International Law Routledge
 The definitive text on globalization, this book provides an accessible, jargon-free analysis of how the world economy works and its effects on people and places. Peter Dicken synthesizes the latest ideas and empirical data to blaze a clear path through the thicket of globalization processes and debates. The book highlights the dynamic interactions among transnational corporations, nations, and other key players, and their role in shaping the uneven contours of development. Mapping the changing centers of gravity of the global economy, Dicken presents in-depth case studies of six major industries. Now in full color throughout, the text features 228 figures. Companion websites for students and instructors offer extensive supplemental resources, including author videos, applied case studies with questions, lecture notes with PowerPoint slides, discipline-specific suggested further reading for each chapter, and interactive flashcards.
 New to This Edition: *Every chapter thoroughly revised and updated. *All 228 figures (now in color) are new or redesigned. *Addresses the ongoing fallout from the recent global financial crisis. *Discussions of timely topics: tax avoidance and corporate social responsibility; global problems of unemployment, poverty, and inequality; environmental degradation; the Eurozone crisis; and more. *Enhanced online resources for instructors and students.

The Multilingual Reality of Global Business Expansion Guilford Publications

"We have continued to evolve the structure and content of this textbook in step with the rapidly changing world of international

business. This includes completely revising several key chapters, including Chapter 6, on International Trade. This is entirely updated and includes new case studies covering both the trade-war between the US and China and the complex Brexit process. These and other real-world developments have made a wide range of stakeholders much more aware of the significance of global trade interdependencies than in the past. Chapter 16 on the European Union is also entirely updated to take account of Brexit and a range of new socio-political and economic events in Europe. Chapter 11 ('MNEs as Responsible Stakeholders') has been removed, making this edition more consolidated, with 20 rather than 21 chapters. In place of Chapter 11 we have inserted new sections, frameworks and case studies on responsible business throughout the book as a fundamental dimension of international business theory and practice across all the other chapters. New case studies, such as 'Businesses and NGOs working together on climate change' in Chapter 4, provide additional material on this topic. Chapter 14, on 'Political risk and negotiation strategy' also features new case studies on the 'US-Venezuela oil dispute' and 'Huawei accused of spying'."

Exploring Management, 5th Edition Tata McGraw-Hill

Education

This book provides a new approach to management and strategy

in the business environment by addressing the issues that arise when a firm is embedded in the nonmarket environment, or the legal, political, and social context in which the firm is embedded. Its approach is a managerial one, rather than a public policy or social responsibility perspective, and focuses on issues of importance to managers of firms, emphasizing analysis and reasoning as the foundations for forming effective and responsible business strategies. The book gives conceptual frameworks for analyzing the business environment. They are: 1) understanding issues and their development, 2) strategy formulation, 3) analyzing the news media, 4) political analysis, 5) market failures, 6) the economics and politics of government intervention, 7) the economics and politics of international trade, 8) country analysis, and 9) ethics analysis and decision-making. These frameworks are based in the disciplines of economics, political science, law, and ethics and are applied to the environment of business in the United States and other countries, including China, Japan, and the European Union. The book contains 73 case studies, including Microsoft, eBay, ScheringPlough, Citigroup, DoubleClick, and British Petroleum. For managers in firms in the United States and other countries, and government employees whose jobs deal with the policy-making and business.
