Leading Women Thomas Dunne Books

Intentioning by best-selling author Gloria Feldt will help you envision the life and career you might have thought were impossible dreams, then give you the courage and actionable tools to achieve them. In the wake of the coronavirus pandemic and a pandemic of racial injustice that together shook our world to its core and revealed deep fault lines in our culture, Gloria Feldt, New York Times best-selling author, speaker, commentator, international leadership expert, successful CEO, and feminist icon, shows how we can seize the once-in-a-lifetime opportunity created by massive disruption to build back stronger with diverse women at the center of the recovery. In *Intentioning: Sex, Power, Pandemics, and How Women Will Take The Lead for (Everyone's) Good*, Feldt inspires diverse women to embrace their personal power to lead with intention, confidence, and joy. It comes as no surprise to her that women flexed their formidable muscles when needed most, representing a disproportionate number of essential workers during the darkest days of the coronavirus global outbreak and leading the charge against racism in the United States. But this book is decidedly about the future, taking the leadership lessons learned from this disruption and creating a better world for all. Feldt not only unveils the next step in advancing gender parity in all spheres of business and life, but she also lays out the vital next steps in the overall advancement of our economy and our civilization. The "Lead Like a Woman" framework and the "9 Leadership Intentioning Tools" she presents in this book will prepare, motivate, and propel women of all diversities and intersectionalities now so that by 2025, women will have attained their fair and equal share of leadership positions across all sectors of industry and society. We simply cannot squander women's talents when so much hangs in the balance. Women must be at the vanguard of reimagining and reconstructing a vibrant and sustainable future for us all.

Interrogating Women's Leadership and Empowerment World Scientific

"What is women's empowerment, and how and why does it matter for women's health? Despite the rise of a human rights-based approach to women's health and increasing awareness of the synergies between women's health and empowerment, a lack of consensus remains as to how to measure empowerment and successfully intervene in ways that improve health. *Women's Empowerment and Global Health* provides thirteen detailed, multidisciplinary case studies from across the globe and through the course of a woman's life to show how science and advocacy can be creatively merged to enhance the agency and status of women. Accompanying short videos provide background about programs on the ground in India, the United States, Mexico, Nicaragua, Zimbabwe, and South Africa. *Women's Empowerment and Global Health* explores the promises and limits of programmatic, scientific, and rights-based work in real-world settings and provides the next generation of researchers and practitioners, as well as students in global and public health, sociology,

anthropology, women's studies, law, business, and medicine, with cutting edge and inspirational examples of programs that point the way toward achieving women's equality and fulfilling the right to health."--Provided by publisher.

The #1 international best seller *In Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

It examines the situation of women in, and their contribution to, politics, business, education, social and economic development, the women’s movement, health, law, insurgency and the arts. The volume analyses certain key issues of contemporary discourse including: • ownership of one’s body and freedom of choice • redefinition of empowerment and leadership and how far we have achieved it • importance of equal access to education, employment and health • political participation and decision making, and • dichotomy between marginalisation of women on grounds of caste, class and religion in a society with changing laws on women’s rights

New York Times Bestseller Edited and with an introduction by Roxane Gay, the New York Times bestselling and deeply beloved author of *Bad Feminist* and *Hunger*, this anthology of first-person essays tackles rape, assault, and harassment head-on. *Vogue*, “10 of the Most Anticipated Books of Spring 2018” * *Harper’s Bazaar*, “10 New Books to Add to Your Reading List in 2018” * *Elle*, “21 Books We’re Most Excited to Read in 2018” * *Boston Globe*, “25 books we can’t wait to read in 2018” * *Huffington Post*, “60 Books We Can’t Wait to Read in 2018” * *Hello Giggles*, “19 Books We Can’t

