultural impact, and how it has influenced—and will continue to influence—society at large.

#### Trust the Plan Princeton University Press

The emergence of new communication technologies (such as the Internet and social media networking sites and platforms) has strongly affected social movement activism. In this compelling and timely book, Victoria Carty examines these movements and their uses of digital technologies within the context of social movement theory and history. With an accessible and unique mix of theory and real-world examples, *Social Movements and New Technology* takes readers on a tour through MoveOn and Tea Party e-mail campaigns, the hacktivist tactics of Anonymous, global online protests against rapists and rape culture, and the tweets and Facebook pages that accompanied uprisings across the Arab world, Europe, and the United States. In each case study, the reader is invited to examine the movement, organization, or protest and their use of digital tools through the lens of social movement theory. Discussion questions at the end of each chapter invite critical thinking, further reflection, and debate.