Wait to Read in 2018” * *Buzzfeed*, “33 Most Exciting New Books of 2018” In this valuable and revealing anthology, cultural critic and bestselling author Roxane Gay collects original and previously published pieces that address what it means to live in a world where women have to measure the harassment, violence, and aggression they face, and where they are “routinely second-guessed, blown off, discredited, denigrated, besmirched, belittled, patronized, mocked, shamed, gaslit, insulted, bullied” for speaking out. Contributions include essays from established and up-and-coming writers, performers, and critics, including actors Ally Sheedy and Gabrielle Union and writers Amy Jo Burns, Lyz Lenz, Claire Schwartz, and Bob Shacochis. Covering a wide range of topics and experiences, from an exploration of the rape epidemic embedded in the refugee crisis to first-person accounts of child molestation, this collection is often deeply personal and is always unflinchingly honest. Like Rebecca Solnit’s *Men Explain Things to Me*, *Not That Bad* will resonate with every reader, saying “something in totality that we cannot say alone.” Searing and heartbreakingly candid, this provocative collection both reflects the world we live in and offers a call to arms insisting that “not that bad” must no longer be good enough.

Love Is a Mountain Simon and Schuster

How Dwight D. Eisenhower led America through a transformational time—by a DC policy strategist, security expert and his granddaughter. Few people have made decisions as momentous as Eisenhower, nor has one person had to make such a varied range of them. From D-Day to Little Rock, from the Korean War to Cold War crises, from the Red Scare to the Missile Gap controversies, Ike was able to give our country eight years of peace and prosperity by relying on a core set of principles. These were informed by his heritage and upbringing, as well as his strong character and his personal discipline, but he also avoided making himself the center of things. He was a man of judgment, and steadying force. He sought national unity, by pursuing a course he called the "Middle Way" that tried to make winners on both sides of any issue. Ike was a strategic, not an operational leader, who relied on a rigorous pursuit of the facts for decision-making. His talent for envisioning a whole, especially in the context of the long game, and his ability to see causes and various consequences, explains his success as Allied Commander and as President. After making a decision, he made himself accountable for it, recognizing that personal responsibility is the bedrock of sound principles. Susan Eisenhower's *How Ike Led* shows us not just what a great American did, but why—and what we can learn from him today.

Children in today's world are inundated with information about who to be, what to do and how to

live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Vital Voices Little, Brown Spark

The book, *Economic Empowerment of Women in the Islamic World*, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making. This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care. It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.

We all have been given gifts, but for many, those gifts have yet to be discovered. Some are prompted by their biological clock and others need a little push to wake up their potential and put it to good use. A crisis or tragedy also may push someone into unlocking the hidden talents they possess. We are all called to be leaders, but being a leader is more than telling people what to do. It

is about recognizing the talents that lie within you and rising to meet challenges when needed, thereby becoming who you were meant to be. *Wake Up The Leader Within You* encourages you to discover and feed the gifts that lie dormant within you.

Women and Leadership International Monetary Fund

Women and Leadership around the World is the third volume in a new series of books (*Women and Leadership: Research, Theory, and Practice*) that will now be published to inform leadership scholars and practitioners. The purpose of this volume is to explore areas of women's leadership in four regions around the world: the Middle East, Europe, North America, and Asia Pacific. Hence, we have included 14 chapters that cover a wide range of important topics relevant to women and leadership within specific contexts around the world. Our goal for this volume is to provide readers with explorations of women's experiences as leaders, including recent research studies, analysis and interpretation of statistics unpacking the status of women in various sectors and countries, stories of influential women leaders with national or local spheres of influence, and including recommendations for positive change to increase women's access to positions of authority. The volume contributors use various theories and conceptualizations to problematize, historicize, and analyze women's limited access to power, and their agency as leaders from the grassroots to the national scene, from education to non-profits and business organizations. Overall, the book contributes interpretations of the status of women in various countries, presenting the stories behind the numbers and statistics and uncovering not only challenges but also opportunities for resiliency and effectiveness as leaders. The authors offer recommendations for change that cross national boundaries, such as structural changes in organizations that would open the door for more women to access positions of authority and be effective as leaders. It is rare to find a book with such a diverse array of topics and countries, making this a timely contribution to the literature on women and leadership. The authors remind us to continue to expand the literature base on women and leadership, drawing from both qualitative and quantitative studies as well as conceptual explorations of women as leaders in different countries, regions, indigenous communities, and across different sectors. The more we know, the better informed will be our efforts to create appropriate leadership development activities and experiences for emerging women leaders and girls around the world. This book contributes significantly to that very effort.
